ABRIDGED SECTION 4

GRADE 12 CAPS AMENDMENTS

**Implementation Date:
January 2021**

Contents

SECTION A: ABRIDGED CAPS SECTION 4 AMENDMENTS

1. **Introduction**
2. **Purpose**
3. **Conclusion**

SECTION B: SUBJECT SPECIFIC AMENDMENTS

1. **Accounting**
2. **Agricultural Management Practices**
3. **Agricultural Sciences**
4. **Agricultural Technology**
5. **Business Studies**
6. **Computer Applications Technology (CAT)**
7. **Civil Technology – Civil Services, Construction and Woodworking**
8. **Consumer Studies**
9. **Economics**
10. **Electrical Technology – Digital Electronics, Electronics and Power Systems**
11. **Engineering Graphics & Design (EGD)**
12. **First Additional Languages (FAL)**
13. **Geography**
14. **History**
15. **Home Languages**
16. **Hospitality Studies**
17. **Information Technology (IT)**
18. **Life Orientation**
19. **Life Sciences**
20. **Mathematical Literacy**
21. **Mathematics**
22. **Mechanical Technology – Automotive, Fitting and Machining & Welding and Metalwork**
23. **Physical Sciences**
24. **Religion Studies**
25. **Second Additional Languages**
26. **Technical Mathematics**
27. **Technical Sciences**
28. **Tourism**

PLEASE NOTE: The Arts Subjects are published in a separate document.

SECTION A: ABRIDGED CAPS SECTION 4 AMENDMENTS

1. Introduction

The National Curriculum Statement, Grades R-12 was approved as National Policy and published in the Government Gazette 34600, Notices 722 and 723 of 12 September 2011.

The National Curriculum Statement, Grades R-12 comprises:

- The Curriculum and Assessment Policy Statements for all approved subjects for Grades R-12;
- The *National Policy Pertaining to the Programme and Promotion Requirements of the National Curriculum Statement Grades R-12*; and
- The National Protocol for Assessment.

A number of concerns were received from teachers, subject specialists, parents and education stakeholders about the **challenges** in the **implementation** of the Curriculum and Assessment Policy Statements (CAPS) in many subjects across the grades with regards to:

- **curriculum/assessment overload** and poor **curriculum coverage**;
- poor **quality** of formal **assessment tasks**;
- lack of guidance on the use of **cognitive levels**;
- omissions on the **forms of assessment**; and **weighting** of assessment with regards to **time and marks**;
- the need to create **more time for teaching and formative assessment**;
- the **number of tasks based** on the **need** to make valid and reliable judgments about learning outcomes;
- shift from **disconnected** 'tagged on' assessments to **credible assessment** tasks;
- the **nature of the subject and Grade** used to determine the required number of assessment tasks; and
- to **reduce dominance** by any single type or mode, e.g.: Tests, Projects, Assignments, Case Studies, Simulations etc.

The Department of Basic Education has considered the concerns and has agreed to undertake a holistic review of the CAPS documents to enhance the effectiveness of the curriculum. However, a curriculum strengthening process is lengthy and includes strict policy processes. To urgently address the most pressing needs and provide interim relief to teachers whilst supporting effective curriculum implementation, transitional arrangements have been approved whilst allowing the rigorous process of strengthening the CAPS to take place.

The DBE developed an abridged version of Section 4 of the CAPS, focusing mainly on the reduction of formal assessment tasks across most subjects.

2. Purpose

This document presents an abridged version of Section 4 of the CAPS document. It specifically provides the interim changes made to the programme of assessment for subjects in Grades 12, for implementation in January 2021.

The changes were made to relieve teachers from the burden of overload regarding the number of assessment tasks, thus, improving the focus on teaching and learning. The revisions in some subjects also include guidance regarding cognitive demands and types of assessment.

The reduction of tasks in the FET phase varies from subject to subject based on the individual nature of the subject.

3. Conclusion

The amendments contained in this booklet must be read in conjunction with the relevant Curriculum and Assessment Policy Statements for the identified subjects in the FET Band.

SECTION B: SUBJECT SPECIFIC AMENDMENTS

1. Accounting

Programme of Assessment Grades 12

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term. The requirements (number and nature of tasks) for Accounting are indicated below:

Grade 12 Programme of Assessment

Assessment	Term 1		Term 2		Term 3		Term 4		Total
	Written report	Test	Project	Midyear examination	Case Study	Trial examination	Year-mark	Final examination	
Marks *	50	100	50	Two papers 2-hours each 2 x 150 = 300	50	Two papers 2-hours each 2 x 150 = 300		Two papers 2-hours each 2 x 150 = 300	
Convert to mark out of:	10 (50 ÷ 5)	10 (100 ÷ 10)	20 (50 ÷ 2,5)	25 (300 ÷ 12)	10 (50 ÷ 5)	25 (300 ÷ 12)	100	300	400
Term weighting	25	75	25	75	25	75			

* Marks indicate the minimum mark per formal assessment task except examinations

4.4.1 Other forms of assessment

Various types of tasks are explained below. For those which involve independent work by learners in their own time, teachers are advised to ensure that certain aspects are completed in class. Teacher supervision of these aspects will tend to ensure that learners work independently and that their progress is monitored

Project

A project in each of the grades in the FET band is mandatory. Only one project per annum is recommended per grade. When preparing a project, consider the following minimum requirements:

- Learners should be given the necessary guidance prior to commencement of the project and their progress must be monitored.
- All criteria used to assess the project must be discussed with the learners.
- Generally, projects are given a longer period of time to complete as they involve some form of research, consolidating and choosing relevant information and preparing a written document as evidence.
- Often projects can pertain to some form of problem; and
- Research may form part of the project - the project is the evidence of the research conducted.
- Accounting skills may be developed through a project by incorporating use of accounting software programmes.

A suggestion is that projects are dealt with towards the end of a particular term (e.g. first term) for submission during the **next** term.

Presentation

Presentations can be written or oral, but there must be evidence of the presentation. All criteria used to assess the presentation must be discussed with the learners prior to the commencement of the presentation. Where resources are available, the use of electronic presentations should be encouraged.

Case Study

Learners are presented with a real-life situation, a problem or an incident related to the topic. They are expected to assume a particular role in articulating the position. They would draw on their own experience, the experience of peers or prior learning to interpret, analyse and solve a problem or problems.

Newspaper articles, magazine articles, and TV or radio presentations form excellent case studies. Learners have to read and/or listen, digest the information and then make informed decisions. Questions can range from lower order, e.g. direct quotes from the article, to higher order when they are asked to analyse comments or make suggestions.

Case studies are a very good way of keeping the subject up to date and relevant.

Report

A report is generally the written evidence of a survey, analysis or investigation. Generally, this will be shorter than a project and it is specific to the topic, e.g. a business has come to you for advice on whether the business is experiencing liquidity problems. Often it implies consulting with an expert for advice on some problem - therefore it links very well with problem-solving.

Tests

One test, written under **controlled** conditions, is prescribed for Grade 12. The test should adhere to the following:

- It must be completed by all classes in the same grade on the same day;
- All learners write the same test, which is completed under examination conditions;
- Questions must comply with yearend examination standards;
- Where there is more than one teacher, agreement must be reached on the scope, as well as the date and time of the test;
- The duration of the test should be one and half hours for 100 marks;
- The test should cover the different cognitive levels as in examinations. See table on cognitive levels below.

4.4.2 Examinations

The following guidelines should be considered when constructing examinations:

- *Content*

Content stipulated specifically for the grade	80%
Content stipulated in previous grades which impacts on assessment in subsequent grades	20%

- *Cognitive levels: Refer to Bloom's revised taxonomy: Remembering, Understanding, Applying, Analysing, Evaluating and Creating*

Basic thinking skills (e.g. factual recall, low level comprehension and low-level application)	30%
Moderately high thinking skills (e.g. more advanced application, interpretation and low-level analysis)	40%
Higher-order thinking skills (e.g. advanced analytical skills, evaluation and creative problem-solving)	30%

- *Problem-solving*

Approximately 10% to 15% of all examinations should address problem-solving questions using critical and creative thinking. These include the solving of real-life problems within the context of the Accounting curriculum.

These problem-solving questions must also cover a range of cognitive skills (lower, middle and higher order) to cater for all learners but within the context of the learners. For example, 'surface' problem-solving questions might involve recall or comprehension skills on familiar information while 'deep' problem-solving questions will generally involve creative solutions in new and unfamiliar scenarios falling within the ambit of the Accounting curriculum.

While analysis involving financial indicators can form very interesting problem-solving questions, the topic of problem solving goes a lot further and should be integrated into all aspects of the curriculum so that the learners develop the skills to apply the knowledge acquired.

Guidelines for 'deep' problem-solving questions are:

- Learners identify problems from Accounting information provided.
- Learners quote the relevant information to support their opinions on the problems.
- Learners provide valid and appropriate solutions.

Midyear examinations

Below is an outline of the structure of the midyear examinations in each of the grades.

*In proportion to time devoted to each topic					
Implementation date		Paper	Time	Marks	Topics*
Grade 12	2020	Paper 1	2 hours	150	Discipline 1
		Paper 2	2 hours	150	Discipline 2

NB.: The two papers must be written on two separate days.

Trial examination (Grade 12 only)

The trial examination is one of the six tasks of the Programme of Assessment for **Grade 12**. Ideally, the trial examination should cover the full scope of the Grade 12 curriculum and should model the final Grade 12 examination. Below is an outline of the structure of the trial examination:

Implementation date		Paper	Time	Marks	Topics
Grade 12	2020	Paper 1	2 hours	150	Discipline 1
		Paper 2	2 hours	150	Discipline 2

NB.: The two papers must be written on two separate days

Final examination

Grades 12 should write two papers each of 2-hours and 150 marks as a final examination.

*In proportion to time devoted to each topic					
Implementation date		Paper	Time	Marks	Topics*
Grade 12	2020	Paper 1	2 hours	150	Discipline 1
		Paper 2	2 hours	150	Discipline 2

NB.: The two papers must be written on two separate days.

Formula sheet for financial indicators

A formula sheet will be provided to learners. However, the titles will not be provided for each formula. Interpretation of the indicators is of paramount importance. Teachers are advised to deter learners from adopting a rote-learning approach to the indicators, and rather to encourage them to understand the purpose and rationale of each financial indicator. This approach will enable learners to provide well-informed comments on the indicators in interpreting the financial information.

2. Agricultural Management Practices

4.4 Programme of Assessment

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term.

4.4.2 Grade 12

Formal assessment: Grade 12 (Six Tasks)

Term 1	Term 2	Term 3	Certification Mark
(1) Assignment - 25% (2) Control test - 75%	(3) Mid-year examination - 100%	(4) Trial examination 100%	SBA Term1: 100 Term 2: 100 Term 3: 100 Total SBA: $300 \div 12 = 25$ (5) PAT Management Overview: 20 Practical Activities: 50 Management Test: 20 Time Register: 10 Total PAT: $100 \div 4 = 25$ (6) External Examination: Total $200 \div 4 = 50$
100	100	100	Total certification Mark: 100

Certification Mark for Grade 12		
SBA (25%)	PAT (25 %)	End-of-year assessment (50%)
Term 1: 100	Practical assessment task: 100	End-of-year examination: 200
Term 2: 100		
Term 3: 100		
100	100	200
<ul style="list-style-type: none"> Internally set Internally marked Externally moderated Recorded on SASAMS SBA mark sheet provided by the provincial assessment body 	<ul style="list-style-type: none"> Internally set Internally marked Externally moderated Recorded on SASAMS marksheet provided by the provincial assessment body 	<ul style="list-style-type: none"> Externally set Externally marked Externally moderated Externally captured Recorded on SASAMS marksheet provided by the provincial assessment body

4.4.3 Assignments Tasks

Grade 10 to 12 each have a minimum of 1 assignment in term 1

Grade 12 Assignment

Assignments could be designed from the following content:

- farm planning
- recording
- product harvesting
- marketing
- value adding
- processing
- Packing and distribution.

Grade 12 examinations

- The Grade 12 examination paper focuses on generic enterprises that are covered by all schools irrespective of their agro-ecological area.
- The mid-year examination for Grade 12 should consist of one paper with a mark allocation of 200 marks. The suggested duration of the end of the year examination paper is three hours.
- The trial examination should almost resemble the end-of-year examination in terms of the layout of the paper, the content that is covered and the questioning style. This paper should also be written in three hours with a mark allocation of 200 marks.
- The end-of-year examination is a written paper, which is set and moderated externally. It accounts for 50% of the marks for assessment. The external examination for Grade 12 should consist of one paper, which has a total of 200 marks. The duration of the paper should be three hours.

Duration of the Paper 3 hours

Production Enterprise	Shorter questions	Longer questions	Total Marks
Section A	50 marks		50
Section B (3 questions)		3 × 50 marks	150
Total Marks	50	150	200

3. Agricultural Sciences

4.3 Formal Assessment

In Grade 12 the formal assessment constitutes 25% and is set and marked internally and moderated externally. The remaining 75% of the final mark for certification in Grade 12 is set, marked and moderated externally.

Formal assessment: Grade 12 (6 tasks)			
Term 1	Term 2	Term 3	Certification mark
Task based assessment 1: 25% Control test: 75%	Task based assessment 2: 25% Mid-year examination: 75%	Trial examination: 100%	SBA: Weighting Task Based assessment: Practical investigation: 10 Assignment: 10 Test based assessment: Control test: 20 Mid-year examination: 30 marks Trial examination: 30 Total: 100 Examination: External Total: 300
100	100	100	Total certification mark: 400

In Grade 12 **five** tasks are completed during the school year and make up 25% of the total marks for Agricultural Sciences.

In Grade 12 there are two external examination papers totaling 300 marks. Together these two papers make up the remaining 75%.

4.3.1 Formal Assessment tasks

Programme of Assessment

The programme of assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term

4.4.1 Grade 12

Program of Assessment (Grade 12)					External assessment
Assessment Tasks (Cass)					End-of-year assessment
Percentage allocated	25%				75%
Forms of assessment	Practical investigation and Assignment	Controlled test	Mid-year examinations	Trial Examination P1 & P2	November examinations P1 & P2
Number of pieces	2	1	1	1	1
Marks	10	10	20	30	30
Sub totals	100				300
Grand total	400				

Certification mark for Grade 12

SBA (25%)	End-of-year assessment (75%)
100	300
Internally set Internally marked Externally moderated Written on computerized SBA mark sheet provided by the provincial assessment body	Externally set Externally marked Externally moderated Externally capture
Total mark: 100 + 300 =400	

4.4.3. Tests/Quarter-ending tests and Examinations

1. A test in the programme of assessment should not be made up of several smaller tests. Each test should cover a substantial amount of content and should be set for 60-90 minutes.
2. The marks should be 75-100 considering the volume of the content covered and the time available.
3. Each task, test and examination must cater for a range of cognitive levels and abilities of learners. The following is used as a guide to compile tasks and examination questions encompassing the different cognitive levels:

Cognitive Levels	Percentage
Knowledge	40
Comprehension and Application	40
Analysis, evaluation and synthesis	20

4.4.5 Examinations: End-of-year examination (format/structure)

Grade 12 (Trial Exam and End of the Year Exam Format)

Paper: 1			
Duration 2.5 Hours			
Content	Section: A	Section B	Total Marks
<ul style="list-style-type: none"> • Animal Nutrition • Animal Production, • Protection and Control • Reproduction 	Question 1	Question 2 - 4	150
	45	Animal Nutrition: (35 Marks)	
		Animal Production, Protection and Control: (35 Marks)	
		Reproduction: (35 Mark)	

Paper: 2			
Duration 2.5 Hours			
Content	Section: A	Section B	Total Marks
<ul style="list-style-type: none"> • Agricultural Management and Marketing • Production factors • Basic Agricultural Genetics 	Question 1	Question 2 - 4	150
	45	Agricultural Management and Marketing: (35 Marks)	
		Production factors: (35 Marks)	
		Basic Agricultural Genetics: (35 Marks)	

Grade 12
A comprehensive practical investigation on animal nutrition, selection and identification of feeds and calculations in Pearson Square, nutritive value and interpretation of the various values

4. Agricultural Technology

4.4.1 Assessment in Grade 12

Programme of Assessment in Grade 12

Formal Assessment: Grade 12 (Six tasks)			
Term 1	Term 2	Term 3	Certification Mark
1. Research task - 25% 2. Control test 1 - 75%	3. June examination - 100%	4. Trial examination - 100%	SBA: Internal Term 1 – 100 Term 2 – 100 Term 3 – 100 Total 300/12=25% 5. PAT: Design – 25 Construction process – 50 Final product – 25 Total 100/4=25% 6. Final Examination: External Total 200/4=50%
100	100	100	Total Certification Mark:100%

Certification Mark for Grade 12		
SBA (25%)	PAT (25%)	Final examination (50%)
Term 1 – 100 Term 2 – 100 Term 3 – 100	Practical assessment task PAT - 100	End of year examination - 200
100	100	200
<ul style="list-style-type: none"> Internally set Internally assessed Externally moderated Written on computerized SBA mark sheet provided by the provincial assessment body 	<ul style="list-style-type: none"> Internally set Internally assessed Externally moderated Written on computerized PAT mark sheet provided by the provincial assessment body 	<ul style="list-style-type: none"> Externally set Externally assessed Externally moderated Externally captured
Total mark: 100 + 100 +200 = 400/4=100%		

Examples of Assessment Tasks in Agricultural Technology

Control Tests

The formal tests in Agricultural Technology must be substantive in terms of time and marks. Tests should include the theory of the technological process, principles and concepts and the application thereof in the production of product(s)/artefact(s).

Research task

This task should be based on activities such as research, case study, projects, simulations, modelling, fabrication, manufacturing and demonstration and should focus on a variety of technological themes relating to an agricultural context. Tasks such as simulations put theoretical knowledge to practical use and usually do not require conclusions. Therefore, simulations will not include elaborate worksheets and conclusions but should rather generate guidelines and criteria to what is required.

Examples of research tasks:

Grade 12

- do research on the maintenance of an electric fence;
- set up a small-scale solar panel system on the farm; and
- do research on a centre pivot irrigation system.

Examination

The mid-year and trial examinations for Grade 12 should consist of one paper of six questions and will count 200 marks. The suggested duration of the paper is 3 hours. All the questions are compulsory.

The trial examination needs to be closely related to the final examination in terms of time allocation, layout of the paper and subject requirements.

External assessment in Grade 12

The external assessment task in Grade 12 consists of an externally written paper (50%) and a PAT (25%).

External Examination

The external examination for Grade 12 will consist of one paper that contains six questions and counts 200 marks. The duration of the paper will be 3 hours. All the questions are compulsory.

The examination papers should test the knowledge and skills covered in Agricultural Technology.

Examination Guidelines for Agricultural Technology	
General remarks	
These guidelines are applicable to Grade 12 in Agricultural Technology.	
Specifications	
One paper	
Grade 12	
June Examination	
Duration	2.5 hours
Marks	150
Trial Examination	
Duration	3 hours
Marks	200
<ul style="list-style-type: none">• all the questions have to be answered;• sketches must be neat;• all calculations and units must be indicated; and• the questions will not necessarily count for the same marks, as each section of the work has a different weighting.	

Questions	Concepts Covered	Marks
Q 1	Multiple-choice (20), Change the UNDERLINED word (10) and Choose a word/term from COLUMN B that matches the description in COLUMN A (10). These questions can cover all content areas.	40
Q 2	Structural materials and related drawings, measurements and safety	35
Q 3	Electrical energy and related tools, materials and safety	20
Q 4	Skills and construction processes and related tools, materials, drawings, measurements and safety	35
Q 5	Tools, implements and equipment and related tools, materials, drawings, calibrations and safety	40
Q 6	Irrigation and water supply. Related tools, materials, drawings and measurements and communication	30
		200

The PAT for Agricultural Technology

The PAT comprises of a design component, and a manufacturing component. PAT leads to the design and development of the product according to the technological processes. The task should have functional value and must be based on real-life situations, for example the building of a braai, workbench, neck clamp, or drinking trough for animals, etc. The learners should be familiarised with the assessment criteria before they start with the task.

The PAT in Grade 12 is internally set and assessed but externally moderated. The project is completed under **controlled conditions in the school workshop** and is assessed by means of a rubric.

The PAT counts 25% of the total promotion mark (400).

The PAT counts 100 marks. It focuses on the development of the design portfolio (25 marks), the manufacturing processes (50 marks) and the final product (25 marks).

School/learners can choose their own projects keeping in mind the prescribed criteria for the manufacturing process and the criteria and format for assessing the design portfolio, processes during the manufacturing of the project and the final product.

Criteria for the Grade 12 PAT project

At least seven of the following techniques/skills must appear in the manufacturing of the final PAT product.

- at least one welding technique. (arc welding, oxy-acetylene welding or MIG welding);
- oxy acetylene cutting;
- soldering;
- measuring;
- Electro plating;
- drilling;
- sawing;
- filing;
- grinding;
- finishing off; and
- painting.

The format of the portfolio must be as follows:

Cover page	Learner name
	School
	Examination number
	Year
Index	Assignment
	Planning/research
	Design sketches
Material list	
	Cost calculations
	Source list
	Any additional information

Project: You must build a pump house for a newly bought greenhouse

Task:

- Determine the actual location.
- Draw up a site plan.
- Draw a building plan.
- Determine a quantity list.
- Do a cost calculation of all materials that are needed.
- Build the pump house.

