(i) Provide them with the lists of advertised posts (both teaching and non-teaching) that are earmarked for employment equity and affirmative action measures.

(ii) Supply them with the employment equity gender and racial grid which reflects the under-representation of people from the designated groups in each occupational category / level / unit / institution where the vacant post(s) exist(s).

(iii) Advise them that the suitably qualified applicants / candidates, particularly women and people with disability, must receive the first preference, but these employees shall go through all the normal recruitment and selection procedures.

C. Findings:
5.12.1. The situational workforce analysis of the Department was conducted through PERSAL and was found that:

(i) The Department’s general standing in respect of the implementation of the EEA is summarily below average, as reflected by Tables 01 – 05 respectively of this EE Plan

(ii) The glaring workforce imbalance detected as of now is in the areas of recruitment; selection and appointment

(iii) The total workforce at managerial positions (salary levels 8 – 16) is dominated by male employees

(iv) The total number of women at management positions seriously decreases as the hierarchical management ladder of the Departmental workforce goes up. The picture that is painted by this statement is quite evident when one goes inside the individual components / units, where women are grossly under – represented at managerial positions

(v) The total number of people with disabilities at management positions is very small (is only 57 as per Table 04) when one compares it with the total number of the employees of the Department and they are characterized by their absence in certain higher occupational levels of the workforce

(vi) Young employees who are below 40 years of age are only 11 589 in number whilst the number of the employees who are from 50 years of age and above is 25 100. Unfortunately, this large group of elderly employees qualify to exit the system during the next FIVE (5) years from now (i.e. as from the year 2018), through the natural attrition systems. This situation casts a huge dark cloud over the future of the Department, with regard to quality service delivery level which may be affected by the departure of these elderly employees. Young employees must be given much attention with regard to their increase in number as they shall remain the pillars of the Department in a space of almost FIVE (5) years from the year 2018 after the majority of the elderly employees have exited the system through the natural attrition processes

5.12.2. Regarding the availability of the key infrastructure and working tools to assist the proper implementation of employment equity issues, the situation was found to be below the average in many aspects and was characterised by the absence or minimal presence of the key equipment / documentation, some of which are mentioned below:

(i) Budget to drive the EE programmes

(ii) Publication of the EE matters

(iii) Establishment of work place forums at all levels
(iv) Key documents like EE Act, EE Plan, EE Policies and Procedures

(v) Access ramps and lifts

(vi) Adapted government vehicles, telephones, computers etc.

(vii) Aids (both materialistic and human) to assist the blind, dumb, deaf, amputated etc.

(viii) Training programmes which directly address the employment equity issues etc.

D. Remedial Action:

5.13. In order to address the gross imbalances in advertising, recruitment; selection, promotions and appointment practices, the corrective measures indicated below are recommended to assist the Department to implement the provisions of the EEA as expected and as expressed in this EE Plan:

(i) Both the newly created posts and residual vacancies at managerial levels shall be equally affected by this Remedial Action

(ii) All managerial positions (both school-based & and office-based / non-educator) shall also be addressed through this Remedial Action proposal

(iii) Managerial positions shall be distributed amongst the racial groups in line with the Population Demographics of the Eastern Cape Province as guided by the 2016 STATS SA data which is reflected below:

- Black Africans : 86.4%
- Coloureds : 8.6%
- Indians /Asians : 0.4%
- Whites : 4.6%

(iv) An ad hoc EE Plan Committee shall sit and work on the distribution formula of the said managerial positions before any advertisement goes out

(v) Upon the finalisation of the distribution process, correspondence signed by the EE Manager shall be sent out to all the EE Plan Consultative Forum members; relevant District offices; Directorates; Trade Union offices and affected institutions / components / units, informing them about the posts that have been earmarked to address the employment equity imbalances (i.e. women & people with disabilities) at the workplace. This action shall be in line with what is contemplated in sections 3.1.10 – 3.1.13; 3.2.11; 3.3.9. – 3.3.10; 3.4.1. – 3.4.4. of this EE Plan

(vi) The issue of the youth recruitment at entry / junior level posts shall form part of this process
(vii) The composition of the *ad hoc* EE Plan Committee shall consist of 16 officials whose representation shall be as follows:

- 3 officials from HRP Unit
- 3 officials from the Recruitment Unit (HRA)
- 1 official from each registered Trade Union / SGB Association

5.14.2. 2% per batch of the advertised managerial posts / positions shall be earmarked for the appointment of suitably qualified and experienced people with disabilities, irrespective of the nature of disability, gender and racial group, particularly people with disability at the 40-55 years age group, but this arrangement does not exclude them from being considered for appointment outside the parameters of the earmarked posts / positions.

SECTION SEVEN:

7. CONCLUSION

7.1. This EE Plan shall be evaluated at intervals of twelve months with a view to pick up areas of excellence and disappointments, which shall be used as a basis for re-enforcement and correction of strategies and tactics in the subsequent EE Plan.

7.2. The reviewal of this EE Plan shall take place after four (4) years to determine whether the set objectives were met and if this EE Plan is still in line with legislative changes or Collective Agreements of the time.

7.3. It is important to note that not all the barriers to AA Measures were mentioned in this EE Plan, as the idea was to avoid an overload of strategies and tactics, which at the end of the day, would be unachievable during the life-span of this EE Plan.