Total [100]

Project: You must erect an electric fence around the farmyard

Task:

- Draw a site plan.
- Do a cost calculation of all materials that are needed.
- Safety measures.
- Erecting of the fence.

Total [100]

5. Business Studies

4.4 Programme of Assessment Grade 12

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term. The requirements (number and nature of tasks) for Business Studies are indicated below

GRADE 12						
	TERM 1		TERM 2		TERM 3	
Form of assessment	Case study	Controlled Test	Presentation	June exam	Project	Preparatory examination
Tool(s) of assessment	Marking guideline	Marking guideline	Rubric and Marking guideline	Marking guideline	Rubric and Marking guideline	Marking guideline
Total marks	50	100	50	300	50	300
Time allocation	2 Hrs	1.5Hr	1Hr	2 x 2Hrs	6 Weeks	2 x 2 Hrs
Date of completion	Week 8	Week 10	Week 6	Week 9 - 10	Week 2	Week 9 - 11
Content focus: Knowledge and skills	A minimum of 3 topics should be covered as per the ATP for Term 1	Control test should cover at least 4 topics as per the ATP for Term 1	At least 4 topics should be covered as per the ATP for Term 2	The June exam should cover all topics done as per the ATP for Terms 1 & 2	Term 3 topics as per the ATP	The final exam should cover all topics done for the year as per the ATP

Weighting of formal assessment in Grade 12

	Term 1		Term 2		Term 3			Term 4	
Assessment	Case Study	Control Test	Presentation	June examination	Project	Preparatory Exam	Year Mark	Final exam	Total
Total marks	50	100	50	Paper 1 150	Paper 2 150	50	Paper 1 150	Paper 2 150	
Per term weighting	25	75	25	75	25	75			
Per annum weighting	50/5 =10	100/10 =10	50/5 =10	300/12 =25	50/2.5 =20	300/12 =25	100	300	400
Final Mark							25	75	100

4.4.1 Forms of assessment

In Business Studies, the following forms of assessment must be administered:

- o Case study
- o Presentation
- o Project
- o Controlled Test/s
- o Examinations

Terms of references for all tasks:

- o The Programme of Assessment informs the type of assessment per term expected from learners
- o Each formal assessment task must consist of only one assessment activity
- o Each task must be completed by individual learners. (Group work is not allowed as it influences mark allocations as well and result in skewed SBA marks)
- o A topic must be specified and clear instructions given to learners as guidance of what is expected when completing the task
- o Questions must scaffold from lower cognitive levels to higher cognitive level questions where they are asked to analyse, comment and possibly make suggestions based on the topic and the case study given.
- o All tasks must be administered under controlled conditions. Learners must collect information and bring it to the classroom where the teacher and learners can interact with the collected information to complete the task

Case study

- o Teachers must provide learners with the topics on which the case study will be based for assessment
- o Learners must be allowed one week to collect resources on the topics
- o The case study must be administered and completed within two hours under controlled conditions
- o Case studies are a very good way of keeping the subject up to date and relevant
- o Learners are presented with a real-life situation, a problem or an incident related to the topic
- o Each formal assessment task must consist of only one assessment activity
- o They should draw on their own experiences or prior learning to interpret, analyse and solve a problem or set of problems and make suggestion/s and or recommendation/s to defend their arguments.
- o Case studies may be taken from newspaper articles, magazine articles, video clips or radio recordings and all sources must be acknowledged.

Controlled Tests

Only One controlled test is prescribed in Grade 12 and must be administered in Term 1. The controlled tests must adhere to the following:

- o It must be completed by all classes in the same grade on the same day.
- o Where there is more than one teacher, agreement must be reached on the scope as well as the date and time of the tests.
- o All learners write the same test under examination conditions.
- o The duration of the test must be one and a half hours for 100 marks.
- o The test must cover the different cognitive levels in examinations. See table on cognitive levels under Examinations in the following section.
- o The test must also include problem-solving questions.
- o The test must cover a range of integrated topics, as determined by the annual teaching plan work schedule and the assessment plan.
- o Questions must comply with year-end examination standards.

Presentation

- o A presentation in Business Studies consists of the following components:
 - **Written (40) marks**
 - **Oral (10) marks**
 - **Total (50) marks**
- o The presentation must be based on topics covered in term 2 according to the Annual Teaching Plan.
- o A maximum of five (5) minutes must be allocated for the oral presentation per learner.
- o A separate rubric must be used for both the written and oral part of the presentation.
- o The rubric for the written presentation must be accompanied by a marking guideline.

- o Evidence must be available of the oral mark allocated using a rubric.
- o The rubric for the assessment of the written as well as for the oral part of the presentation must include the following aspects:
 - Criteria used to assess must be discussed with the learners prior to the commencement of the project.
 - Clear level descriptors, which represents the contents of the topic identified for assessment through specific criteria, must be used. (All levels from 0 – 5 must be included)
 - No clustering of levels is permitted, e.g. 0-1; 2-3 and 4-5
 - The depth of responses must be clear to allow a learner to obtain maximum marks.
 - Technical aspects required must also be set as criteria and to be clearly defined in the level descriptors.
- o Descriptors should be clearly developed in both rubrics.
- o Where e-learning resources are available, the use of electronic presentations should be encouraged and where e-learning resources are not available, posters and/or handout presentations are encouraged.

Project

- o The purpose of a research project is to develop the research, critical thinking and problem-solving skills.
- o Projects generally work well if they are structured around some form of problem and learners guided towards further research.
- o Research will form part of the project – the project is the evidence of the research conducted.
- o Projects must be given to learners towards the end of the second term for submission during the second week of the third term. Refer to the note at the end of Term 2 Content (page 40 for Grade 12)
- o A project is completed over a longer period of time, as they involve some form of research, consolidation and the choosing of relevant information to prepare a written document as evidence.
- o The control in the case of a project will be in the form of continuous monitoring of progress.
- o All the criteria used in a rubric to assess the project must be discussed with the learners prior to them commencing with the project.
- o A marking rubric must be used for the project and the following aspects are of importance:
 - Criteria used to assess must be discussed with the learners prior to the commencement of the project.
 - Clear level descriptors, which represents the contents of the topic identified for assessment through specific criteria, must be used. (All levels from 0 – 5 must be included)
 - No clustering of levels is permitted, e.g. 0-1; 2-3 and 4-5
 - The depth of responses must be clear to allow a learner to obtain maximum marks.
 - Technical aspects required must also be set as criteria and to be clearly defined in the level descriptors.

4.4.2 Examinations

The following guidelines should be considered when constructing examinations:

- o Content

Content stipulated specifically for the grade	100%
---	------

- o Cognitive levels

Basic thinking skills (e.g. factual recall, low-level application and low-level comprehension)	30%
Moderately high thinking skills (e.g. more advanced application, interpretation and low-level analysis)	50%
Higher-order thinking skills (e.g. advanced analytical skills, synthesis and evaluation)	20%

o Problem solving

Approximately 10% of all examinations should address problem-solving questions using critical and creative thinking.

These include the solving of real-life problems within the context of the Business Studies curriculum.

These problem-solving questions must also cover a range of cognitive skills (lower, middle and higher order) to cater for all learners, but within the context of the learners.

June examinations

Below is an outline of the structure of the June examination in each of the grades:

Grades	Paper/s	Time	Marks	Topics
Grade 12	1 and 2	2 Hrs each	150 marks each	As per Annual Teaching Plan per grade

Distribution of marks per section

Exam Paper	Paper	Section A	Section B	Section C	Total
Grade 12	1	30	80	40	150
	2	30	80	40	150

Preparatory examination (Grade 12 only)

A preparatory examination is one of the six tasks of the Programme of Assessment for **Grade 12**. Ideally, the preparatory examination should cover the full scope of the Grade 12 curriculum and should model the final Grade 12 NSC examination. Below is an outline of the structure of the preparatory examination:

	Paper	Time	Marks	Content
Grade 12	1	2 Hrs	150	Business Environment and Business Operation
	2	2 Hrs	150	Business Venture and Business Role

End-of-year examinations

Grade 12 must have two question papers consisting of 150 marks EACH and the duration must be 2 hours per paper.

	Paper	Time	Marks	Business Environment	Business Venture	Business Role	Business Operation
Grade 10-12	1	2 Hrs	150	50%			50%
	2	Hrs	150		50%	50%	

6. Computer Applications Technology (CAT)

Grade 12

Term	Term 1		Term 2			Term 3		Term 4			
Task	Task 1	Task 2	Task 3	Task 4		Task 5		External Examination			
Form / Types of Assessment	Theory Test	Practical Test	Alternative Task: Closed or Open Book or Case Study or Survey	Practical Exam	Theory Exam	Practical Exam	Theory Exam	SBA	Practical Exam	Theory Exam	Practical Assessment Task (Pat)
Total Marks	Min 50	Min 50	Min 50	150	150	150	150	Min 750	150	150	150
Report Mark Weighting	50%	50%	20%	40%	40%	50%	50%	25%	25%	25%	25%
SBA Weightings	10%	10%	10%	17,5%	17,5%	17,5%	17,5%	100%			
Time Allocation	45 - 60 Minutes	45 - 60 Minutes	45 - 60 Minutes	3 Hours	3 Hours	3 Hours	3 Hours	Term 1 – 3	3 Hours	3 Hours	Term 1 – 3

Alternative types of assessment

An alternative type of assessment for CAT is a survey and a case study. A survey or a case study is optional assessment to a test (Task 3 Term 2).

Survey

The survey will assess skills and knowledge acquired for the section Information Management. It will also twin as preparation for the relevant section in the Practical Assessment Task.

The survey has two sections to this assessment task:

- Section 1

Creating a questionnaire to gather responses from an indicated number of respondents to a given scenario. The findings of the survey will be presented to a target audience indicated in the instructions. This section of the task should be done under controlled conditions. At the end of the duration the questionnaire must be handed in/submitted for marking.

- Section 2

Presenting the questionnaire to respondents for completing. The responses must then be processed in a spreadsheet according to the instructions given. Findings of survey will be submitted together with the completed questionnaires. Section 2 to be handed in at a date stipulated in the instructions of the task.

The survey can also be presented as an integrated task (practical and theory) in which some questions/instructions will assess the theory aspects of Information Management. Skills and knowledge assessed must accommodate the required cognitive levels.

Case study

Case studies are in-depth investigations of real-life situation. Data is gathered from a variety of sources and by using several different methods. A case study is a research method involving an in-depth, and detailed examination of a scenario, as well as its related contextual conditions.

The duration of a case study should be 45 to 60 minutes.

Structure of Papers

Paper 1: One 3-hour practical paper of 150 marks (25% of the total marks for the subject)

This will be a practically oriented paper covering questions on Solution Development.

To successfully complete this paper, each learner must have access to his or her own computer in the exam room. Provision needs to be made for sufficient computers to enable the examination to be completed in a maximum of **two sittings**.

This paper assesses the practical skills pertaining to Solution Development, that is the application packages studied, namely word processing, spreadsheets and databases as well as creating a simple web page using HTML. These skills will be assessed in an integrated manner based on real-life scenarios. Problem solving and aspects of file management will form part of the assessment of the application questions in this paper.

The paper will comprise of questions based on a scenario and will cover the following content areas in an integrated manner:

- Word processing (± 45 marks)
- Spreadsheets (± 40 marks)
- Databases (± 35 marks)
- Web development (± 15 marks)
- General (integration and application of techniques, knowledge and procedural skills to new situations) (± 15 marks)

An Input Mask Character sheet will be provided for use with the question on Databases.

An information sheet with HTML tags will be provided for use with the question on web development.

The learner/candidate will not be required to enter large amounts of data. The required data could be retrieved from the data disk or imported from documents such as a text file, word processing document, a database table or a spreadsheet.

Paper 2: One 3-hour written paper of 150 marks (25% of the total marks for the subject)

The paper will cover all theory aspects of all topics, including Information Management and elements (conceptual knowledge) of Solution Development (viz. application packages and file management)

A section will also assess the understanding of the technologies studied to make informed decisions in a real - life end - user scenario, ranging from choices of computer technology to its responsible use.

The table below gives a breakdown of the structure of the question paper:

Section	Description
A	<p>Question 1 – 3: Short questions (± 25 marks)</p> <p>A range of short questions covering all topics that could include:</p> <ul style="list-style-type: none"> • Multiple choice, • Modified true and false, and • Matching columns.
B	<p>Question 4: Systems Technologies (± 25 marks)</p> <p>Questions related to the content, concepts and skills in the systems technologies topic area.</p> <p>Question 5: Internet and Network Technologies (± 15 marks)</p> <p>Questions related to the content, concepts and skills in the Internet and WWW, e-communication and network technology topic areas.</p> <p>Question 6: Information Management (± 10 marks)</p> <p>Questions related to the management of information.</p> <p>Question 7: Social Implications (± 10 marks)</p> <p>Questions are focused on the content, concepts and skills in the social implications focus area, namely impact of ICTs on society and health, social, legal, ethical, security and environmental issues.</p> <p>Question 8: Solution development (± 15 marks)</p> <p>Questions focused on the solution development topic area, namely the knowledge and understanding that supports the practical application of skills.</p>
C	<p>Question 9: Integrated Scenario (± 25 marks)</p> <p>This question is based on a single scenario and will be aligned to all the topics. It will also assess the understanding of these technologies to make informed decisions in a real-life end-user scenario, ranging from choices of technology to its responsible use.</p> <p>Question 10: Integrated Scenario/Case Study (± 25 marks)</p> <p>This question is based on a single scenario/case study and could be aligned to all the topics. It will also assess the understanding of these technologies to make informed decisions in a real-life end-user scenario, ranging from choices of technology to its responsible use.</p>

Content to be covered

Assessment addresses the content as set out in this document. Due to the conceptual progression of the content across the grades, content and skills from Grade 10 – 12 will be assessed in the external papers at the end of Grade 12.

New and emerging technologies will be accommodated in the curriculum as the curriculum is reviewed.

Cognitive Demand and Levels of Difficulty

Papers are evaluated in terms of cognitive demand and level of difficulty

Levels of cognitive demand:

Levels of cognitive demand are categorised as follows:

Level	Taxonomy	Description
C1 (level 1) 30%	Knowledge, Remembering	Recall of factual/process knowledge <i>in isolation</i> , i.e. one step/set of basic steps/instruction/process at a time, e.g. definitions in the theory section and single action or procedure found in the application packages.

Level	Taxonomy	Description
C2 (level 2) 40%	Understanding, Applying	Combining isolatable bits or demonstrates understanding of steps/processes/ isolatable bits, such as translating from one form of representation to another, e.g. translating pictures, symbols, diagrams, screenshots, 'words'/mathematical equations into e.g. spreadsheet formulas. These questions could include reproduction of aspects of documents. It also requires using a combination of known routines/steps/processes in a familiar context in order to complete a task, where all of the information required is immediately available to the learner .
C3 (level 3) 30%	Analysing, Evaluating, Creating (Problem-solving)	Requires reasoning/investigation/developing a plan or combining different sets of steps/procedures; has some complexity where candidates need to see how parts relate to a whole and completing a task could have more than one possible approach. It could also require weighing possibilities, deciding on most appropriate solution and testing to locate errors/ troubleshooting as well as pattern recognition and generalisation. These questions will comprise actions/strategies/ procedures where candidates are required to create their own solutions to challenges different to those learners may have encountered in the classroom. These questions could include analysing documents or data, and decision-making.

Levels of difficulty

Levels of difficulty are categorised as follows:

- D1: Easy for the average Grade 12 candidate to answer
- D2: Moderately challenging for the average Grade 12 candidate to answer
- D3: Difficult for the average Grade 12 candidate to answer
- D4: Very difficult for the average Grade 12 candidate to answer. The skills and knowledge required to answer the questions at this level allow for an A-grade candidate (extremely high-achieving/ability learner) to be discriminated from other high ability/proficiency candidates.

In judging the level of difficulty of each question, both the demands that each question makes on the cognitive ability of an average Grade 12 CAT learner and the intrinsic difficulty of the question or task is considered. In making this judgement, the difficulty or ease of a particular question is identified. A four-category framework **for thinking about question or item difficulty** adapted from Leong (2006) has been used in this identification process. This framework comprises the following four general categories of difficulty:

- **Content difficulty:** this indexes the difficulty of the subject matter, topic or conceptual knowledge; some content is inherently more difficult than other content.
- **Stimulus difficulty:** this relates to the linguistic features of the question and the challenge that candidates face in reading, interpreting and understanding the question.
- **Task difficulty:** this refers to the difficulty that candidates face when trying to formulate or produce an answer.
- **Expected response difficulty:** this refers to difficulties because of the mark scheme or memorandum, in other words how marks are allocated.

The estimated percentages for each level of difficulty within each cognitive level are shown in the table below:

	D1	D2	D3	D4	TOTAL
C1	±10%	±10%	±10%	-	±30%
C2	±10%	±15%	±13%	±2%	±40%
C3	±10%	±10%	±7%	±3%	±30%
TOTAL	±30%	±35%	±30%	±5%	100%

7. Civil Technology – Civil Services, Construction and Woodworking

Formal assessments should cater for a range of cognitive levels and abilities of learners as shown below:

Cognitive Levels	Percentage of Tasks
Low order: Knowledge	30%
Middle order: Comprehension and application	50%
High order: Analysis, evaluation and synthesis	20%

4.4 PROJECTS

Learners will only do one project per subject per annum.

In Civil Technology, the PAT will serve as the project for learners in Grades 10 – 12. The PAT for Grade 12 is set by the Department of Basic Education and the PAT for Grades 10 and 11 is set internally by the teacher.

A project (in this case the PAT) should require the learner to:

- Plan / prepare / investigate / research to solve the identified problem / task
- Perform the task / carry out instructions (according to criteria given)
- Develop the project according to the given criteria
- Allow for some innovation and creativity.

To set the project, the teacher should:

- Determine the content / skills / knowledge to be addressed
- Set clear criteria and give extensive instructions to guide the learner (the learner should know exactly what to do and what is expected)
- Keep the scope manageable
- Determine which resources will be required to complete the project and ensure that learners have access to these resources
- Determine the time frame / duration / due date
- Determine mark distribution and compile an assessment tool.

4.5 PROGRAMME OF ASSESSMENT

The following is the Programme of Assessment for Grade 12:

Civil Technology specialisations comprises of the following specialisations:

- Civil Services, Construction and Woodworking

Programme of Assessment for Grade 12 for **ALL** Civil Technology specialisations:

GRADE 12 ASSESSMENT REQUIREMENTS						
ASSESSMENT TASKS	TERM 1	TERM 2	TERM 3	TERM 4	% OF FINAL PROMOTION MARK	MARK Weighting
Assignment	1				5	25 450 total converted to mark out of 100
Mid-year and preparatory examination		1	1		20	
Practical Assessment Task (PAT)	✓	✓	✓		25	250 total converted to mark out of 100
Final examination				1	50	200
TOTAL – PROMOTION MARK						400

The table below shows the compilation of the school-based assessment mark for **ALL** Civil Technology specialisations:

Description	Time Frame	Weighting of final 25%	Marks
Assignment	Term 1	5 %	50
Mid-year examination	Term 2	10%	200
Preparatory examination	Term 3	10%	200
Total		25%	450

4.5.2 Assignment

- An assignment must be in the form of a written work which may include the following; Research, Case study, Drawings and calculations. It should cover the term 1 content with a mark allocation of 50 marks.
- Each assignment must cater for a range of cognitive levels or skills.
- The forms of assessment used should be grade and development level appropriate. The design of these tasks should cover the content in context.

4.5.3 Examinations

- Each examination must cater for a range of cognitive levels.
- For Grade 12, the three-hour Mid-year (June) examination in Civil Technology comprises (200 marks).
- For Grades 10, 11 and 12, the three-hour final examination in Civil Technology comprises 50% (200 marks) of a learner's total mark. All question papers set by the teacher throughout the year, including the final examination paper, must be moderated by the head of department at the school and approved by the district curriculum advisors / facilitator. This is done to ensure that the prescribed weightings are adhered to by the teacher.
- In the Grade 12 examination only Grade 12 content will be assessed. However, prior knowledge from Grades 10– 11 may be necessary to interpret and answer some of the questions.

4.5.4 Tests

- A test for formal assessment should not comprise of a series of small tests, but should cover a substantial amount of the content and the duration should be 60 minutes with a mark allocation of 50 marks (Allocate 1 mark per fact).
- Each test must cater for a range of cognitive levels.
- The forms of assessment used should be grade and development level appropriate. The design of these tasks should cover the content in context.

8. Consumer Studies

4.3 Formal Assessment

4.3.1 The formal assessment requirements for Consumer Studies in Grade 12

- **Three formal theoretical assessment tasks** must be completed during the school year in Grades 12.
- **The three formal theoretical assessment tasks** and **two practical lesson tasks**, consisting of six weekly practical lessons in Grades 12, make-up the **25% of the total School based Assessment (SBA) mark** for Consumer Studies.
- The *end-of-year assessment* includes **two parts**: (1) A Practical Assessment Task (PAT) and (2) a **written theory paper**. Together these two parts make up the remaining **75% in all Grades 12**.
- Together, **the three components** constitute the end-of-year promotion mark of a **100%**.
- The **Grade 12 PAT tests** are developed and set by the teacher according to the criteria stipulated in the PAT document for the *current year*.
- **Assessment for the PAT** is assessed internally by the teacher and externally by the Subject Advisor / Provincial Subject Head.
- The end-of-year NSC assessment (75%) **in Grade 12** is externally set, marked and moderated.
- Each task must cater for a balanced range of **cognitive levels** as well as align to the prescribed range for **levels of difficulty** as reflected in the tables that follow.
- An **item and error analysis** of learner performance must be completed after marking a formal assessment task. The purpose of the analysis is to expose a lack of knowledge and understanding or poorly developed skills. It further assists to identify the most suitable intervention strategy to improve the level of knowledge and understanding to improve learner performance.
- This process is verified externally by DBE/UMALUSI.

Formal assessment must cater for a range of cognitive levels and abilities of learners

The cognitive demand in assessment should be **appropriate for the age and developmental level** of the learner. Assessment in Consumer Studies must cater for a range of cognitive levels and learner abilities. The assessment tasks should be designed carefully to cover the content in the subject as well as the range of skills and cognitive levels, identified in the specific aims in Section 1 of the Consumer Studies CAPS Policy Document.

SUGGESTED WEIGHTING FOR COGNITIVE LEVELS	
Cognitive level	Percentage
Lower order: Remembering	30 %
Middle order: Understanding 20% Applying 30%	50%
Higher order: Analysing / Evaluating and Creating	20%

The design of assessments should ensure that a full range of content and skills are assessed within each grade. The specific aims, topics, content and range of skills in the subject should be used to inform the planning and development of assessment tasks.

Formal assessment must cater for a range of levels of difficulty, as shown below:

SUGGESTED WEIGHTING FOR LEVELS OF DIFFICULTY	
Levels of Difficulty	Percentage
Easy	30%
Moderate	50%
Difficult	20%

Examiners and moderators **in all subjects** are encouraged to think about the difficulty level of every question /skill selected for assessment. In judging the level of difficulty, the demand made on the cognitive ability of an average learner as well as the intrinsic difficulty of the question or task is considered.

In making this judgement, the difficulty or ease of a particular question is identified. A four-category framework for thinking about question or item difficulty adapted from Leong (2006) is used in this identification process.

This framework comprises the following four general sources of difficulty:

- **Content difficulty:** Classifies the difficulty of the subject matter, topic or conceptual knowledge of the content, where some content is inherently more difficult than other content.
- **Stimulus difficulty:** Relates to the linguistic features of the question and the challenge that the candidate faces to read, understand or interpret the question.
- **Task difficulty:** Refers to the difficulty a candidates faces when trying to formulate or produce an answer.
- **Expected response difficulty:** Refers to the difficulty a candidates faces due to how the response is formulated or how marks are allocated for the question;

Table 1b Formal Assessment Grade 12			
SBA Term 1	SBA Term 2	SBA Term 3	Term 4 Promotion mark
Task 1 Test 75% Task 2 Three (3) Practical Lessons 25%	Task 3 Mid-year examination 75% Task 4 Three (3) Practical Lessons 25%	Task 5 Trial Examination 100%	SBA: $\text{Term1} + \text{Term2} + \text{Term3} = 300 \div 3 = 100$ PAT: Practical examination = 100 NSC Examination paper = 200
100	100	100	$400 \div 4 = 100$

** SBA = School based Assessment

In Grade 12 only **one internal exam** is compulsory. Schools may therefore:

- Write both exams; or
- Replace one of the exams with a test at the end of the term. This test will have the same weighting as the exam and must cover a substantial amount of work.

The June Examination / Formal Test should comprise of 30% of content covered in Term 1 (focusing on work that was not assessed in the Term 1 Formal Test), and 70% of the new content covered in Term 2.

4.4 Types of formal assessment for Consumer Studies in Grades 10-12

4.4.1 Controlled Tests

Criteria for setting a question paper for a test or an examination in Grades 12

- A test for formal assessment **may** NOT comprise of a series of smaller tests. This creates an overload of assessment by adding the additional layers of assessment.
- A substantial amount of content must be included for assessment and the duration should be 45 to 60 minutes.

It is compulsory to include questions that require:

- Longer reflective responses in a paragraph format.
- Higher order thinking skills that require substantiating evidence/motivations/arguments.
- Source based questions such as: Case studies; scenarios; extracts; pictures/flow charts /tables/graphs/ cartoons/advertisements/menus for interpretation.
 - *The first page of the test must include:* The name of the school; the date; name of the subject; grade; time allocation; name and number of the SBA task; mark total; name of the examiner and moderator;
 - All test papers must be neatly typed;
 - All graphics / illustrations should be print clear;
 - The question paper should be error free e.g. no spelling, language, translation or mark allocation errors are allowed;
 - It is compulsory for all tests to include TWO sections (Section A and B)
 - Each test must cater for a balanced range of cognitive levels as well as align to the prescribed range for levels of difficulty.
 - An item and error analysis of learner performance must be completed after marking a formal assessment task. The purpose of the analysis is to expose a lack of knowledge and understanding or poorly developed skills. It further assists to identify the most suitable intervention strategy to improve the level of knowledge and understanding to improve learner performance.

The mark allocation and suggested weighting of topics according to time spent per topic for tests is indicated in the tables that follow:

TASK 1: MARCH TEST		Grade 12	
	Content	Marks (<i>minimum</i>)	Teaching time per topic
Question 1	Short questions (all topics) <i>Compulsory: Include a variety of question types</i>	20	
Question 2	Clothing	20	4 weeks
Question 3	Entrepreneurship	20	6 weeks
Question 4	Entrepreneurship	20	
Total		80	
Time		1 hour	

Criteria for setting a Marking Guideline

- The first page must contain: The name of the school; the date; name of the subject; grade; time allocation; name and number of the SBA task; mark total; name of the examiner and moderator.
- All marking guidelines must be neatly typed.
- No spelling, language or translation errors are allowed.
- The numbering format must be correct and the numbering must align accurately with the question paper.
- Indicate the mark allocation for each fact with a tick✓.
- Include all the alternative responses that are considered as correct answers on the Marking Guideline.

4.4.2 Examinations

- Each question paper must cater for a balanced range of cognitive levels as well as align to the prescribed range for levels of difficulty.
- The mark allocation to weight the content for June, Trial and November examination papers in all grades are indicated in the tables that follow.

TASK 3: JUNE EXAMINATION		Grade 12	
	Content	Marks (minimum)	Teaching time per topic
Question 1	Short questions (all topics) Compulsory: Include a variety of question types	40	
Question 2	Food and Nutrition Term 2 Topics	50	7 weeks
Question 3	Food and Nutrition Term 2 Topics	50	
Question 4	Clothing Term 1 Topics	20	
Question 5	Entrepreneurship Term 1 Topics	40	
Total		200	
Time		3 hours	

Grade 12: Trial Examination and Nov NSC Examination		Weighting of Marks per topic
	Content	Grade 12
Question 1	Short questions (all topics) <i>Compulsory: Include a variety of question types</i>	40
Question 2	The Consumer	40
Question 3	Food and Nutrition	40
Question 4	Clothing	20
Question 5	Housing	20
Question 6	Entrepreneurship	40
Total		200
Time		3 hours

4.4.3 PRACTICAL WORK

(a) Practical lessons

- Grade 12:** learners must each do a minimum of **six (6) assessed practical lessons** during the year, three in each of the first two terms.
- Examples of suggested products for the assessed practical lessons are reflected in the Teaching plans for each practical option.
- Standardise the **development and progression of practical skills** in the province to ensure that skills progress from basic to more advanced skills to improve the employability of the learner.
- Ensure that a variety of skills are prioritised in the Practical Lessons.
- Target scarce skills to improve unemployment.

- The following skills need to be infused into lessons to strengthen: (a) Values; (b) Indigenous knowledge systems; (c) Soft skills to strengthen emotional intelligence, self-management and self-confidence; (d) Communication skills (e) Sustainable business practice skills e.g. Effective waste management and eco-friendly business practice skills.
- Ensure that **soft skills** are a focus area to develop and strengthen personal **self-management skills**, to improve the employability of the learner.
- Practical Lessons need to link to entrepreneurial principles to develop entrepreneurial mind sets to participate and contribute towards the South African economy.

(b) Practical Assessment Task (PAT) in Grade 12

- **The practical tests for the PAT Examination in Grades 12** are set internally by the teacher and are moderated and approved externally by the Subject Advisor to ensure that the applied techniques show progression for the development of skills from basic to more advanced skills.
- **The practical tests** for the PAT Examination are set internally by the teacher and are moderated and approved externally by the Subject Advisor to ensure that the applied techniques show progression for the development of skills from basic to more advanced skills in Grade 12.
- The PAT in each *practical option* consists of **one Practical examination** for the *practical option* selected by the school.
- No changes/amendment may be implemented to the expected outcomes as indicated in the PAT task for the current year in the *practical option* that was selected by the school. Provincial Departments of Education or teachers may not change or retype the PAT task for the current year or implement PAT tasks from a previous year of assessment.
- **Instructions/Guidelines** for the Grade 12 Practical Assessment Task Guidelines will be sent to schools at the end of the previous academic year. Teachers will select recipes/patterns and plan the tests according to the instructions for the assessment indicated in the PAT task for the current year.
- In Grade 12 the practical examinations take place in terms 3. In consultation with the Subject Advisor the Grade 12 PAT may be implemented in term 2.
- Provincial Departments of Education or teachers may not change or retype the PAT task for the current year or implement PAT tasks from a previous year of assessment.
- The date for the PAT practical examination in Grade 12 (Term 3) should be discussed and negotiated well in advance with the Subject Advisor and/or Provincial Subject Head to attend the exam.

Duration for the Practical examinations in each practical option

FOOD PRODUCTION	
Grade 12	15 minutes: Reading time 2 hours: Production 45 minutes: Evaluation

CLOTHING PRODUCTION	
Grade 12	1 hour: Lay out and cutting 3 hours: <i>(Completing the article)</i>

KNITTING AND CROCHETING PRODUCTION	
Grade 12	6-8 hours <i>(To be conducted in two sessions with a break in-between/over 2 days)</i>

SOFT FURNISHING PRODUCTION	
Grade 12	1 hour: Layout and cutting 3 hours: <i>(Completing the article)</i>

PATCHWORK AND QUILTING BY HAND PRODUCTION

Grade 12

1 hour: Lay out and cutting

4 hours: *(To be conducted in two sessions with a break in-between)*

4.6 Moderation of assessment

4.6.1 Formal assessment (SBA)

- Grades 12 tasks are internally controlled and moderated by the HOD/ Subject Head of the school. It is compulsory for the Subject Advisor to moderate a sample of each task during his or her school visits, to verify the standard of the internal moderation process.
- It is compulsory for District and Provincial moderation to take place. This process is managed by the Provincial Education Department.

4.6.2 Practical assessment task (PAT)

- **Grade 12:** The Practical Assessment Task (PAT) will be externally moderated by the Subject Advisor and/or Provincial Subject Head for Consumer Studies.
- **Grade 12 Food production:** In term 3, the **last** group of learners (maximum 12) will be externally moderated at the school, while performing the practical examination. The moderator will assess the learners in the group independently from the teacher while they perform the examination. Afterwards the moderator will compare his or her assessment with the assessment of the teacher. A block adjustment could then be made, if necessary.
- **Grades 12 Clothing, Soft Furnishing, Knitting and Crocheting, Patchwork and Quilting:** The teacher assesses the practical examination and keeps the articles for external moderation. The Subject Advisor will visit the school for moderation in term 3 or 4, on a date communicated to the school. A block adjustment could then be made, if necessary.

9. Economics

4.4 Programme of assessment

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout the year. The requirements (number and nature of tasks) for Economics are indicated below:

The Programme of Assessment in Grade 12

Assessment	TERM 1		TERM 2			TERM 3			TERM 4			
	Assignment	Controlled Test	Project	Mid-year Exam		Case Study	Trial exam		Year mark	FINAL EXAMINATION		TOTAL
Total	50	100	50	150 (P1)	150 (P2)	50	150 (P1)	150 (P2)	100	150 (P1)	150 (P2)

WEIGHTINGS FOR FINAL REPORTING	10	10	20	12.5	12.5	10	12.5	12.5	100			

4.4.1 Other forms of assessment

Assignments

An assignment in economics at the FET phase is one of the formal assessment tasks which is classified as a non-test / examination task where learners are expected to complete it over a specific time period (e.g. 2 or 3 days). It gives learners an opportunity to apply the knowledge and skills in class to solve certain problems or economic issues.

The following should be adhered to:

- At least two sub- topics of macroeconomics must be covered (challenging sub- topics).
- A range of cognitive levels to be examined through different question techniques (E.g. short questions, data response items, shorter paragraphs, etc.)
- It must be accompanied by a marking guideline
- Mark allocation must be in line with examination guideline.
- Open ended questions must also have possible responses in the marking guideline.

Research Project

A project in each of the grades is mandatory. Only one project per annum is recommended per grade. When preparing a project, consider the following minimum requirements:

- Learners should be given the necessary guidance prior to the commencement of the project and progress must be monitored.
- All criteria used to assess the project must be discussed with the learners (Rubric).
- The teacher must use the rubric in conjunction with the marking guideline.
- Generally, projects are given a longer period of time as they involve some form of research, consolidating and choosing relevant information and preparing a written document as evidence.
- Projects generally work well if they are structured around some form of problem.
- Research often forms part of the project - the project is the evidence of the research conducted. However sometimes projects involve the development of skills.

- The purpose of a research project is to develop the research, critical thinking and problem- solving skills of learners.
- Projects should ideally be given to learners towards the end of a particular term, e.g. the first term for submission during the **next** (second) term.

Case Study

- Case studies are a very good way of keeping the subject up to date and relevant.
- Learners are presented with a real-life situation, a problem or an incident related to the topic
- They are expected to assume a particular role in articulating the position.
- They would draw on their own experience, the experience of peers or prior learning to interpret, analyse and solve the problem or problems.
- Data response items using newspaper articles, magazine articles, video clips, and TV or radio presentations form excellent case studies.
- Learners have to read and/or listen, digest the information and then make informed decisions.
- Questions can be from lower order - direct quotes from the article - to higher order when they are asked to analyse comments and possibly make suggestions.

Controlled test

One test written under **controlled** conditions, is prescribed for Grades 12. The test should adhere to the following:

- It should be completed by all classes in the same grade on the same day.
- All learners write the same test, completed under examination conditions.
- Questions must comply with year-end examination standards.
- Questions must comply with year-end examination standards.
- Where there is more than one teacher, agreement must be reached on the scope, as well as the date and time of the test.
- The duration of the test should be at least one and a half hours for 100 marks.
- The test should cover the different cognitive levels as in examinations. See table on cognitive levels under 'Examinations' in the section that follows.
- The test should also include problem-solving questions.
- The test should cover a range of integrated topics, as determined by the work schedule and assessment plan.
- The controlled test should be written in Term 1.

4.4.2 Examinations

The following guidelines should be considered when constructing examinations:

Content

Content stipulated specifically for the grade	100%
---	------

Content stipulated specifically for the grade 100%

Cognitive levels

Basic thinking skills (e.g. factual recall, low-level application and low-level comprehension)	30%
middle-order thinking skills (e.g. more advanced application, interpretation and low-level analysis)	40%
higher-order thinking skills (e.g. advanced analytical skills, synthesis and evaluation)	30%

Problem solving

Approximately 10% of all examinations should address problem-solving questions. These include the solving of real-life problems within the context of the Economics curriculum.

Problem-solving questions must also cover a range of cognitive skills (lower, middle and higher order) to cater for all learners but within the context of the learners.

While evaluation and analysis can form very interesting problem-solving questions, the topic goes a lot further and should be integrated into all aspects of the curriculum so that the learners develop the skills to apply their knowledge acquired.

Mid-year examinations

Below is an outline of the structure of the mid-year examinations in each of the grades:

Grades	Paper	Time	Marks	Topics
Grade 12	2	2 hours	150	Paper 1 Macroeconomics Paper 2 Microeconomics

Exam Paper 1 and 2	Section a	Section B	Section C	total
Grade 10	Compulsory 20 marks	1 from 2 questions 40 marks	1 from 2 questions 40 marks	100 marks each paper

Trial examination (Grade 12 only)

A trial examination is one of the seven tasks of the programme of assessment for **Grade 12**, ideally the trial examination should cover the full scope of the Grade 12 curriculum and should model the final Grade 12 examination. Below is an outline of the structure of the trial examination:

	Paper	Time	Marks	Macroeconomics & Economic pursuits	Microeconomics & Contemporary economic issues
Grade 12	2	2 hours	150	25 % & 25 %	25% & 25 %

End-of-year examinations

All grades in the FET band should write 2 x 2-hour examination papers of 150 marks each as a final examination.

The following is an outline of how the topics should be covered in the end-of-year examinations:

	Paper	Time	Marks	Macroeconomics & Economic pursuits	Microeconomics & Contemporary economic issues
Grade 12	2	2 hours	150	25 % & 25 %	25% & 25 %

10. Electrical Technology: Power Systems, Electronics and Digital Electronics

4.5 Assessment

4.5.1 Programme of Assessment

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term. Without this programme, assignments and tasks are crowded into the last few weeks of the term creating unfair pressure on the learners

PROGRAMME OF ASSESSMENT		
School-based Assessment SBA	Practical Assessment Task PAT	Final Examination
25%	25%	50%

The table below shows the compilation of the school based assessment mark:

Description	Time Frame	Weighting of final 25%	Marks
Assignment	Term1	5%	50
Mid-Year examination	Term2	10%	200
Preparatory examination	Term3	10%	200
Total		25%	450

The following is the Programme of Assessment for Grades 12.

GRADE 12 ASSESSMENT REQUIREMENTS							
ASSESSMENT TASKS	TERM 1	TERM 2	TERM 3	TERM 4	% OF FINAL PROMOTION MARK		MARK Weighting
Assignment	1				5	25	450 total converted to mark out of 100
Mid-year and preparatory examination		1	1		20		
Practical Assessment Task (PAT)	✓	✓	✓		25		250 total converted to mark out of 100
Final examination				1	50		200
TOTAL – PROMOTION MARK							400

4.5.2 Assignment

- An assignment must be in the form of a written work which may include the following; Research, Case study, Drawings and Calculations.
- It should cover term1 content and the duration should be 60 minutes.
- The mark allocation should be 50 marks which forms 5% of the final SBA mark
- Each Assignment must cater for a range of cognitive levels or skills.
- The forms of Assessment used should be Grade and development level appropriate.
- The design of these tasks should cover the content and context

4.5.3 Examinations

- Each examination must cater for a range of cognitive levels
- The mark allocation of the three –hour Mid-year examination is 200 marks which is 10% of the final SBA mark

- The mark allocation of the three –hour Preparatory examination is 200 marks which is 10% of the final SBA mark
- The Mid-year and the Preparatory examination papers are set by the teacher and must be moderated by head of department at the school and approved by the District Curriculum advisors / facilitator. This is done to ensure that the prescribed weightings are adhered to by the teacher.
- The mark allocation of the externally three –hour final examination is 200 marks which is 50% of the final SBA mark.
- In the Grade 12 examination **only Grade 12 content** will be assessed. However, prior knowledge from Grades 10 – 11 may be necessary to interpret and answer some other questions

4.5.4 Practical Assessment Task (PAT)

The Department of Basic Education issues a Practical Assessment Task for Grade 12 every year. The practical assessment tasks for Grade 12 will be assessed by the teacher and will be externally moderated by the provincial subject specialists.

The date for the external moderation will be decided by the province in which the school is situated. The provincial education departments or schools may not change the prescribed task or use the task of the previous year.

Provision of the resources for the Practical Assessment Task is the responsibility of the school and schools should ensure that adequate time and funding is allocated for the completion of the Practical Assessment Task.

Compilation of the Electrical Technology PAT Grades 12 mark is detailed in the table below:

Description	Time Frame	Weighting of Final 25%	Marks
Simulation / Experiment 1	January – March	5%	50
Simulation / Experiment 2	April – June	5%	50
(Project)Final Product	January – September	15%	150
Total		25%	250

Two simulations/experiments and one project are prescribed. The simulations must be completed in term1 and term 2. Although the final PAT (project/) product only needs to be completed in the third term, learners should start working on the project from the first term in order to avoid running out of time to complete the PAT.

4.6 Examination Weighting in Electrical Technology

4.6.1 Examination Weighting in Digital Electronics

The following table shows the weighting of topics in Electrical Technology: Digital Electronics

Grade 12			
Question	Topic	Percentage	Marks +/- 4 Marks
1	Multiple Choice Questions	7.5%	15
2	Occupational Health and Safety	5%	10
3	Switching and Control Circuits	25%	50
4	Semiconductors	10%	20
5	Digital and Sequential Devices	27.5%	55
6	Microcontrollers	25%	50
	Total	100%	200 Marks

4.6.2 Examination Weighting in Electronics

Examination Weighting in Electronics

The following table shows the weighting of topics in Electrical Technology: Electronics

Grade 12			
Question	Topic	Percentage	Marks +/- 4 Marks
1	Multiple Choice Questions	7.5%	15
2	Occupational Health and Safety	5%	10
3	RLC	17.5%	35
4	Semiconductor Devices	22,5%	45
5	Switching Circuits	25%	50
6	Amplifiers	22.5%	45
	Total	100%	200 Marks

4.6.3 Examination Weighting in Electrical Technology: Power Systems

Examination Weighting in Power Systems

The following table shows the weighting of topics in Electrical Technology: Power Systems

Grade 12			
Question	Topic	Percentage	Marks +/- 4
1	Multiple Choice Questions	7.5%	15
2	Occupational Health and Safety	5%	10
3	RLC	17.5%	35
4	Three Phase AC Generation	17.5%	35
5	Three Phase Transformers	15%	30
6	Three Phase Motor Control	17.5%	35
7	Programmable Logic Controllers (PLC)	20%	40
Total		100%	200

11. Engineering Graphics & Design (EGD)

The minimum formal assessment requirements for Engineering Graphics and Design are as follow:

GRADE 12:

- One tests
- Fifteen course drawings
- Mid-year examination
- One PAT
- Trial/preparatory examination
- The final NSC examination

The weightings of the cognitive levels for the EGD formal assessment tasks are as follows:

Cognitive Levels	Percentage of Tasks
Low order: Understanding and remembering	± 30%
Middle order: analysis and applying	± 40%
High order: Creating and evaluating	± 30%

4.4 Projects

The only project for Engineering Graphics and Design is the Practical Assessment Task (PAT). The EGD PAT is implemented across the first three terms of the school year and should be undertaken as one extended task, which is broken down into three different phases. Each EGD learner has to complete one PAT for every year of the FET phase. (See 4.9)

Instead of an additional project(s), EGD makes use of **course drawings (CD's)**, which should come from the normal yet essential developmental process of regular drawing and analytical tasks, as part of the formal assessment program. (See 4.5.5.2)

4.5 Programme of assessment

4.5.2 Grade 12

GRADE 12 FORMAL ASSESSMENT PROGRAMME					
INTERNAL FORMAL ASSESSMENT: 25%		EXTERNAL FORMAL ASSESSMENT: 75%			
CONTINUOUS ASSESSMENT: 25% (internally set and assessed)		PRACTICAL ASSESSMENT TASK (PAT): 25% (externally set and internally assessed)	NOVEMBER NSC EXAMINATION: 50% (externally set and assessed)		
LEARNER'S EGD FILE		LEARNER'S PAT PORTFOLIO		The final mark for each paper will be a mark that has been converted from 200 to 100.	
Tests: All the prescribed and other formal tests	15	PAT Part A: The Design Process & PAT Part B: Presentation drawings of Part A (Instrument & CAD)	Paper 1: 3 hrs (200 marks ÷ 2 = 100)	100	
Course Drawings: All the prescribed and other formally assessed and recorded tasks	30		Paper 2: 3 hrs (200 marks ÷ 2 = 100)	100	
Examinations: Mid-year (June) & Preparatory (September)	55				
Total	100	Total	100	Total	200

4.5.3.3 Grade 12

GRADE 12 ANNUAL FORMAL ASSESSMENT PLAN					
ASSESSMENT TASKS	TERM 1	TERM 2	TERM 3	TERM 4	PROMOTION MARK
Tests	1				15 (3.75%)
Internal examinations		1	1		55 (13.75 %)
Course drawings	6	4	5		30 (7.5%)
PAT: Part A & Part B	Done over first 3 terms and record for the 4th.			1	100 (25%)
NSC examination				1	200 (50%)
TOTAL					400 (100%)

4.5.4 The compulsory EGD school-based assessment (SBA) tasks for each term

This is a detailed overview of each term's compulsory school-based assessment (SBA) tasks. All the compulsory SBA tasks are part of the compulsory Programme of Formal Assessment. The compulsory SBA tasks for a specific term, with the exception of the PAT, has to be recorded during that specific term and included as part of the terms reported mark.

The indicated compulsory SBA tasks are in accordance with the suggested annual teaching plans that are included in this document.

NOTE:

The indicated compulsory SBA tasks are the minimum requirements for each term.

4.5.4.3 Grade 12

GRADE 12 COMPULSORY SCHOOL-BASED ASSESSMENT TASKS					
TERM 1		TERM 2		TERM 3	
Assessment Tasks	Suggested Contribution	Assessment Tasks	Suggested Contribution	Assessment Tasks	Suggested Contribution
Course drawings: <ul style="list-style-type: none"> • 1st mechanical assembly • Mechanical analytical exercise • Civil sectional elevation • Civil floor plan with elevations • Civil site plan • Two-point perspective 	40%	Course drawings: <ul style="list-style-type: none"> • Isometric drawing • Solid geometry • Interpenetration & development • 2nd mechanical assembly 	25%	Course drawings: <ul style="list-style-type: none"> • Development of a transition piece • Loci (helix) • Loci (cam) • Loci (mechanisms) • 3rd mechanical assembly 	25%
Test(s)	60%	Mid-year examination: Paper 1 and Paper 2	75%	Preparatory examination: Paper 1 and Paper 2	75%

4.5.5 The EGD formal assessment tasks

4.5.5.1 Tests

All the questions of the EGD tests should be of a similar or higher standard than the corresponding questions of the DBE's examination/exemplar papers. The mark allocations should also correlate with the DBE's examination/exemplar papers' memoranda.

The question or questions for each test have to justify a minimum time allocation of 60 minutes and a minimum mark allocation of 50 marks. Most tests will therefore have to consist of at least TWO questions. However, if the time allocated for a test is not sufficient for the completion of both questions, the two questions can be written as two separate tests in order to make up the required 50 marks. It is however recommended to have as many tests as possible, formal and/or informal, written throughout the year because of the true reflection of achievement and preparatory value of tests.

4.5.5.2 Course drawings

The purpose of the course drawings is to provide evidence that ALL the topics have been adequately covered and that all the learners have been assessed and given sufficient feedback on their acquired knowledge and skills in common tasks on the prescribed content of each topic.

Engineering Graphics & Design is both a knowledge and application/skill-based subject. Drawing and analytical tasks should be done on a regular (daily) basis. From this normal yet essential developmental process of regular (daily) tasks, at least one common task has to be selected from the prescribed content of each topic. The selected common task has to be formally assessed and recorded as part of the compulsory Programme of Formal Assessment. The selected common tasks will be referred to as course drawings (CDs).

Requirements for Course Drawings (CDs):

- CDs should come from the normal teaching and learning process of EGD and should therefore be one or more of the regular (daily) tasks;
- The teacher has to ensure that each CD is each learner's own work;
- All learners have to be afforded extended opportunities, within realistic time frames, to attempt to complete correctly or incorrectly, each of the CDs;
- Each CD should address all, or most, of the grade-specific content of the topic and of an appropriate higher order of complexity for the specific grade. More than one task may be used to obtain the recorded CD mark;
- To ensure that all CDs comply with test and examination requirements and standards, all CDs, with the exception of the analytical exercises and the perspective drawing(s), have to be tasks that are completely redrawn;
- The questions and model answers of all CDs will be in the teacher's EGD file and all the assessed and recorded CDs of each learner will be in his/her EGD file;
- Simplified rubrics may be used to assess all CDs;
- CDs are compulsory formal assessment tasks that have to contribute to the final promotion mark;
- It is important to note that CDs are not tests;
- Detailed descriptions of all CDs are on the last two pages of this document (See APPENDIX 4).

4.5.5.3 Examinations

The Engineering Graphics & Design examination papers should, in terms of format and content, be of a similar or higher standard than the DBE's examination/exemplar papers. The mark allocations should also be similar to the DBE's examination/exemplar papers.

In order to ensure the validity of examination papers, all papers should consist of original questions. Complete previous EGD exam papers, whether internally or externally set, may therefore not be used again. However, individual questions from a previous question paper may, preferably with some changes, be used again.

Format and composition of final EGD examination papers:

GRADE 12 EXAMINATION PAPERS					
PAPER 1 -CIVIL- (3 hours) In first-angle orthographic projection			PAPER 2 -MECHANICAL- (3 hours) In third-angle orthographic projection		
Q 1	Civil analytical	± 15%	Q 1	Mechanical analytical	± 15%
Q 2	Interpenetration and development <u>and/or</u> development of a transition piece <u>and/or</u> Solid geometry	± 20%	Q 2	Loci of a Helix <u>and/or</u> Loci of a Cam <u>and/or</u> Loci of a point(s) of a mechanism	± 20%
Q 3	2-point perspective drawing	± 20%	Q 3	Isometric drawing	± 20%
Q 4	Civil working drawing including electrical features	± 45%	Q 4	Mechanical assembly	± 45%

4.10 Progression/promotion marks

GRADE 12 PROGRESSION/PROMOTION MARK		
Assessment Tasks		Compulsory contribution
SBA	Test	15 (3.75%)
	ALLcoursedrawings	30 (7.5%)
	Mid-year examinations: Paper 1 and Paper 2	20 (5%)
	Prelim/preparatory examinations: Paper 1 and Paper 2	35 (8.75%)
Practical Assessment Task (PAT)		100 (25%)
November (final) examination: Paper 1 (100 marks) and Paper 2 (100 marks)		200 (50%)
TOTAL		400

12. First Additional Languages

Note: Refer to Section 4 of the CAPS

4.4 Programme of Assessment

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term.

4.4.1 Overview of requirements

The following tables provide an overview of the Programme of Assessment requirements for each term for

First Additional Languages:

Table 3 : Overview of Programme of Assessment requirements Grade 12

Programme of assessment Tasks per term			External examination
Term 1: 1 Written Test + 3 Tasks	Term 2: 3 Tasks + 1 mid-year examination comprising 2 Papers – 150: Paper 1 – Language in context (80) 2 hrs Paper 2– Literature (70) – 2,5 hrs	Term 3: 1 Trial examination comprising 3 Papers: Paper 1– Language in context (80) – 2 hrs Paper 2– Literature (70) – 2,5 hrs Paper 3 – Writing (100) - 2,5 hrs + 1 Task	Term 4: 1 External Examination comprising 3 Papers: Paper 1– Language in context (80) – 2 hrs Paper 2– Literature (70) - 2,5 hrs Paper 3 – Writing (100) - 2,5 hrs + Paper 4–Oral (50)
<p>Term mark (Terms 1-3) Each term, add totals for each task and convert to % for term mark.</p> <p>SBA mark: Add totals for tasks from term 1 to term 3, excluding oral marks, and convert to 25%,</p> <p>External examination</p> <ul style="list-style-type: none"> • Convert Paper 1 to 20%, • Convert Paper 2 to 17,5%, • Convert Paper 3 to 25%, • Add totals for orals tasks throughout the year and convert to 12,5% (Paper 4). 			

Table 4: Programme of assessment Grade12

Programme of assessment			
Formal assessment tasks in Term 1			
Task 1	Task 2	Task 3	Task 4
*Oral: Listening for comprehension (10)	Writing: (50 marks) Narrative/descriptive/ discursive/ argumentative/ reflective	Writing: (30 marks) Longer Transactional writing: Friendly/formal letters (request/ complaint/application/ business) /formal and informal letters to the press/ curriculum vitae and covering letter/obituary/ agenda and minutes of meeting/report/ review/ newspaper article/ magazine article/ dialogue/ interview/ email	**Test: (40 marks) Comprehension and Summary OR Comprehension & Language structures and conventions

Formal assessment tasks in Term 2			
Task 5:	Task 6:	Task 7	Task 8
*Oral: Prepared speech (20)	*Oral: ONE of the following: Prepared reading aloud/ unprepared speech/ informal speaking in group (20)	Literature: (35 marks) Assignment	Mid-year examinations: (150 marks) Paper 1– Language in context (80) – 2 hrs Paper 2– Literature (70) – 2,5 hrs

Formal assessment tasks in Term 3	
Task 9	
Trial examinations: (250 marks) Paper 1 – Language in context (80) – 2 hrs Paper 2 – Literature (70) – 2,5 hrs Paper 3 – Writing (Can be written in August/September) (100) – 2,5 hrs	
Evidence must be available of informal assessment of writing activities: essays, longer and shorter transactional texts in each term according to the requirements of the Teaching Plans.	

***Oral:**

Learners should do one listening comprehension task (Task 1), one prepared speech task (Task 5), and one other (Task 6), e.g. prepared reading aloud/ unprepared speech/ informal speaking in group work during the year.

****Test** could be set out of **40 marks** or, if more, should be **converted to 40 marks**. While the *Comprehension, Summary, Language structures and conventions* combination is suggested, teachers are urged to design a combination of aspects that fits the character (test programme, time allocation, etc.) of the school.

A test in the Programme of Assessment should not be made up of several smaller tests. Each test should cover a substantial amount of content, should be set for 45-60 minutes, and should reflect the different cognitive levels as set out for exam papers.

13. Geography

4.3.1 Summary of formal assessments expected in Grade 12

Grade 12	Research	1 x 15 = 15		
	Mapwork task	1 x 15 = 15		
	2 Controlled Tests	2 x 15 = 30		
	Mid-year examination	1 x 20 = 20		
	Trial Exam	1 x 20 = 20		
		100		
	End-of-year examination		Paper 1 = 120 (2 x 60) 30 (1 x 30) Total: 150 Paper 2 = 120 (2 x 60) 30 (1 x 30) Total: 150	
		100	300	400

In Grade 12 the Programme of Assessment comprises of seven tasks. The six tasks completed during the school year are internally assessed and make up 25% of the total mark for Geography, while the seventh task is the end-of-year examination that is externally set and marked. The external examination makes up the remaining 75%.

4.3.2 Formal assessment requirements for Geography

(a) Assessment Tasks (Research and Mapwork)

Assessment tasks should cover the geographical content and concepts highlighted in the curriculum. Some examples of geographical competencies that may be assessed in the formal assessment tasks are listed below. These geographical competencies may form the focus of specific tasks or they may be used together as part of a task. Learners should demonstrate competence in various combinations of the following during the grade:

- reading, analysing and interpreting maps, photographs and satellite images;
- drawing, analysing and interpreting graphs;
- drawing and labelling sketch maps;
- labelling diagrams;
- using models;
- working with a variety of data;
- analysing and synthesising information from different sources;
- conducting fieldwork, recording and interpreting findings
- working with concepts, data, procedures related to GIS;
- conducting and writing up research;
- writing paragraphs and essays; and
- evaluating arguments and expressing and supporting a point of view.

(b) Controlled Tests

A controlled test should be 60 marks and 60 minutes long. A test should also cover a significant amount of content and skills, such as a section of work that covers about four to six weeks. Tests may include a variety of assessments skills and techniques, such as multiple-choice questions, matching columns one-line answers, written paragraphs, labelling diagrams, doing calculations, working with data.

Tests (including other formal assessment tasks) should cater for a range of cognitive levels as indicated above.

NB. All formal assessment tasks must be done under CONTROLLED CONDITIONS, except the research task.

(c) Examinations

Grade 12

The Prelim and the Final Geography Examination in Grade 12 shall comprise of TWO papers of 150 marks each; Paper 1 (Climate and Weather, Geomorphology and Mapwork) and Paper 2 (Rural and Urban Settlement, Economic Geography of South Africa and Mapwork). These papers should cater for a range of cognitive levels outlined in Table 1. The outline of the structure of the mid-year examination and end-of-year examinations is provided in annexure 4.7.1.

4.4.1 Programme of Assessment in Grades 12

Grades 12

			Grade 12		
Term	Assessment no	Type of Assessment	Raw Mark	Term Weighting	SBA Weighting
1	1	Test	60	75%	15
	2	Research	100	25%	15
2	3	Mapwork	60	25%	15
	4	Mid-year examination	150	75%	20
3	5	Test	60	25%	15
	6	Preparatory Exam	300	75%	20
Year Mark					100

4	7	End-of-year external examination (Paper 1 and 2)	300
		<i>Total Assessment</i>	400
		<i>Percentage</i>	100%

4.4.2 Examples of possible assessment activities

Type of task	Assessment options or combination of options (see 4.3.2a)
Assessment 1 Mapwork task (Grade 12)	Reading, analysing and interpreting topographical and orthophoto maps <ul style="list-style-type: none">• Reading, analysing and interpreting different types of photographs• Reading and interpreting sketch maps• Conducting field work, recording and interpreting findings• Making sketches of features or patterns• Applying a variety of relevant GIS techniques
Assessment 2 Research (Grade 12)	Analysing and synthesising information from different sources <ul style="list-style-type: none">• Conducting field work, recording and interpreting findings• Using and analysing case studies• Applying a variety of relevant GIS techniques• Evaluating arguments, expressing and/or supporting or disagreeing with a point of view with substantiation

NB. Data Handling should be integrated in all the other formal assessment tasks

4.7 Annexures

4.7.1 Format of examinations in Grades 12

GRADE 12	ONE PAPER ONLY	
Mid-year	Marks Allocation : 150	
	Time Allocation : 3 Hours	
	<p>Question 1 (Climate and Weather) 40 Marks</p> <ul style="list-style-type: none"> • Short objective questions (10 Marks) • 2 sub-questions of 15 marks each on Climate and Weather <p>NB. ONE paragraph question of 8 marks in any of the two sub-questions</p> <p>Question 2 (Geomorphology) 40 Marks</p> <ul style="list-style-type: none"> • Short objective questions (10 Marks) • 2 sub-questions of 15 marks each on Geomorphology <p>NB. ONE paragraph question of 8 marks in any of the two sub-questions</p> <p>Question 3 (Rural and Urban Settlements) 40 Marks</p> <ul style="list-style-type: none"> • Short objective questions (10 Marks) • 2 sub-questions of 15 marks each on Rural and Urban Settlements <p>NB. ONE paragraph question of 8 marks in any of the two sub-questions</p> <p>Question 4 (Mapwork) 30 Marks</p> <ul style="list-style-type: none"> • Map Skills and calculations (10 Marks) • Map interpretation (12 Marks) • GIS (8 Marks)

14. History

4.4 History Programme of Assessment

The programme of assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term.

4.4.1 Programme of Assessment and weighting of tasks

Grade 12					
Term	Assessment no	Type of Assessment	Raw Mark	Term Weighting	SBA Weighting
1	1	Source-based and Essay task (2 Hours)	100	25%	10
	2	Standardised test, which includes a source-based question and an essay (2 Hours)	100	75%	20
2	3	Research assignment	100	25%	10
	4	Mid-year examination (2 papers of 2 Hours) (2 topics from each paper to be covered by June; four questions set in each paper: 2 essays and 2 source-based questions; learners answer 2 questions, 1 essay and 1 source-based question on each paper)	200	75%	20
3	5	Source-based and Essay task (2 Hours)	100	25%	10
	6	Preparatory Exam	300	75%	30
Year Mark					100
4	7	End-of-year examination			300
		<i>Total Assessment</i>			400
		<i>Percentage</i>			100%

4.4.2 Examinations

Format of Grade 12 examinations

This examination includes two papers; each paper has six questions: three source-based questions (one set on each topic) and three essay questions (one set on each topic). Candidates must answer three questions: one source-based question, one essay question and one other question in each paper. Candidates may answer an essay and a source-based question on the same topic.

Allocation of content per question paper

The mark allocation is 50 marks per question, with a total of 150 marks per paper.

PAPER 1

SOURCE-BASED QUESTIONS	
Question 1	The Cold War: How did the Cold War period shape international relations after the Second World War? Question focus: Origins, Cold War in Europe and the Cuban crisis (case studies will be alternated every three years)
Question 2	Independent Africa: How was independence realised in Africa in the 1960s and 1980s ? Question focus: Africa in the Cold War
Question 3	Civil society protests, 1950s to 1970s: What forms of civil society protest emerged from the 1950s to 1970s? Question focus: Civil rights and Black Power Movements (questions will be alternated every three years)

ESSAYS	
Question 4	The Cold War: How did the Cold War period shape international relations after the Second World War? Question focus: China and Vietnam (questions will be alternated every three years)
Question 5	Independent Africa: How was independence realised in Africa in the 1960s and 1980s? Question focus: Successes and challenges faced by the Congo and Tanzania (case studies will be alternated every three years)
Question 6	Civil society protests from the 1950s to the 1970s: What forms of civil society protest emerged from the 1950s to 1970s? Question focus: Civil rights and Black Power movements (questions will be alternated every three years)

PAPER 2

SOURCE-BASED QUESTIONS	
Question 1	Civil resistance, 1960s to 1980s: What forms of civil society protest emerged from the 1960s to 1980s? Question focus: The challenge of Black Consciousness in the 1970s
Question 2	The Road to democracy in South Africa and South Africans coming to terms with the past: How did South Africa emerge as a democracy from the crises of the 1990s and come to terms with the Apartheid past? Question focus: The TRC
Question 3	The end of the Cold War and a new world order: How has the world changed since the 1980s? Question focus: A new global world order

ESSAY QUESTIONS	
Question 4	Civil resistance, late 1960s to 1980s: What forms of civil society protest emerged from the late 1960s to 1980s? Question focus: The crisis of Apartheid in the 1980s and nature of resistance and international response (questions will be alternated every three years)
Question 5	The road to democracy in South Africa, and South Africans coming to terms with the past: How did South Africa emerge as a democracy from the crises of the 1990s, and how did South Africans come to terms with the Apartheid past? Question focus: Negotiated settlement and the government of national unity
Question 6	The end of the Cold War and a new world order: How has the world changed since the 1980s? Question focus: The end of the Cold War and the events of 1989

Assessment of essay questions

Essays must have a formal structure that includes an introduction, which introduces the point of view or the explanation; a main body, which develops an argument; and a conclusion. Credit will be given for this structure. Candidates will be asked to discuss explain or assess the accuracy of a statement, or to express an opinion.

Candidates will be assessed on their ability to

- demonstrate thorough knowledge and understanding of the topic; use relevant information to answer the question;
- plan and structure an essay;
- use evidence to support an argument;
- develop and sustain an independent and well-balanced argument; and
- write chronologically, coherently and logically

GLOBAL ASSESSMENT OF ESSAYS: TOTAL MARKS: 50

	LEVEL 7	LEVEL 6	LEVEL 5	LEVEL 4	LEVEL 3	LEVEL 2	LEVEL 1
PRESENTATION CONTENT	Very well planned and structured essay. Good synthesis of information. Developed an original, well balanced and independent line of argument with the use of evidence, sustained and defended the argument throughout. Independent conclusion is drawn from evidence to support the line of argument.	Very well planned and structured essay. Developed a relevant line of argument. Evidence used to defend the argument. Attempts to draw an independent conclusion from the evidence to support the line of argument.	Well planned and structured essay. Attempts to develop a clear argument. Conclusion drawn from the evidence to support the line of argument.	Planned and constructed an argument. Evidence is used to support the line of argument. Conclusions reached based on evidence.	Shows some evidence of a planned and constructed argument. Attempts to sustain a line of argument. Conclusions not clearly supported by evidence.	Attempts to structure an answer. Largely descriptive, or some attempt at developing a line of argument. No attempt to draw a conclusion	Little or no attempt to structure the essay.
LEVEL 7 Question has been fully answered. Content selection fully relevant to line of argument.	47–50	43–46					
LEVEL 6 Question has been answered. Content selection relevant to the line of argument.	43–46	40–42	38–39				
LEVEL 5 Question answered to a great extent. Content adequately covered and relevant.	38–39	36–37	34–35	30–33	28–29		
LEVEL 4 Question is recognisable in answer. Some omissions or irrelevant content selection.			30–33	28–29	26–27		
LEVEL 3 Content selection does relate to the question, but does not answer it, or does not always relate to the question. Omissions in coverage.				26–27	24–25	20–23	
LEVEL 2 Question inadequately addressed. Sparse content.					20–23	18–19	14–17
LEVEL 1 Question inadequately addressed or not at all. Inadequate or irrelevant content.						14–17	0–13

*Guidelines for allocating a mark for Level 1:

- Question not addressed at all / totally irrelevant content / no attempt to structure the essay = 0
- Content includes basic and generally irrelevant information; no attempt to structure the essay = 1 - 6
- Question inadequately addressed and vague; little attempt to structure the essay = 7 – 13

ESSAY MARKING SYMBOLS

Assessment procedures of the essay

2.4.1 Keep the synopsis in mind when assessing the essay.

2.4.2 During the reading of the essay, ticks need to be awarded for a relevant introduction (which is indicated by a bullet in the marking guideline), the main aspects/body of the essay that sustains/defends the line of argument (which is indicated by bullets in the marking guideline) and a relevant conclusion (which is indicated by a bullet in the marking guideline).

For example in an essay where there are five (5) main points there could be about seven (7) ticks.

2.4.3 Keep the PEEL structure in mind in assessing an essay.

P	Point	The candidate introduces the essay by taking a line of argument/making a major point. Each paragraph should include a point that sustains the major point(line of argument) that was made in the introduction
E	Explanation	The candidate should explain in more detail what the main point is about and how it relates to the question posed (line of argument).
E	Example	Candidates should answer the question by selecting content that is relevant to the line of argument. Relevant examples should be given to sustain the line of argument.
L	Link	Candidates should ensure that the line of argument is sustained throughout and is written coherently.

2.4.4 The following symbols MUST be used when assessing an essay:

- Introduction, main aspects and conclusion not properly contextualised ^
- Wrong statement _____
- Irrelevant statement |
- |
- |
- Repetition R
- Analysis A√
- Interpretation I√
- Line of Argument LOA

4.4.4 Assessment of source-based questions

Sources will be grouped around a key question. The context of the sources will be provided so that learners can use the sources to answer questions. Contextualisation includes the author or creator of the source, the title of the publication in which the source appeared, and the date and place of publication. Learners will therefore have the information to enable them to discuss the reliability or usefulness of each source. All people in cartoons or photographs will be identified. Each source will be a single source; no sources will be combined into a composite source.

- Candidates will be assessed on their ability to:
- demonstrate thorough knowledge and understanding of the topic;
- extract information from sources;
- interpret information from sources;
- identify and compare different perspectives within sources and between sources;
- explain the different perspectives within the sources in the context of the period studied;
- draw conclusions about the reliability and usefulness of sources; and
- synthesise information from a range of sources.

4.4.5 Guidelines for Grade 12 examination papers

Format of the question paper: Example

There are two question papers. Each question paper consists of the question paper and an addendum containing sources. Each paper has six questions: three source-based questions and three essay questions. Learners must answer three questions: one source-based, one essay and one other question. Learners may answer two questions on the same topic.

HISTORY PAPER 1

MARKS: 150

TIME: 3 HOURS

Instructions and information

1. This question paper consists of **SIX (6)** questions

Questions 1 and 4

The Cold War: How did the Cold War period shape international relations after the Second World War?

Questions 2 and 5

Independent Africa: How was independence realised in Africa in the 1960s and 1980s?

Questions 3 and 6

Civil society protests, 1950s to 1970s: What forms of civil society protest emerged from the 1950s to 1970s?

2. Each question counts 50 marks.
3. Candidates are required to answer THREE questions, ONE (1) source-based question, ONE (1) essay question and ONE (1) other, either an essay or a source-based question.
4. Learners may answer two questions on the same topic.
5. When candidates answer questions, they are required to demonstrate application of knowledge, skills and insight
6. Rewriting of the sources as answers will be to the disadvantage of candidates.
7. Write neatly and legibly.

SECTION A: SOURCE-BASED QUESTIONS

Question 1: The Cold War - origins, Cold War in Europe and the Cuban Crisis (alternated every three years)

Question 2: Case study Angola

Question 3: Civil society protests, 1950s to 1970s: Case Study - Black Power Movement or Civil Rights Movement (alternated every three years)

SECTION B: ESSAY QUESTIONS

Question 4: Cold War - China or Vietnam (alternated every three years)

Question 5: Independent Africa – **A case study: Congo or Tanzania** (alternated every three years)

Question 6: Civil society protests 1950s to 1970s: Case Study - US Civil Rights Movement or Black Power Movement (alternated every three years)

An example of possible source-based questions

In this section, we provide an example of a source-based question.

SECTION A: SOURCE-BASED QUESTIONS - 50 MARKS Question 1

The scaffolding of questions should be from simple to complex (level 1 to level 3)

This is how Source – Based questions should be arranged:

1. Study Sources 1A, 1B, 1C and 1D to answer the questions that follow:
 - 1.1 Refer to Source 1A.
 - 1.1.1
 - 1.1.2
 - 1.2 Consult Source 1B.
 - 1.2.1
 - 1.2.2
 - 1.3 Read Source 1C.
 - 1.3.1
 - 1.3.2
 - 1.4 Use Source 1D.
 - 1.4.1
 - 1.4.2

LEVEL 1 Questions can be formulated as follows:

- What information in the source tells you about...?
- Quote evidence from the source...
- Give reasons from the source....
- Mention / Name...
- Identify ...
- What, according to the source,?

LEVEL 2 Questions can be formulated as follows:

- Explain the concept in the context of...?
- What message does the cartoonist convey regarding ...?
- Explain in your own words ...
- Why do you think...?
- Comment on...

LEVEL 3 Questions can be formulated as follows:

- Explain to what extent the evidence in Source 1A...
- Compare the evidence in Sources 2A and 2B and explain how you would account for the differences/ similarities
- Explain the usefulness/ limitations/ reliability/ validity/ justification of the Source ... regarding ...
- Using the relevant information from the sources and your own knowledge write a paragraph...

Allocation of content to essay and source-based questions:

Topic	Content	Question number and types of questions
The Cold War	<p>How did the Cold War period shape international relations after World War II?</p> <p>The origins of the Cold War (Overview– a broad narrative)</p> <ul style="list-style-type: none"> • End of Second World War (introduction) – why did a Cold War develop? • USSR and USA and the creation of spheres of interest: <ul style="list-style-type: none"> -- Installation of Soviet friendly governments in satellite states -- USA's policy of containment: Truman Doctrine; Marshall Plan -- Berlin Crises 1949–1961 (broad understanding of the crises-overview) -- Opposing Military alliances: NATO and Warsaw Pact (broadly) • Containment and brinkmanship: the Cuban crisis (as an example of containment and brinkmanship) • Who was to blame for the Cold War? (Interpretation – differing points of view – needs to be highlighted in the introductory overview to Grades 10- 12) 	<p>Paper 1:</p> <p>Questions 1 & 4</p> <p>Source-Based questions</p>
	<p>Extension of the Cold War: case studies</p> <p>(Either China or Vietnam)</p> <p>CHINA (examined each year as an alternative to Vietnam)</p> <p><i>How did China rise as a world power after 1949?</i></p> <p>This section includes the following:</p> <ul style="list-style-type: none"> • Introduction: Establishment of Communist China in 1949: events leading up to 1949 (not examinable) • The Five Year Plan 1953-1957 • Hundred Flowers Campaign 1956-1957 • The Great Leap Forward 1958-1961 • Cultural Revolution 1966-1976 • Chinese relations with the Soviet Union and the USA from 1949 to 1973 (clash of ideologies more than individual events) (not examinable) • China's changing relationships with neighbouring states: Tibet, India, Vietnam, Taiwan (not examinable) • To what extent was China established as a superpower by the time of Mao's death? • Explain why China tried to improve relations with the USA after 1970 (not examinable) • Conclusion: impact of China's economic liberalisation on relations with the rest of the world since Mao's death until present. (not examinable) 	<p>Essay Question</p>
	<p>VIETNAM (examined each year as an alternative to China)</p> <p><i>How was a small country like Vietnam able to win a war against the USA? (1954–1975)?</i></p> <p>This section includes the following:</p> <ul style="list-style-type: none"> • Background: overview of the struggle against colonial powers prior to WW2 • Immediate post-war period in Vietnam <p>Stages in the war:</p> <ul style="list-style-type: none"> • 1957–1965 Struggle in Vietnam between the South Vietnamese army and communist-trained rebels (also known as the Viet Cong) • 1965–1969 North Vietnamese-USA struggle (include the nature of the Vietnamese war against the USA) • The War from a Vietnamese and USA perspective • The War as a world issue • 1969–1975 USA withdrawal from Vietnam (Impact on USA politics – student movements – link to Topic 3) • Conclusion: How the war is remembered today in the USA and Vietnam? 	<p>Essay Question</p>

Topic	Content	Question number and types of questions
Independent Africa	<p>How was independence realised in Africa in the 1960s and 1980s?</p> <p>What were the ideas that influenced the independent states</p> <ul style="list-style-type: none"> Forms of government: political ideologies and economies - African Socialist/capitalist/Democratic /one-party states <p>The two case studies Congo and Tanzania (1960 to 1980) are examples to illustrate the political, economic, social and cultural successes and challenges in independent Africa (1960 to 1980). The case studies will be examined independently and to alternate every 3 years.</p> <p>The successes and challenges faced by the countries:</p> <ul style="list-style-type: none"> The kind of states: their aims/visions (political ideologies) Political <ul style="list-style-type: none"> Types of leaders: Lumumba, Mobuto Sese Seko, Nyerere (What are the qualities of a good leader?) Legacies of colonialism Types of government Political stability and instability Economic <ul style="list-style-type: none"> Types of economies (as third world countries) Social and cultural <ul style="list-style-type: none"> Benefits of independence Education Africanisation 	<p>Paper 1: Questions 2 and 5</p> <p>Essay Question</p> <p>(ideas that influenced independent states included as introduction to the topic)</p>

Term 3	
Task 9	Task 10
*Oral: Unprepared reading aloud/ Prepared speech (10 marks)	Trial examinations (250 marks) Paper 1 – Language in context (70 marks) - 2 hrs Paper 2 – Literature (80 marks) – 2,5 hrs Paper 3 – Writing (Can be written in August / September) (100 marks) – 3 hrs

***Oral:** Learners should do one listening for comprehension (Task 1), one unprepared speech (Task 4), and either two prepared speeches **OR** one prepared speech and one unprepared reading aloud (Task 7 and (Task 9).

****Test** could be set out of **35 marks** or, if more, should be **converted to 35 marks**. While the *Comprehension, summary, language structures and conventions* combination is suggested, teachers are urged to design a combination of aspects that fits the character (test programme, time allocation, etc.) of the school.

A test in the Programme of Assessment should not be made up of several smaller tests. Each test should cover a substantial amount of content, should be set for 45-60 minutes, and should reflect the different cognitive levels as set out for exam papers.

16. Hospitality Studies

4.31 The formal assessment requirements for Hospitality Studies

- **Five formal School Based Assessment (SBA) tasks** must be completed during the school year in Grade 12 of which:
- **Three formal theoretical SBA assessment tasks** must be completed during the school year in Grade 12 in Terms 1-3.
- **The three formal theoretical assessment tasks and two practical lesson tasks**, consisting of **eight weekly practical lessons** in Grade 12, make-up the 25% of the total School based Assessment (SBA) mark for Hospitality Studies.
- **The end-of-year assessment includes two parts:** (1) A Practical Assessment Task (PAT) and (2) a **written theory paper**. Together these two parts make up the remaining 75% in Grade 12.
- Together, **the three components** constitute the end-of-year promotion mark of a **100%**.
- **The Skills tests** are developed by the teacher and are externally moderated by the Subject Advisor / Provincial Subject Head.
- **Assessment for the PAT** is assessed internally by the teacher and Departmental Head responsible for Hospitality Studies. It is also moderated externally by the Subject Advisor / Provincial Subject Head.
- The end-of-year NSC assessment (50%) **in Grade 12** is set, marked and moderated externally.
- Each task must cater for a balanced range of **cognitive levels** as well as align to the prescribed range for **levels of difficulty** as reflected in the tables that follow.
- An **item and error analysis** of learner performance must be completed after marking a formal assessment task. The purpose of the analysis is to expose a lack of knowledge and understanding or poorly developed skills. It further assists to identify the most suitable intervention strategy to improve the level of knowledge and understanding to improve learner performance.
- This process is verified externally by DBE/UMALUSI.

Formal assessment must cater for a range of cognitive levels and abilities of learners

The cognitive demand in assessment should be **appropriate for the age and developmental level** of the learner. Assessment in Hospitality Studies, must cater for a range of cognitive levels and learner abilities. The assessment tasks should be designed carefully to cover the content in the subject as well as the range of skills and cognitive levels, identified in the specific aims in Section 1 of the Hospitality Studies CAPS Policy Document.

SUGGESTED WEIGHTING FOR COGNITIVE LEVELS		
Cognitive level		Percentage
Lower order: Remembering		30 %
Middle order: Understanding Applying	20%	50%
	30%	
Higher order: Analysing / Evaluating and Creating		20%

The design of assessments should ensure that a full range of content and skills are assessed within each grade. The specific aims, topics, content and range of skills in the subject should be used to inform the planning and development of assessment tasks.

Formal assessment must cater for a range of levels of difficulty, as shown below.

SUGGESTED WEIGHTING FOR LEVELS OF DIFFICULTY	
Levels of Difficulty	Percentage
Easy	30%
Moderate	50%
Difficult	20%

Examiners and moderators **in all subjects** are encouraged to think about the difficulty level of every question /skill selected for assessment. In judging the level of difficulty the demand made on the cognitive ability of an average learner as well as the intrinsic difficulty of the question or task is considered.

In making this judgement, the difficulty or ease of a particular question is identified. A four-category framework for thinking about question or item difficulty adapted from Leong (2006) is used in this identification process.

This framework comprises the following four general sources of difficulty:

- **Content difficulty:** Classifies the difficulty of the subject matter, topic or conceptual knowledge of the content, where some content is inherently more difficult than other content.
- **Stimulus difficulty:** Relates to the linguistic features of the question and the challenge that the candidate faces to read, understand or interpret the question.
- **Task difficulty:** Refers to the difficulty a candidates faces when trying to formulate or produce an answer.
- **Expected response difficulty:** Refers to the difficulty a candidates faces due to how the response is formulated or how marks are allocated for the question.

Table 1b Formal/ Summative Assessment Grade 12			
SBA Term 1	SBA Term 2	SBA Term 3	Term 4 Promotion mark
Task 1 Test 75% Task 2 Three (3) Practical Lessons One (1) Skills Test 25%	Task 3 Mid-year examination 75% Task 4 Three (3) Practical Lessons One (1) Skills Test 25%	Task 5 Trial Examination 100%	SBA Term1+2+3=300÷3 = 100 PAT = 100 NSC Examination paper = 200
100	100	100	400÷4=100

****SBA: School Based Assessment**

In Grade 12 only **one internal exam** is compulsory. Schools may therefore:

- Write both exams; or
- Replace one of the exams with a test at the end of the term. This test will have the same weighting as the exam and must cover a substantial amount of work.
- The June Examination / Formal Test should comprise of 30% of content covered in term 1 (focusing on work that was not assessed in the Term 1: March Test), and 70% of the new content covered in Term 2.

4.4 Types of formal assessment for Hospitality Studies in Grades 12

4.4.1 Controlled Tests

Criteria for setting a question paper for a test or an examination in Grades 12

- A test for formal assessment **may** NOT comprise of a series of smaller tests. This creates an overload of assessment by adding the additional layers of assessment.
- A substantial amount of content must be included for assessment and the duration should be 45 to 60 minutes.
- It is compulsory to include questions that require:
 - Longer reflective responses in a paragraph format.
 - Higher order thinking skills that require substantiating evidence/motivations/arguments.
 - Source based questions such as: Case studies; scenarios; extracts; pictures/flow charts /tables/graphs/ cartoons/advertisements/menus for interpretation.
- **The first page of the test must include:** The name of the school; the date; name of the subject; grade; time allocation; name and number of the SBA task; mark total; name of the examiner and moderator;
- All test papers must be neatly typed;
- All graphics / illustrations should be print clear;
- The question paper should be error free e.g. no spelling, language, translation or mark allocation errors are allowed;
- It is compulsory for all tests to include TWO sections (Section A and B)
- Each test must cater for a balanced range of cognitive levels as well as align to the prescribed range for levels of difficulty.
- An item and error analysis of learner performance must be completed after marking a formal assessment task. The purpose of the analysis is to expose a lack of knowledge and understanding or poorly developed skills. It further assists to identify the most suitable intervention strategy to improve the level of knowledge and understanding to improve learner performance.

The mark allocation and suggested weighting of topics according to time spent per topic for tests is indicated in the tables that follow:

TASK 1: MARCH TEST		Grade 12	
	Content	Marks (minimum)	Teaching time per topic
Section A Question 1	Short questions (all topics) <i>Compulsory: Include a variety of question types</i>	15	
Section B Question 2	Hygiene	5	1 week
Section C Question 3	Nutrition and Menu Planning,	25	4 weeks
Question 4	Food commodities	25	4 weeks
Section D Question 5	Food and Beverage Service	5	1 week
TOTAL		75	
TIME		45-60 minutes	

Criteria for setting a Marking Guideline

- **The first page must contain:** The name of the school; the date; name of the subject; grade; time allocation; name and number of the SBA task; mark total; name of the examiner and moderator.
- All marking guidelines must be neatly typed.
- No spelling, language or translation errors are allowed.
- The numbering format must be correct and the numbering must align accurately with the question paper.
- Indicate the mark allocation for each fact with a tick✓.
- Include all the alternative responses that are considered as correct answers on the Marking Guideline.

4.4.2 Examinations

- Each question paper must cater for a balanced range of cognitive levels as well as align to the prescribed range for levels of difficulty.
- The mark allocation to weight the content for June, Trial and November examination papers in all grades are indicated in the tables that follow.

TASK 3: JUNE EXAMINATION		Grade 12	
	Content	Marks (minimum)	Teaching time per topic
Section A Question 1	Short questions (all topics) <i>Compulsory: Include a variety of question types</i>	40	
Section B Question 2	Kitchen and Restaurant operations Hygiene Term 1 Topics	15	1 week
Section C Question 3	Nutrition and Menu planning Term 1 Topics Food commodities Term 1 Topics	55	4 weeks 4 weeks
Question 4	Food commodities Term 2 Topics	55	4 weeks
Section D Question 5	Sectors and Careers Food and Beverage Service Term 1 Topics	35	1 week
Question 6	Term 2 Topics		3 weeks
TOTAL		200	
TIME		<i>3 hours</i>	

Grade 12: Trial Examination and November NSC Examination		Marks
	Content	Grade 12
Section A Question 1	Short questions (all topics) <i>Compulsory: Include a variety of question types</i>	40
Section B Question 2	Kitchen and Restaurant operations Hygiene Safety and Security	20
Section C Question 3: Question 4:	Nutrition and Menu planning Food commodities	80 (2x40)
Section D Question 5 Question 6	Sectors and Careers Food and Beverage Service	60 (2x30)
TOTAL		200
TIME		<i>3 hours</i>

4.4.3 PRACTICAL WORK

(a) Practical lessons

- **Grade 12:** Learners must each do a minimum of **six** (6) assessed practical lessons and **two** (2) practical Skills Tests during the year, in each of the first two terms.
- Examples of dishes and skills for the assessed practical lessons are reflected in the Teaching plans for the Practical work.
- Evidence of how marks are allocated for each Practical lesson according to the criteria stipulated in the CAPS policy, must correlate accurately in both the teacher and learner evidence.

(b) Practical Skills Test

The Skills Test is an assessment task that requires the learner to demonstrate and apply understanding of: (a) Soft Skills; (b) 21st Century skills, (c) Entrepreneurial Skills and (d) Practical techniques and skills.

Skill testing provides an objective measure of a candidate's ability and understanding to perform a specific task. A Skills Test measures **skills** or **knowledge** accurately. It further assists to determine whether the prescribed skills have been mastered effectively.

The scenario provided to introduce the test can be presented to the learner in the following formats: (a) written text; (b) visual text; (c) audio /video clip; (d) a practical demonstration or (e) a display.

Criteria for setting a Skills Test in Hospitality Studies

- Determine and indicate the skill/s to be assessed;
- Link the skill(s) to specific content within the Term's ATP;
- Select / create a scenario that is current and real;
- Select / create the scenario relevant to the identified skill/s and content covered within the relevant Term;
- Provide information about the skill/s and/or content;
- Develop the task with clear instructions;
- Develop an assessment tool with a clear breakdown of expected criteria to display competence of the skill.

(c) Practical Assessment Task (PAT)

- The Practical Assessment Task (PAT) comprises of **ONE practical examination** in Grade 12.
- Provincial Departments of Education may not set common menus for schools in the province, as the facilities, type of guests and the finances differ in each school.
- Set dates for the PAT in Grades 12 at the beginning of the academic year, to appear on the school year plan. These PATs should be planned to prevent clashes with other school activities.
- It is recommended that the PAT is included in the school's timetable for examinations/tests.
- The duration for the PAT is: **Grade 12:** 5 – 7 hours
- Learners must work individually during the PAT.
- Each learner requires a mark **out of 100** for cooking skills (Chef/Head chef/ Sous-Chef-/Kitchen Manager), OR a mark out of 100 for serving skills (Waiter/Maitre d'hôtel/Beverage Manager). (Select the role for the PAT, *based on the performance of the learner's strongest skill for either cooking or serving.*)
- The school has the responsibility to provide the resources for the Practical Assessment Task (PAT).
- **Grade 12:** Guidelines for the Practical Assessment Task are **set externally**. No changes/amendment may be implemented to the expected outcomes as indicated in the PAT task for the current academic year. Provincial Departments of Education or teachers may not change or retype the PAT task for the current year or implement

PAT tasks from a previous year of assessment.

- **Grade 12:** The practical examinations takes place in term 3. In consultation with the Subject Advisor the Grade 12 PAT may be implemented in term 2.
- **The date** for the PAT in Grade 12 (Term 3) should be discussed and negotiated well in advance with the Subject Advisor and/or Provincial Subject Head to attend the exam.
- **The following protective dress code is compulsory for every Practical lesson and the PAT:**
 - **Chefs** should wear the correct chef uniform comprising of chef's jacket, pants, hat, chef's apron and school shoes to protect the learner. (*Jeans and tackies are not allowed.*) School uniform pants/trousers are permitted during practical lessons and PAT examinations. Hair must be kept away from the face using a hair net for hygiene purposes.
 - **Waitrons** wear school uniform / black pants/trousers and a white shirt with the option of a waistcoat/bowtie or a waiter's apron. Hair must be kept away from the face using a hair net for added hygiene purposes.
- Submission of completed written preparation forms for the practical lesson and PAT must be available in the learner evidence.
- **The following must be available for each Practical lesson and PAT:** (a) Clean dish cloths and oven gloves; (b) Dish washing liquid.

Criteria for the PAT examination in Grade 12 (External guidelines) Term 2 or 3
Formal meal – Hors d'oeuvres and three courses. Plated service. Include: Advanced meat dishes, exotic vegetable dishes, interesting starch dishes, advanced sauces, vegetarian dishes, choux pastry, desserts, yeast products (baked), gelatine (salad or dessert), advanced garnishing, serving of wine substitute and non-alcoholic cocktails.

17. Information Technology (IT)

Grade 12 Programme of Assessment

Term	Term 1		Term 2			Term 3		Term 4			
Task	Task 1	Task 2	Task 3	Task 4		Task 5		External Examination			
Form / Types of Assessment	Theory Test	Alternative Task: Closed or Open Book or Case Study or Integrated task	Practical Test	Practical Exam	Theory Exam	Practical Exam	Theory Exam	SBA	Practical Exam	Theory Exam	Practical Assessment Task (PAT)
Total Marks	Min 50	Min 50	Min 50	150	150	150	150	Min 750	150	150	150
Report Mark Weighting	50%	50%	20%	40%	40%	50%	50%	25%	25%	25%	25%
SBA Weightings	6%	6%	6%	20,5%	20,5%	20,5%	20,5%	100%			
Time Allocation	45 - 60 Minutes	45 - 60 Minutes	45 - 60 Minutes	3 Hours	3 Hours	3 Hours	3 Hours	Term 1 – 3	3 Hours	3 Hours	Term 1 – 3

Alternative Assessment

Alternative assessment is an alternative to standard tests and exams. It provides a true evaluation of what the learner has learned, going beyond acquired knowledge by looking at their application of this knowledge.

Integrated task/test

An integrated task/test requires learners to be able to apply their knowledge and skills in both theory and practical work that was covered. Testing these types of scenarios e.g. database theory together with database practical, algorithm with implementation and using a trace table to debug a programme.

Case study

Case studies are investigations of real-life situation or simulation thereof. Data is gathered from a variety of sources and by using several different methods. A case study requires an in-depth, and detailed examination of a scenario, as well as the related contextual conditions.

Each test, open book test, alternative assessment task and examination must reflect different cognitive levels.

Structure of Papers

Paper 1: 3-hour practical paper of 150 marks (25% of the total marks for the subject)

This will be a practically oriented paper covering questions on Solution Development.

IT learners will receive 30 minutes reading and planning time before commencement of the practical examination. Learners will also receive a script to use for planning and notes during this period and the duration of the examination.

To successfully complete this paper, each learner must have access to his or her own computer in the exam room. Provision needs to be made for sufficient computers to enable the examination to be completed in **2 sittings**.

This paper assesses the practical skills as well as the knowledge and understanding underlying the skills pertaining to Solution Development, i.e. the high-level programming language studied which includes interaction with a database.

The paper does not have an overarching scenario. Each question may have its own scenario.

The paper will comprise questions covering the following broad topics:

- Basic programming skills
- Database:
 - o Integrated SQL solution that will also include problem-solving as part of the solution
 - o Integrated data-aware that will also include problem-solving as part of the solution
- OOP-programming (including basic application and basic problem solving skills)
- General problem solving – different levels of higher order skills

The following format to be used:

Question	Skills Tested	Marks
1	Basic, general programming concepts and skills	±40
2	Database	±40
3	Object-oriented programming (OOP)	±35
4	General problem-solving	±35

Software design tools may be provided as part of the problem statement (IPO tables, basic flow charts and class diagrams).

The learner will not be required to enter large amounts of data. The required data could be retrieved from the data disk or imported from documents such as a text file, or a database table. All GUIs will be provided.

Marks for questions must be allocated towards basic skills, concepts, constructs and problem solving techniques, e.g. application of an iteration structure as part of the solution (correct structure) as well as for the correct use of the structure. The allocation of marks should take into account the time spent on solving, coding and debugging a solution.

Paper 2: 3-hour written paper of 150 marks (25% of the total marks for the subject)

The paper will cover all theory aspects of all content, concepts and skills of topics, including elements of Solution Development, e.g. algorithmic development, data structures, program design and general programming concepts as well as generic problem solving questions.

The paper does not have an overarching scenario. Each question may have its own scenario.

The following format to be used:

Question		Description
1	Human Computer Interaction and Social Implications These topics could be integrated as part of the other sections and will not be a separate section in the paper.	Short questions (±20 marks) A range of short questions covering all topics that could include <ul style="list-style-type: none"> multiple-choice and modified true and false.
2		Systems Technologies (±25 marks) Questions related to the content, concepts and skills in the Systems Technologies topic.
3		Communications Technologies and Network Technologies (±25 marks) Questions related to the content, concepts and skills in the Communication Technologies and Network Technologies topic.
4		Data and Information Management (±25 marks) Questions related to the management of data and the concept of information management.
5		Solution Development (±25 marks) Questions aligned to the Solution Development topic which assess the knowledge and understanding underlying the concepts and skills in the Solution Development topic.
6		Integrated Scenario/Case Study (±30 marks) This section is based on a single large-scale scenario and assess all the topics.

Software tools for examination purposes as part of the theory paper are limited to IPO tables, basic flow charts, class diagrams, trace tables and use case diagrams.

Content to be covered

Assessment addresses the content as set out in this document. Due to the conceptual progression of the content across the grades, content and skills from Grades 10 – 12 will be assessed in the external papers at the end of Grade 12.

Every three years content will be revisited to include new and emerging technologies and trends.

Cognitive and difficulty levels of formal assessments

Formal assessments must cater for a range of cognitive levels and abilities of learners as shown in the table below:

Cognitive Level	Taxonomy	Description
C1 30%	Knowledge, Remembering	Recall of factual/process knowledge in isolation , i.e. <i>one</i> action/step/set of basic steps/instruction/process at a time, e.g. definitions in the theory paper and known procedure/algorithm in the practical paper.
C2 40%	Understanding, Applying	Demonstrates understanding of steps/algorithms/processes/ isolatable bits, such as translating from one form of representation to another, e.g. converting a flow chart representation of a program/program segment to a functional program. It also requires using and combining known routines/algorithms/processes in a familiar context in order to complete a task, where all of the information required is immediately available to the learner .
C3 30%	Analysing, Evaluating, Creating	Requires reasoning/investigation/developing a plan or sequence of steps/algorithm; has some complexity where candidates need to see how parts relate to a whole; organising/putting together component parts/elements to form a coherent functional whole/achieve an overall objective and completing a task that could have more than one possible approach. It could also require weighing possibilities, deciding on the most appropriate solution, as well as testing to locate errors/ troubleshooting, pattern recognition and generalisation. These questions will comprise using and combining actions/strategies/procedures where candidates are required to create their own solutions to challenges they may encounter. These questions could include analysing questions or data, and decision-making.

Levels of difficulty are categorised as follows:

- D1: Easy for the average Grade 12 candidate to answer
- D2: Moderately challenging for the average Grade 12 candidate to answer
- D3: Difficult for the average Grade 12 candidate to answer
- D4: Very difficult for the average Grade 12 candidate to answer. The skills and knowledge required to answer questions at this level should be included to distinguish amongst high achievers.

In judging the level of difficulty of each question, both the demands that each question makes on the cognitive ability of an average Grade 12 IT learner and the intrinsic level of difficulty of the question or task are considered. In making this judgement, the difficulty or ease of a particular question is identified. A four-category framework for thinking about question or item difficulty adapted from Leong (2006) has been used in this identification process. This framework comprises the following four general categories of difficulty:

- **Content difficulty:** This indexes the difficulty of the subject matter, topic or conceptual knowledge; some content is inherently more difficult than other content.
- **Stimulus difficulty:** This relates to the linguistic features of the question and the challenge that candidates face in reading, interpreting and understanding the question.
- **Task difficulty:** This refers to the difficulty that candidates face when trying to formulate or produce an answer.
- **Expected response difficulty:** This refers to difficulties because of the mark scheme or marking guidelines, in other words how marks are to be allocated.

Weighting of cognitive levels and difficulty levels

Papers 1 and 2 will include questions across three cognitive levels. The distribution of cognitive levels in the practical and theory papers is given in the table below.

The estimated percentages for each level of difficulty within each cognitive level are shown in the table below.

	D1	D2	D3	D4	TOTAL
C1	±10%	±10%	±10%	-	±30%
C2	±15%	±15%	±8%	±2%	±40%
C3	±15%	±7%	±5%	±3%	±30%
TOTAL	±40%	±32%	±23%	±5%	100%

Learners are required to investigate and analyse problems in a variety of contexts (such as scientific, technological, environmental and everyday-life contexts) in order to solve the described problems effectively, either via programming code in Paper 1 or describe proposed solutions in Paper/Paper 2.

Annexure A

A taxonomy description for practical content

Lower Order (C1)	Middle Order (C2)	Higher Order (C3)
30%	40%	30%
Knowledge/Remembering	Understanding/applying	Analysing/evaluating/creating
<p>Code Generator</p> <p>Operates at level of individual lines of code/code structures/ routine procedures (in isolation)</p> <p>The learner is able to</p> <ul style="list-style-type: none"> recall specific isolatable bits of information learned use bits of code/code structures in isolation - no real connections – in an unrelated way generate code - knows syntax and semantics - can write a line of code/a code structure that does something specific, e.g. basic processing statement, lines of code to obtain input or produce output, algorithm to swap two items, etc. to focus on one relevant aspect at a time (uni-structural) answer questions, seen before, used in exactly same context as learned/ classroom-based exercise and that is straight forward, to-the-point, that requires mostly one, direct answer/ piece of code/code structure <p>Cannot</p> <ul style="list-style-type: none"> See relationships Combine concepts/various lines of code/code structures to achieve a goal or complete a task <p>Examples of isolatable bits of content learned (knowledge) that the learner is able to recall and use in isolation:</p> <ul style="list-style-type: none"> syntax rule code statement, e.g. assign statement built-in method, e.g. random structure, e.g. class definition algorithm, e.g. swap two values, sort process, e.g. reading a text file, populate array setting property value 	<p>Program Generator</p> <p>Operates at level of writing basic programs that combine concepts/ structures/ isolatable bits</p> <p>The learner is able to</p> <ul style="list-style-type: none"> read a program, tell what each line means/ does tell the goal/outcome of a program write programs seen before in a similar context/to perform specific tasks Able to relate, combine and integrate some concepts/code/code structures into valid programs - use and combine specific building blocks to write a program for a specific task Can answer closed/scaffolded questions in a similar context than experienced before, with or without new elements <p>Cannot</p> <ul style="list-style-type: none"> Optimise a program/code Do detailed planning Perform error catching/trace errors Answer unfamiliar, unseen or open-ended questions without scaffolding and guidance <p>Understanding:</p> <p>Convert from one format to another, e.g. interpret flow chart and convert to code,</p> <p>Read code and tell what it does or provide the output</p> <p>Applying:</p> <p>Carrying out or using a procedure/ algorithm/structure/ code statement in a given situation similar context (but <i>new elements or situation</i>) as was experienced before to perform a task, e.g. combine concepts/isolatable bits</p>	<p>Software Developer</p> <p>Operates at a level of writing solutions to new/unfamiliar or open-ended problems</p> <p>The learner is able to</p> <ul style="list-style-type: none"> tell what the different parts of a program do and how different parts of a program work together optimise a program/section of code analyse, design, plan, implement and test a solution to a new problem Perform error catching, understanding when, where and how relate, combine and integrate several code structures/constructs to devise 'new' algorithms/ adapting existing ones link several aspects to a broader context independently identify patterns and relate these to programming constructs/structures generalise, abstract and decompose problems into sub-problems and modules answer free response/open-ended questions, 'new' (unseen questions), by framing the question and finding a plausible cause of action <p>Synthesis</p> <p>Combine concepts in unfamiliar/new context to form a (new coherent or functional whole), e.g. code a solution to a problem/to perform a task (not seen before)</p> <p>Includes analysing, e.g. identifying different parts such as sub-routines/ modules/data structures / I/O strategies /algorithms required;</p> <p>Includes evaluating, e.g. deciding which structures to use and free response/open-ended questions</p>

18. Life Orientation

Programme of Assessment

The programme of assessment is designed to spread formal assessment tasks in a subject throughout the school year. The mark for each of the five formal assessment tasks for Life Orientation is as follows:

Grade 12

TERM	ASSESSMENT TASK	MARKS PER TERM		YEAR %
		RECORDING	REPORTING	WEIGHTING
1	Written task	80	100 (90 ÷ 90 x 100)	20%
	PET	10		2.5%
2	Mid-year examination	100	100 (120 ÷ 120 x 100)	25%
	PET	20 (10X2)		5%
3	Project	80	100 (90 ÷ 90 x 100)	20%
	PET	10		2.5%
4	Final Examinations	100	100	25%
FINAL TOTAL		400	400	100 %

Formal assessment

In the formal programme of assessment for Life Orientation, learners are expected to complete five tasks per grade.

These five assessment tasks are:

- Two examinations;
- One project;
- One written task; and
- Physical Education Task (PET).

The five internal formal tasks make up 100% of the total mark out of 400 for Grade 12.

The Grade 12 final examination marking should be done centrally.

Examinations

The mid-year examination for Grade 12 will comprehensively address the content, knowledge and skills covered in terms 1 and 2; and for the final examination, terms 1 - 4.

More than one type of question should be incorporated and focus primarily on the application of knowledge in an integrated manner. **Examinations must include 10% content relating to Physical Education.**

Outline of the Examinations for Grade 12

The outline below will be followed when setting Life Orientation examination papers for Grade 12. The paper will consist of three sections.

Outline of Examinations for Grade 12

The outline below will be followed when setting Life Orientation examination papers for Grade 12. The paper will consist of three sections. Total for examination: **100 marks**

Section A: 20 marks	Section B: 40 marks	Section C: 40 marks												
All questions are COMPULSORY	All questions are COMPULSORY	Learners will answer TWO 20 mark questions out of THREE.												
<p>Mark allocation for the questions should range between 1 - 2 marks. The questions have to be a combination of two or more types of questions ranging from:</p> <ul style="list-style-type: none"> • Multiple choice • Fill in the blanks • True or false with a justification • Matching columns • Change the UNDERLINED word • Short questions that require short explanations, phrases or definitions. 	<p>Learners will answer TWO 20 mark questions. Short open-ended questions could be:</p> <ul style="list-style-type: none"> • Scenario- based • Source-based • Case study • Cartoons • Illustration, and/ or • Graphs. <p>Learners should display, present and apply knowledge and skills gained from the Life Orientation content. Learners should demonstrate an understanding of real-life issues affecting the youth and society at large.</p>	<p>Questions will predominantly focus on the application of knowledge and skills.</p> <p>Answers will range from short responses to paragraphs.</p> <p>Learners will be required to:</p> <ul style="list-style-type: none"> • Examine/ analyse the topic problem/s, • Explain meaning, • Make decisions • Provide recommendations • Make conclusions. <p>Each question will focus on a specific topic or an integration of content.</p> <p>A short text/ diagram/ data/ graphs/cartoons may be provided as a stimulus.</p>												
<p>Note. Information provided in the texts has to be current, up-to-date, age-appropriate, learner-friendly and devoid of racial, cultural, religious, sexual orientation and gender bias. Each section will include questions at lower, middle and higher cognitive levels.</p> <p>The following must be provided:</p> <p>A marking guideline and a marking grid indicating the cognitive levels of Bloom's taxonomy levels 1-6 must be provided.</p> <table border="1"> <thead> <tr> <th>Weighting</th><th>Cognitive level</th><th>Bloom's taxonomy</th></tr> </thead> <tbody> <tr> <td>30%</td><td>lower order</td><td>Levels 1 & 2</td></tr> <tr> <td>40%</td><td>middle order</td><td>Levels 3 & 4</td></tr> <tr> <td>30%</td><td>higher order</td><td>Levels 5 & 6</td></tr> </tbody> </table> <p>The time allocation for the examination is 2 hours</p>			Weighting	Cognitive level	Bloom's taxonomy	30%	lower order	Levels 1 & 2	40%	middle order	Levels 3 & 4	30%	higher order	Levels 5 & 6
Weighting	Cognitive level	Bloom's taxonomy												
30%	lower order	Levels 1 & 2												
40%	middle order	Levels 3 & 4												
30%	higher order	Levels 5 & 6												

Physical Education Task (PET)

The Physical Education (PE) component aims to develop learners' physical well-being and knowledge of movement and safety. It encourages learners to perform in a wide range of activities associated with the development of an active and healthy lifestyle. PE also aims to develop learners' confidence and generic skills, especially those of collaboration, communication, creativity, critical thinking and aesthetic appreciation. These, together with the nurturing of positive values and attitudes in physical education, provide a good foundation for learners' lifelong and life-wide learning.

All Physical Education periods will focus on practical physical and mass participation in movement activities:

- For enjoyment and enrichment purposes with a view to encourage learners to commit and engage in regular physical activity as part of their lifestyle.
- PET will be administered across all four terms.
- Physical Education component comprises three different movement sections: fitness, games, sport; recreation and relaxation.
- Physical Education must be conducted once a week, which is a fixed period, labelled Physical Education on the school timetable.

The focus of PET falls into two broad categories:

- 1) Participation: exposing learners to an **understanding of the value of regular participation** in physical activity.
Participation should encourage further development, enjoyment and build confidence

- 2) Movement performance: learners will be assessed at the level at which they are capable of performing. Movement performance **must not encourage a sense of competition**.

The teacher will observe whether the performance of a movement has a desired outcome, **focusing on the:**

- **Overall performance of the movement rather than the detailed mechanics of each movement.** However, once a teacher has gained confidence and knows how to break down a motor skill and movement sequence down into different parts, **additional criteria can be added to assess the performance** in greater depth.

Assessment tool for PET

The assessment tool for learner performance

LEVEL	LIMITED	ADEQUATE	PROFICIENT	EXCELLENT
OBSERVATION 1 Outcome of movement performance	Needs significant attention: movements do not produce the desired outcome at all	Requires attention and refinement: lapses in movements which do not always produce the desired outcome	Efficient, effective and appropriate: movements mostly produce the correct desired outcome	Exceptional level of skill: movements always produce the desired outcome
(5 marks)	(0-1 mark)	(2-3 marks)	(4 marks)	(5 marks)
OBSERVATION 2 Outcome of movement performance	Needs significant attention: movements do not produce the desired outcome at all	Requires attention and refinement: lapses in movements which do not always produce the desired outcome	Efficient, effective and appropriate: movements mostly produce the correct desired outcome	Exceptional level of skill: movements always produce the desired outcome
(5 marks)	(0-1 mark)	(2-3 marks)	(4 marks)	(5 marks)

A Physical Education class list, for Grade 12, will be used to generate a mark out of 10 for movement performance.

The number of PE periods per term will depend on the Department of Basic Education school calendar for the year.

Example of the class list for participation and movement performance:

	TERM 1	1. Frequency of participation NO MARKS ALLOCATED						2. Movement performance (10 marks)		Total marks for term
		P1	P2	P3	P4	P5	P6	Observation 1 5 marks	Observation 2 5 marks	10
1.	T Maju	✓ [present]	✓ A absent with a valid reason	✓	a [absent]	x [present but did not participate]	✓			
2.										

An 'a' will indicate that the learner was absent for that particular period and an 'x' that the learner was present in class, but did not participate and an A that the learner was absent with a valid reason.

Frequency of Participation

A record of learner participation will be kept in the teacher file. **This will not be used for assessment**

Movement performance

Learners will be observed twice across a school term for formal assessment purposes to determine their level of movement performance. Allocate a mark out of five (5) for each of the two observations (movement). Add the two to obtain a final mark out of ten (10).

The second term assessment will be multiplied by 2 to give a total of 20.

19. Life Sciences

Assessment

4.4.2 Grade 12 Programme of formal assessment

The requirements (number and nature of tasks) for Life Sciences are indicated below:

Composition of the SBA component for Grade 12

TERM	Task	Weighting (% of SBA)	% of Reporting mark per term
1	Practical Minimum 30 marks	10	25
	Test Minimum 50 marks	10	75
2	Practical Minimum 30 marks	10	25
	Test Minimum 50 marks	10	25
	Mid-year Exam One paper - 150 marks Duration: 2½ hours	20	50
3	Assignment Minimum 50 marks Duration: 1 - 1½ hours	10	25
	Trial Exam Two papers - 150 marks each Duration: 2½ hours each	30	75
	Total	100	

NOTE:

- The year mark for grade 12 will be converted to 25% and the external examination will count 75% of the final mark.
- The assignment can be done in any term (1-3) but must be recorded in term 3.
- The final SBA mark is weighted as follows:
 - Test and examinations: 70%
 - Practical tasks and assignment/ project: 30%

4.5 Further elaboration on the different tasks of the Programme of Formal Assessment:

4.5.1 Tests and Examinations

When designing the tests as well as the mid-year and trial examinations, the Life Sciences teacher must ensure that:

- The test is a minimum of 50 marks
- The test must cover the content taught in the respective term
- The mid-year examination must cover work completed in term 1 and term 2
- The trial examinations for grade 12 must cover work completed in terms 1, 2 and 3
- Tests and examinations are balanced in terms of cognitive levels and topic weightings. Degrees of difficulty must be determined. In this regard weighting grids must be used

- Tests and examinations follow the NSC examination in its design, rigour and format
- In tests and examinations, one minute is allocated for each mark
- Each test/exam paper must cover all the SAs and the minimum weighting for SA2 is 20% of the total of the paper.
- Tests and examinations must be analysed diagnostically and appropriate remedial and intervention strategies are instituted

4.5.2 Practical Tasks

When designing the practical tasks, the Life Sciences teacher must ensure that:

- At least ONE of the practical tasks include manipulation of apparatus and/or collection of data
- All 7 SA2 skills must be covered over the total number of practical tasks required for the year
- Each of the practical tasks must assess at least 3 of the 7 skills
- A minimum of 30 marks is allocated to a practical task

4.5.3 Research Project

Teachers can either choose the topic or allow learners to do so, provided that the project adheres to the criteria stipulated on the next page.

The teacher may choose to administer the project in either grade 10 or 11, provided the topic fits the scope of that grade.

When designing the research project, the Life Sciences teacher must ensure that:

- The research project covers Specific Aims 1, 2 and 3
- The mark for the research project is recorded in the 3rd term even if it is completed in term 1 or term 2
- A minimum of 50 marks is allocated to the research project
- It is a long term task (at least 3-weeks of non-contact time)
- It is an investigative task
- It focuses on the accessing of knowledge through literature research as well as through primary sources such as people
- It includes sub-skills such as:
 - Formulating investigative questions and hypotheses
 - Gathering information from a variety of sources
 - Manipulating and processing information
 - Analysing information
 - Identifying patterns
 - Evaluating data
 - Drawing valid conclusions
 - Communicating findings

4.5.4 Assignment

When designing the assignment, the Life Sciences teacher must ensure that:

- The task should be set in such a way that it is not heavily weighted towards recall of content. It should be more skills-based
- The assignment covers Specific Aims 1, 2 and 3
- The SA2 skills not assessed in the grade 12 practical tasks throughout the year, must be addressed within the assignment
- The mark for the assignment is recorded in the 3rd term even if it is completed in term 1 or term 2
- A minimum of 50 marks is allocated to the assignment

- It is a short term task (1 - 1 ½ hours)
- It is **individually** completed at school **under controlled conditions**
- No resources (e.g. text books, notes, internet, etc.) may be used when completing the task
- It includes a **short source-based essay** (10-15 marks) and also as many as possible of the following:
 - Analysing and interpreting data
 - Making drawings
 - Plotting graphs
 - Drawing tables
 - Performing calculations
 - Justifying conclusions

4.6 Format of a Life Sciences examination paper

The one paper will be:

Sections	Type of questions	Marks
A	A variety of short answer questions, objective questions for example MCQ, Terminology, columns/ statement and items, data-response	50
B	A variety of questions types. 2 questions of 50 marks each divided into 2 – 4 subsections	2 x 50

4.5 The end-of-year examinations:

4.7.3 Grade 12

The examination will consist of two examination papers of 2½ hours and 150 marks each. The weighting and assessment of topics in Paper 1 and Paper 2 will be as follows:

Paper 1

Topic	Time	Weighting	
		%	Marks
Term 1:			
DNA: Code of Life	2 weeks	18	27
Meiosis	1½ weeks	14	21
Term 1 and 2:			
Genetics and Inheritance	3½ weeks	32	48
Term 3:			
Evolution	4 weeks	36	54
Totals	11 weeks	100	150

Paper 2

Topic	Time	Weighting	
		%	Marks
Term 1:			
Reproduction in Vertebrates	½ week	5	8
Human Reproduction	3 weeks	27	41
Term 2:			
Responding to the environment (humans)	4 weeks	36	54
Term 3:			
Responding to the Environment (plants)	1 week	9	13
Term 2 and 3:			
Endocrine and Homeostasis	2½ weeks	23	34
Totals	11 weeks	100	150

The weighting per topic must serve only as a guideline to teachers and examiners and is included to ensure that all topics are adequately covered in examinations. The number of marks per topic is not expected to be exactly according to this weighting in the examination papers.

20. Mathematical Literacy

4.1 Programme of Assessment

The following tables provide the Programme of Assessment for Grades 12 showing the weighting of assessment tasks

Table 1: The weighting of assessment tasks

Example of a Programme of Assessment for Grade 12 showing the weighting of assessment tasks

	SCHOOL BASED ASSESSMENT (25%)				EXAMINATION (75%)
	Term 1	Term 2	Term 3	Term 4	
Grade 12	Investigation (10%)	Assignment (10%)	Test (15%)	REVISION	Examination
	Test (15%)	Examination* (25%)	Examination* (25%)		

* In Grade 12, one of the tasks in Term 2 or Term 3 may be an internal examination.

The suggested Programme of Assessment assumes that:

- all the topics and sections are addressed throughout the year;
- the topics are weighted in accordance with the suggested minimum weightings for each topic outlined in Chapter 2 of this document;
- content and/or skills are integrated across a variety of topics throughout teaching and learning, and in the assessment activities.
- 1-2 weeks may be allocated as duration to complete and submit the Assignment or Investigation.
- The weightings for quarterly reporting will be allocated as 25% assignment or investigation and 75% control test or examination.

THE STRUCTURE OF THE PAPERS

Table 2: Weighting per application topic:

	Topic	Weighting (%)
Basic Skills Topics	Interpreting and communicating answers and calculations	No weighting is provided for these topics. Rather, they will be assessed in an integrated way in the Application Topics on both papers.
	Numbers and calculations with numbers	
	Patterns, relationships and representations	

TOPIC	PAPER 1	WEIGHTING
Application topics	Finance	60% (± 5)
	Data Handling	35% (± 5)
	Probability	5%

TOPIC	PAPER 2	WEIGHTING
Application topics	Maps, plans and other representation of the physical world	40% (± 5)
	Measurement	55% (± 5)
	Probability	5%

N.B. The policy caters for the variance of $\pm 5\%$ for each topic except probability

Section in Finance: (Income, Expenditure, Profit/loss, Income-and-Expenditure statements and Budgets, Cost price and Selling price)

Table 3: Percentage of marks to be allocated to the different assessment taxonomy levels in examinations in Grades 12

The four levels of the Mathematical Literacy assessment taxonomy	Paper 1	Paper 2
Level 1: Knowing	30% \pm 5%	30% \pm 5%
Level 2: Applying routine procedures in familiar contexts	30% \pm 5%	30% \pm 5%
Level 3: Applying multi-step procedures in a variety of contexts	20% \pm 5%	20% \pm 5%
Level 4: Reasoning and reflecting	20% \pm 5%	20% \pm 5%

The first question in paper 1 end of year exam should integrate content from Finance and Data handling such that all the questions are pitched at cognitive level 1. The question should carry 20%, with $\pm 5\%$ permissible deviation.

The same format should also be applied in paper 2.

i.e The first question in paper 2 end of year exam should integrate content from Measurement and Maps, plans and other representation of the physical world such that all the questions are pitched at cognitive level 1. The question should carry 20%, with $\pm 5\%$ permissible deviation.

21. Mathematics

Programme of Assessment

(a) Examinations

In Grades 10, 11 and 12, 25% of the final promotion mark is a year mark and 75% is an examination mark.

All assessments in Grade 10 and 11 are internal while in Grade 12 the 25% year mark assessment is internally set and marked but externally moderated and the 75% examination is externally set, marked and moderated.

Mark distribution for Mathematics NCS end-of-year papers: Grades 10-12			
Paper 1: Grades 12: bookwork: maximum 6 marks			
description	Grade 10	Grade 11	Grade. 12
Algebra and equations (and inequalities)	30 ± 3	45 ± 3	25 ± 3
Patterns and sequences	15 ± 3	25 ± 3	25 ± 3
Finance and growth	10 ± 3		
Finance, growth and decay		15 ± 3	15 ± 3
Functions and graphs	30 ± 3	45 ± 3	35 ± 3
Differential Calculus			35 ± 3
Probability	15 ± 3	20 ± 3	15 ± 3
Total	100	150	150
Paper 2: Grades 11 and 12: theorems and/or trigonometric proofs: maximum 12 marks			
description	Grade 10	Grade 11	Grade 12
Statistics	15 ± 3	20 ± 3	20 ± 3
Analytical Geometry	15 ± 3	30 ± 3	40 ± 3
Trigonometry	40 ± 3	50 ± 3	50 ± 3
Euclidean Geometry and Measurement	30 ± 3	50 ± 3	40 ± 3
Total	100	150	150
note: <ul style="list-style-type: none"> Modelling as a process should be included in all papers, thus contextual questions can be set on any topic. Questions will not necessarily be compartmentalised in sections, as this table indicates. Various topics can be integrated in the same question. Formula sheet must not be provided for tests and for final examinations in Grades 10 and 11. 			

(b) **Number of assessment tasks and Weighting:**

Learners are expected to have seven (7) formal assessment tasks for their school-based assessment. The number of tasks and their weighting are listed below:

		GRADE 10		GRADE 11		GRADE 12	
		TASKS	WEIGHT (%)	TASKS	WEIGHT (%)	TASKS	WEIGHT (%)
School-based Assessment	Term 1	Project /investigation Test	20 10	Project / investigation Test	20 10	Test Project / investigation Assignment	10 20 10
	Term 2	Assignment Mid-Year Examination	10 30	Assignment Mid-Year Examination	10 30	Test Mid-Year Examination	10 15
	Term 3	Test Test	10 10	Test Test	10 10	Test Trial Examination	10 25
	Term 4	Test	10	Test	10		
School-based Assessment mark			100		100		100
School-based Assessment mark (as % of promotion mark)			25%		25%		25%
End-of-year Examinations			75%		75%		
Promotion mark			100%		100%		
Note: <ul style="list-style-type: none"> Although the project/investigation is indicated in the first term, it could be scheduled in term 2. Only one project/ investigation should be set per year. Tests should be at least one hour long and count at least 50 marks. Project or investigation must contribute 25% of term 1 marks while the test marks contribute 75% of the term 1 marks. The combination (25% and 75%) of the marks must appear in the learner's report. Non graphic and non programmable calculators are allowed. Calculators should only be used to perform standard numerical computations and to verify calculations by hand. Formula sheet must not be provided for tests but must be provided the final examinations in Grades 10 and 11. 							

22. Mechanical Technology – Fitting and Machining, Automotive and Welding and Metalwork

4.5 Assessment

4.5.1 Programme of Assessment

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term. Without this programme, assignments and tasks are crowded into the last few weeks of the term creating unfair pressure on the learners

PROGRAMME OF ASSESSMENT		
School-based Assessment SBA	Practical Assessment Task PAT	Final Examination
25%	25%	50%

The table below shows the compilation of the school based assessment mark:

Description	Time Frame	Weighting of final 25%	Marks
Assignment	Term1	5%	50
Mid-Year examination	Term2	10%	200
Preparatory examination	Term3	10%	200
Total		25%	450

The following is the Programme of Assessment for Grades 12.

GRADE 12 ASSESSMENT REQUIREMENTS							
ASSESSMENT TASKS	TERM 1	TERM 2	TERM 3	TERM 4	% OF FINAL PROMOTION MARK		MARK Weighting
Assignment	1				5	25	450 total converted to mark out of 100
Mid-year and preparatory examination		1	1		20		
Practical Assessment Task (PAT)	✓	✓	✓		25		250 total converted to mark out of 100
Final examination				1	50		200
TOTAL – PROMOTION MARK							400

4.5.2 Assignment

- An assignment must be in the form of a written work which may include the following; Research, Case study, Drawings and Calculations.
- It should cover term1 content and the duration should be 60 minutes.
- The mark allocation should be 50 marks which forms 5% of the final SBA mark
- Each Assignment must cater for a range of cognitive levels or skills.
- The forms of Assessment used should be Grade and development level appropriate.
- The design of these tasks should cover the content and context

4.5.3 Examinations

- Each examination must cater for a range of cognitive levels
- The mark allocation of the three –hour Mid-year examination is 200 marks which is 10% of the final SBA mark
- The mark allocation of the three –hour Preparatory examination is 200 marks which is 10% of the final SBA mark
- The Mid-year and the Preparatory examination papers are set by the teacher and must be moderated by head of department at the school and approved by the District Curriculum advisors / facilitator. This is done to ensure that the prescribed weightings are adhered to by the teacher.
- The mark allocation of the externally three –hour final examination is 200 marks which is 50% of the final SBA mark.
- In the Grade 12 examination only Grade 12 content will be assessed. However, prior knowledge from Grades 10 – 11 may be necessary to interpret and answer some other questions.

4.5.4 Practical Assessment Task (PAT)

The Department of Basic Education issues a Practical Assessment Task for Grade 12 every year. The practical assessment tasks for Grade 12 will be assessed by the teacher and will be externally moderated by the provincial subject specialists. The date for the external moderation will be decided by the province in which the school is situated. The provincial education departments or schools may not change the prescribed task or use the task of the previous year. provision of the resources for the Practical Assessment Task is the responsibility of the school and schools should ensure that adequate time and funding is allocated for the completion of the Practical Assessment Task.

4.6.1 Examination Weighting in Automotive

The following table shows the weighting of topics in Mechanical Technology: **Automotive**

Question	Topic	Marks +/- 4
	GENERIC	
1	Multiple-choice questions	6
2	Safety	10
3	Materials	14
	SPECIFIC	
4	Multiple Choice	14
5	Tools and Equipment	23
6	Engines	28
7	Forces	32
8	Maintenance	23
9	Systems and Control (Automatic Gearbox)	18
10	Systems and Control (Axles, Steering Geometry and Electronics)	32
	Total	200

4.6.2 Examination Weighting in Mechanical Technology: Fitting and Machining

The following table shows the weighting of topics in Mechanical Technology: Fitting and Machining

Question	Topic	Marks +/- 4
	GENERIC	
1	Multiple-choice questions	6
2	Safety	10
3	Materials	14
	SPECIFIC	
4	Multiple-choice questions	14
5	Terminology (Lathe and Milling Machine)	18
6	Terminology (Indexing)	28
7	Tools and Equipment	13
8	Forces	33
9	Maintenance	18
10	Joining Methods	18
	Systems and Control (Drive Systems)	28
Total		200

4.6.3 Examination Weighting in Welding and Metalwork

The following table shows the weighting of topics in Mechanical Technology **Welding and Metalwork**

Question	Topic	Marks +/- 4
	GENERIC	
1	Multiple-choice questions	6
2	Safety	10
3	Materials	14
	SPECIFIC	
4	Multiple-choice questions	14
5	Terminology (Templates)	23
6	Tools and Equipment	18
7	Forces Joining Methods (Inspection of Weld) Joining Methods (Stresses and Distortion) Maintenance	45
8	Joining Methods (Inspection of Weld) Joining Methods (Stresses and Distortion) Maintenance	23
9	Joining Methods (Stresses and Distortion)	18
10	Maintenance	8
11	Terminology (Developments)	21
	Total	200 Marks

23. Physical Sciences

SECTION 4: ASSESSMENT IN GRADE 12 PHYSICAL SCIENCES

4.1. FORMAL ASSESSMENT

All assessment tasks that make up a formal programme of assessment for the year are regarded as Formal Assessment. Formal assessment tasks are marked and formally recorded by the teacher for progression and certification purposes. All Formal Assessment tasks are subject to moderation for the purpose of quality assurance and to ensure that appropriate standards are maintained.

Formal assessment provides teachers with a systematic way of evaluating how well learners are progressing in a grade and in a subject. Examples of formal assessments include tests, examinations, practical tasks, projects, oral presentations, demonstrations, performances, etc. Formal assessment tasks form part of a year-long formal Programme of Assessment in each grade and subject.

4.1.1. Control tests & examinations in Grade 12

Control tests and examinations are written under controlled conditions within a specified period of time. Control Tests should be comprised of ONE paper and Examinations should comprise of TWO papers. Control tests should cover the content for the whole term as well as content from grades 10 and 11 that is examinable in grade 12, as given in Table 6. The June examination should cover the content for terms one and two as well as content from grades 10 and 11 that is examinable in grade 12, as given in Table 6. Questions in tests and examinations should assess performance at different cognitive levels with an emphasis on process skills, critical thinking, scientific reasoning and strategies to investigate and solve problems in a variety of scientific, technological, environmental and everyday contexts. Examination papers and control tests in Physical Sciences Grade 12 should adhere to the weighting of cognitive levels given in Table 1. See **APPENDIX 1** in the Physical Sciences Curriculum Policy and Assessment Statement for a detailed description of the cognitive levels.

Table 1: Prescribed weighting of cognitive levels for examinations and control tests

COGNITIVE LEVEL	DESCRIPTION	PAPER 1 (PHYSICS)	PAPER 2 (CHEMISTRY)
1	Remembering	15 %	15 %
2	Understanding	35 %	40 %
3	Applying, Analysing	40 %	35 %
4	Evaluating, Creating	10 %	10 %

4.1.2. Content for Control Tests and Examinations in Grade 12

Table 2: Content for control tests and examinations for Grade 12

Grade	Assessment Item	Content covered	Term
12	Control test 1 1 Paper 2 hour duration	<ul style="list-style-type: none"> All Grade 12 content covered in Term 1; and The province should select some topics from Table 6: Examinable Topics from Grades 10 & 11 in Grade 12, given below. 	1
	Mid-year Examination 2 Papers Each paper of 3 hour duration	<ul style="list-style-type: none"> All Grade 12 content covered in Terms 1 and 2; and Grade 11 Physics Topics: <ul style="list-style-type: none"> ➤ Newton's Laws (Newton 1, 2, 3 and Newton's Law of Universal Gravitation) and Application of Newton's Laws. ➤ Electrostatics (Coulomb's Law and Electric field) ➤ Electric circuits (Ohm's Law, Power and Energy); and Grades 10 and 11 Chemistry Topics: <ul style="list-style-type: none"> ➤ Representing chemical change (grade 10) ➤ Intermolecular forces (grade 11) ➤ Stoichiometry (grade 11) ➤ Energy and Change (grade 11) 	2
12	Preparatory Examination 2 Papers Each paper of 3 hour duration	<ul style="list-style-type: none"> All Grade 12 content, concepts and skills as prescribed in the CAPS for terms 1- 3; Grade 11 Physics Topics: <ul style="list-style-type: none"> ➤ Newton's Laws (Newton 1, 2, 3 and Newton's Law of Universal Gravitation) and Application of Newton's Laws. ➤ Electrostatics (Coulomb's Law and Electric field) ➤ Electric circuits (Ohm's Law, Power and Energy); and Grades 10 and 11 Chemistry Topics: <ul style="list-style-type: none"> ➤ Representing chemical change (grade 10) ➤ Intermolecular forces (grade 11) ➤ Stoichiometry (grade 11) ➤ Energy and Change (grade 11) 	3
12	Final Examination	<ul style="list-style-type: none"> All Grade 12 content, concepts and skills as prescribed in the CAPS for terms 1- 4; and Grade 11 Physics Topics: <ul style="list-style-type: none"> ➤ Newton's Laws (Newton 1, 2, 3 and Newton's Law of Universal Gravitation) and Application of Newton's Laws. ➤ Electrostatics (Coulomb's Law and Electric field) ➤ Electric circuits (Ohm's Law, Power and Energy); and Grades 10 and 11 Chemistry Topics: <ul style="list-style-type: none"> ➤ Representing chemical change (grade 10) ➤ Intermolecular forces (grade 11) ➤ Stoichiometry (grade 11) ➤ Energy and Change (grade 11) 	4

4.1.3. Practical investigations & experiments

Practical investigations and experiments should focus on the practical aspects and the process skills required for scientific inquiry and problem solving. Assessment activities should be designed so that learners are assessed on their use of scientific inquiry skills, like planning, observing and gathering information, comprehending, synthesising, generalising, hypothesising and communicating results and conclusions. Practical investigations should assess performance at different cognitive levels and focus on process skills, critical thinking, scientific reasoning and strategies to investigate and solve problems in a variety of scientific, technological, environmental and everyday contexts.

For the purposes of this curriculum the difference between a practical investigation and an experiment is that an experiment is conducted to verify or test a known theory whereas an investigation is an activity that is conducted to test a hypothesis i.e. the result or outcome is not known beforehand.

4.2. REQUIREMENTS FOR GRADE 12 PRACTICAL WORK

In grade 12 learners will do TWO experiments for formal assessment (ONE Chemistry and ONE Physics experiment), selected from Table 3 given below. One experiment must be done in term 1 and another one in either term 2 or term 3. This gives a total of **TWO formal assessments for practical work** in Physical Sciences in Grade 12.

Irrespective of the term in which an experiment is conducted and assessed, all **recording** of marks for practical work in the SBA will be done in terms 1 and 3.

The province should select the two formal experiments from Table 3 given below:

Table 3: List of Formal Practical Activities

Grade	Term	Recommended Practical Activities for Physics	Recommended Practical Activities for Chemistry
12	Term1	<ul style="list-style-type: none"> Verify the conservation of linear momentum. Determine the acceleration due to gravity 	<ul style="list-style-type: none"> Prepare a minimum of three esters. Reaction of alkanes and alkenes with bromine and potassium permanganate
	Term 2	<ul style="list-style-type: none"> Perform simple experiments to determine the work done and power expended in walking up (or running up) a flight of stairs. 	<ul style="list-style-type: none"> Determine the unknown concentration of an acid or base by titration against a standard solution Determine factors affecting the rate of a reaction.
	Term 3	<ul style="list-style-type: none"> Electricity: Resistance <p>Part 1 Determine the internal resistance of a battery.</p> <p>Part 2 Set up a series-parallel network with resistors of known resistance. Determine the equivalent resistance using an ammeter and a voltmeter and compare with the theoretical value.</p> <ul style="list-style-type: none"> Series-parallel Networks: <p>Set up a series-parallel network with an ammeter in each branch and external circuit and voltmeters across each resistor, branch and battery, position switches in each branch and external circuit. Use this circuit to investigate short circuits and open circuits.</p>	<ul style="list-style-type: none"> Investigate galvanic and electrolytic cells.
	Term 4		

It is recommended that for informal assessment all learners in Grade 12 should do a minimum of TWO experiments (ONE Chemistry and ONE Physics experiment).

Table 4: Practical work for grades 12

Practical work	Grade 12
Experiments for formal assessment	1 Physics and 1 Chemistry
Project (informal assessment)	NONE
Experiments (informal assessment)	1 Physics and 1 Chemistry
TOTAL	4

The forms of assessment used should be age - and developmental level appropriate. The design of these tasks should cover the content of the subject and include a variety of tasks designed to achieve the objectives of the subject.

4.3. PROGRAMME OF ASSESSMENT

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term.

4.3.1. Programme of formal assessment for grade 12

Assessment consists of two components: a Programme of Assessment which makes up 25% of the total mark for Physical Sciences and an external examination which makes up the remaining 75%. The Programme of Assessment for Physical Sciences comprises five tasks that are internally assessed. Together the Programme of Assessment and external assessment make up the annual assessment plan for Grade 12. Table 5 illustrates the assessment plan and weighting of tasks in the programme of assessment for Physical Sciences Grade 12.

The Programme of Assessment is the School Based Assessment (SBA)

Table 5: Annual Assessment plan and weighting of tasks in the programme of assessment for grade 12

PROGRAMME OF ASSESSMENT FOR GRADE 12						EXTERNAL ASSESSMENT
ASSESSMENT TASKS (25%)						END-OF-YEAR ASSESSMENT (75%)
TERM 1		TERM 2		TERM 3		TERM 4
Type	Weighting and duration	Type	Weighting and duration	Type	Weighting and duration	Final Examination (2 x 150 marks giving a total of 300 marks for papers 1 and 2) 3 hour duration for each of Papers 1and 2
Experiment	15% (Minimum 50 marks and minimum 2 hour duration)	Mid-Year Examination	2 x 150 marks (20%) Paper 1: 150 marks Paper 2: 150 marks 3 hour duration for each of Papers 1 and 2	Experiment	15% (Minimum 50 marks and minimum 2 hour duration)	
Control Test	20% (1 x 100 marks) 2 hours duration 50 marks for Physics topics and 50 marks for Chemistry topics			Preliminary Examination	30% (2 x 150 marks) Paper 1: 150 marks Paper 2: 150 marks 3 hour duration for each of Papers 1 and 2	
Total Weighting: 35%		Total Weighting: 20%		Total Weighting: 45%		
FINAL MARK = 25% (ASSESSMENT TASKS) +75% (FINAL EXAM)=100%						

4.3.2. END-OF-YEAR EXAMINATIONS

4.3.2.1. Grade 12 (external assessment)

The external examinations are set externally, administered at schools under conditions specified in the *National policy on the conduct, administration and management of the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF)* and marked externally.

The core content outlined in the Physical Sciences Curriculum and Assessment Policy (CAPS) document is compulsory and will be examined through Papers 1 and 2. Note that all the topics in the grade 12 curriculum are examinable in the end of year examination plus selected topics from grades 10 and 11. Below is a list of selected content, outlined for Grades 10 and 11 in the CAPS document that is also examinable in the Grade 12 final examination.

Table 6: Examinable Topics from Grades 10 & 11 in Grade 12

Selected Examinable Topics from Grades 10 & 11 in Grade 12	
Physics from grade 11	Chemistry from grades 10 and 11
1. Newton's Laws (Newton 1, 2, 3 and Newton's Law of Universal Gravitation) and Application of Newton's Laws. 2. Electrostatics (Coulomb's Law and Electric field) 3. Electric circuits (Ohm's Law, Power and Energy)	1. Representing chemical change (grade 10) 2. Intermolecular forces (grade 11) 3. Stoichiometry (grade 11) 4. Energy and Change (grade 11)

Multiple-choice questions could be set in examination papers. However, such questions should have a weighting not exceeding 15%. The examination paper may also consist of conceptual type questions.

The final end-of-year examination is nationally set, marked and moderated.

The nationally set, marked and moderated examination will consist of two papers:

- Paper 1: Physics focus (3 hours, 150 marks)
- Paper 2: Chemistry focus (3 hours, 150 marks)
- All of the questions will focus on content as stated in the National Curriculum Statement.
- Questions will reflect the different levels of the Physical Sciences Assessment Taxonomy (APPENDIX 1 of CAPS) appropriate to the paper.

Table 7 shows the weighting of questions across cognitive levels and the specification and suggested weighting of the content for the Grade 12 end-of-year examinations (across the two papers).

Table 7: Weighting of questions across cognitive levels, the specification and suggested weighting of the content for the Grade 12 end-of-year examination

GRADE 12								
Paper	Content	Marks	Total Marks/ Paper	Duration (Hours)	Weighting of Questions Across Cognitive Levels			
					Level 1	Level 2	Level 3	Level 4
PAPER1: PHYSICS FOCUS	Mechanics	63	150	3	15 %	35 %	40 %	10 %
	Waves, Sound & Light	17						
	Electricity & Magnetism	55						
	Matter & Materials	15						
PAPER 2: CHEMISTRY FOCUS	Chemical Change	92	150	3	15 %	40 %	35 %	10 %
	Matter & Materials	58						

4.4. RECORDING AND REPORTING

Recording is a process in which the teacher documents the level of a learner's performance in a specific assessment task. It indicates learner progress towards the achievement of the knowledge and skills as prescribed in the Curriculum and Assessment Policy Statements. Records of learner performance should provide evidence of the learner's conceptual progression within a grade and her / his readiness to progress or be promoted to the next grade. Records of learner performance should also be used to verify the progress made by teachers and learners in the teaching and learning process.

Schools are required to provide quarterly feedback to parents on the Programme of Assessment using a formal reporting tool such as a report card. The schedule and the report card should indicate the overall level of performance of a learner. Schools should use the following weighting for **reporting purposes only** and only in the **first, second and third** terms of Grade12:

	Practical Work	Control test/mid-year exam/trial exam
Weighting	25%	75%

4.4.1. Recording and reporting on the Assessment Tasks and SBA in the Programme of Assessment

Schools are also required to provide quarterly feedback to parents and learners of the marks obtained by learners in the assessment tasks in the SBA as given in table 5. This report should adhere strictly to the weighting of tasks given in table 5 and should use a formal reporting tool.

4.4.2. Recording and reporting at the end of the academic year

The **weighting** of tasks in the **Programme of Assessment** must be strictly adhered to when calculating the **FINAL MARK** of the learner for promotion purposes in Grade 12, at the end of the academic year.

4.5. MODERATION OF ASSESSMENT

Moderation refers to the process that ensures that the assessment tasks are fair, valid and reliable. Moderation should be implemented at school, district, provincial and national levels. Comprehensive and appropriate moderation practices must be in place for the quality assurance of all subject assessments.

All Grade 12 tasks should be internally and externally moderated. The subject head or departmental head for Physical Sciences at the school will generally manage this process in collaboration with the relevant stake holders.

A 10% sample of learners' portfolios will be moderated for schools that have more than 50 learners in the grade. If the number of learners is less than 50 a sample of 5 portfolios will be moderated.

Moderation of a term's formal experiment can be done as early as in the following term, i.e. experiment 1 can be moderated at the beginning of the second term.

The moderation of the practical work (formal experiments) which is part of the SBA, should be onsite (face-to-face moderation). This onsite moderation should include the following process:

- During onsite (face-to-face) moderation learners may be selected at random to demonstrate the different skills developed while conducting the experiments.
- During onsite moderation a random sample of learners may be selected and asked to conduct the formal experiments and to answer questions based on them.
- Learners may not request or obtain assistance from other learners during moderation.
- The school must ensure that all apparatus for these experiments are available and in working condition at school during moderation.
- Upon completion of the moderation process the moderator will, if necessary, adjust marks of the entire group upwards or downwards.
- Normal examination protocols for appeals will be adhered to.

24. Religion Studies

Religion Studies Grade 12

Formal assessment

In Grade 12, **FIVE TASKS** are internally set and assessed and make up 25% of the total mark for Religion Studies. The **SIXTH TASK** is the external examination which is externally set and moderated and makes up the remaining 75%.

Programme of assessment

The programme of assessment is designed to spread formal assessment tasks in all subjects in a school throughout the school year.

The weighting of marks for the five internal formal assessment tasks for Grade 12 for Religion Studies is as follows:

Grade 12

Term 1	Term 2	Term 3	Term 4
Task 1 Written Task : 100 marks Task 2 Test: 100 marks	Task 3 Mid-year examination: 300 marks	Task 4 Project: 100 marks Task 5 Trial examination: 300 marks	Task 6 External examination: 300 marks

GRADE 12: MID-YEAR AND END-OF-YEAR EXAMINATIONS

Paper: one

Time: 2 hours

Mark allocation: 150

GRADE 12 PAPER ONE : TOPICS TO BE COVERED		
1.	Variety of religions	<ul style="list-style-type: none">• Conceptual distinctions• Unique features of various religions• History and present dynamics of inter-religious relationships
2.	Common features of religion	<ul style="list-style-type: none">• Religious teachings
3.	Topical issues in society	<ul style="list-style-type: none">• Role of media in influencing public opinion on religion• Religious freedom, human rights and responsibilities
4.	Research into and across religions	

Paper ONE is divided into Section A and Section B

A learner will be required to answer THREE questions: One compulsory (Section A) and a choice of two out of three questions or four questions of 50 mark each (Section B).

Section A is Compulsory (50 Marks)

The questions have to be a combination of two or more types of questions ranging from:

- Multiple choice
- Fill in the blanks
- True or false with reasons
- Matching columns
- One-word answers
- It may also include questions that require short explanations, definitions or brief descriptions

Section B: Choose Two out of Three or Four Questions (50x2 =100)

Learners will answer a scenario-based, source-based, case study or short open-ended questions. Answers will range from short responses to paragraphs. A short text/diagram/data/graphs/ may be provided as a stimulus. The mid-year and trial examinations in Grade 12 will be similar to the external examinations. The examination guidelines will provide details of the social problems that will be addressed in Grade 12 for a particular year.

GRADE 12: MID-YEAR AND END-OF-YEAR EXAMINATIONS

Paper: two

Time: 2 hours

Mark allocation: 150 marks

GRADE 12 PAPER TWO: TOPICS TO BE COVERED		
1.	Variety of religions	<ul style="list-style-type: none">Internal differences within religionsMain features of such differentiations
2.	Common features of religion as a generic and unique phenomenon	<ul style="list-style-type: none">The central teachings in one religionNormative sources in various religionsInterpreting one normative sourceAnalysis of secular worldviewsThe origin, purpose and influencing factors behind at least two worldviews
3.	Topical issues in society	<ul style="list-style-type: none">Developing a strategy to solve a major social problem
4.	Research into and across religions	<ul style="list-style-type: none">Religion in areas of conflict in South Africa, Africa and the worldReligion and the natural sciences

Three Focused Extended Writing Questions (Choice of Three out of Four to Five Questions): 50 Marks Each

- Questions will focus on analysing and interpreting generic issues pertaining to religions.
- Learners are expected to present a position on an issue/or issues from a specific **religious perspective** and to argue/critique this position.
- A source may be included to act as a stimulus.

TESTS

Test: Grade 12

Time: 1 hour and 30 minutes

Mark allocation: 100 marks

SECTION A:

Compulsory (30 marks)

The questions have to be a combination of two or more types of questions ranging from:

- Multiple choice
- Fill in the blanks
- True or false with reasons
- Matching columns
- One-word answers
- It may also include questions that require short explanations, definitions or brief descriptions

SECTION B:

Learners will answer a short source-based questions (30 marks) and an extended writing (40 marks)

Grade 12

When recording and reporting on learner performance in Religion Studies, the following marks are applicable per term.

Term	Assessment task	Mark per term		Year %
		Recording	Reporting	
1	Written task	100		900/9 = 100 (SBA)
	Test	100		
		200/2	100	
2	Mid-year examinations	300		
		300/3	100	
3	Project	100		
	Trial examination	300		
		400/4	100	
4	SBA	100		25%
	External examination	300		75%
	Total for end of year	400		100%

The SBA is calculated by adding the marks for tasks 1 to 5 which gives a total of 900. 900 is divided by 9 to arrive at 100 for the SBA mark.

A list of verbs for the different cognitive levels

L1 and L 2		L3 and L 4		L5 and L 6	
Remembering	Understanding	Applying	Analysing	Evaluating	Creating
Exhibit memory of previously learned material by recalling facts, basic concepts; and answers.	Demonstrate understanding of facts and ideas by: organising, comparing, translating, interpreting, giving descriptions and stating main ideas.	Solve problems to new situations by applying acquired knowledge, facts techniques and rules in a different way.	Examine and break information into parts by identifying reasons or causes. Make inference and find evidence to support generalisations.	Present and defend opinions by making judgements about information, validity of ideas or quality of work based on a set of criteria	Compile information together in a different way by combining elements in a new pattern or proposing an alternative solution
Choose Define Find How List Match Name Relate Select What When Where Which Who Why	Classify Compare Contrast Explain Illustrate Outline Summarise Infer Relate Show Demonstrate	Apply Choose Develop Identify Interview Construct Report Change Conclude Demonstrate Discuss Explain Illustrate Interpret Report Review Summarise Tell Prepare Show	Analyse Assume Categorise Classify Compare Contrast Conclude Distinguish Examine Infer	Apply Appraise Assess Compare Conclude Consider Criticise Decide Defend Determine Evaluate Explain Interpret Judge Justify Recommend Support Argue	Change Choose Combine Compile Compose Construct Create Develop Elaborate Imagine Improve Plan Predict Propose Solve Suppose Produce

Project

The **project** will be a piece of work in which learners will demonstrate knowledge, skills, values and competencies in a specific or integrated content. The project requires extended reading and writing on the part of the learner. Learners should be given the necessary guidance prior to commencement of the project and their progress must be monitored throughout. The objective for the project should be clear and thorough planning should take place, e.g. preparing the questions for an interview.

Although learners will spend time outside of contact time to collect resources and information, the completion of the task has to be facilitated by the teacher in class time. The topic and nature of the project will be determined by the content covered according to the annual teaching plan.

In Grade 12, learners should be given the project before the end of the second term, for submission during the third term.

All assessment criteria applicable to the project has to be discussed with the learners prior to the commencement of the project

Example of focus areas for a project: (contextual factors should be taken into account)

- Grade 12 - research into the interpretation of sacred text. (hermeneutical principles in your area of Specialisation)

When preparing a project consider these minimum requirements

- Choose a relevant topic
- The project will involve thorough investigation on the **selected topic/s**
- Thorough planning should take place
 - Brainstorm the topic (remember audience and purpose).

- Draw a mind map outlining the project.
- Motivation for selection of problem: the purpose/reasons for the topic should be clear
- The project could take the form of interviews, surveys, observations etc.
- Conduct research on the chosen topic: causes, effects, impact, etc.
- Analyse and organise the data/ information collected
- Present findings in a structured manner, this will be in the form of an essay with sub-headings.
- Learners can supplement their project with the following:
 - Compiling brochures
 - Writing newspaper/ magazine articles, advertisements
 - Pictures, photos
 - Making videos
 - Drawing / taking / selecting relevant pictures
 - Preparing a presentation or a wall chart
- Provide a conclusion and/ or recommendations/ suggestions / solutions / advice / practical strategies
- Reflection: how did the research/participation affect their thinking, attitude and behaviour regarding the issue researched
- Include a bibliography where the titles of books, articles, websites and the other sources of information consulted are listed
- The project must have a cover page and table of contents
- The project should be bound or stapled

NB: A marking memorandum, guideline, criteria checklist or rubric can be used to assess learner performance. Provision must be made for additional answers as well as the learners' own interpretation of the questions. Constructive feedback should be provided to learners upon completion of assessment.

Written Tasks

Written tasks could range from research assignment, enrichment assignment, investigation, extended writing (essay), source-based tasks, case studies etc.

Research assignment

The task requires the learner to complete an assignment based on research and involving the process of enquiry. A key question is needed with a topic relating to a specific religious issue. The assignment must show evidence of planning and demonstrate that information (evidence) gained through research was used to construct an argument, make an interpretation and reach a conclusion based on the key question. Ideally, learners will demonstrate their ability to formulate a question for research and to identify, select and access sources relevant to the assignment.

Learners will need to be guided in formulating a question for their research assignment and in locating the information sources available to them to research their chosen topic.

Enrichment assignment

An enrichment assignment is a creative, original, new, fresh way of presenting investigations into religions or research work that cannot be categorised as a traditional or conventional research assignment. The assignment will follow all the steps of the research assignment, with the difference that the ultimate presentation of the investigation or research will have creative elements, for example documentaries, videos, biographies, multimedia presentations, posters, history of religions, investigation of rituals, symbols and related values, texts, commentaries and local traditions. This type of assignment accommodates different learning styles.

Investigation

This task involves problem-solving linked to current or contemporary issues in interpretation and representation of a religion/or religions. Learners will be asked to present plans for addressing misinterpretations across the globe

and misrepresentations in a community; or more straightforward investigations into community symbols and rituals associated with a religion/ or religions. This will be linked to knowledge about religious sites, religious celebrations and religious holidays. The main idea is to broaden learners' understanding of the religion/or religions and how these are interpreted and represented in society and the world at large. Learners must access information from a variety of sources when carrying out an investigation.

Extended writing (essay)

The task will include extended writing and should be in the form of an essay with sub-headings relating to the criteria. A key question is required with a topic relating to a specific religious issue. Questions will be based directly on sources and require learners to use their own knowledge and new knowledge gained from the Religion Studies classroom to analyse and interpret the source provided in answering the key question. Learners will examine one or more sources for interpretive, evaluative and comparative reasons. Topics must address the content covered according to the annual teaching plan.

There must be a clear introduction, body and conclusion.

NB. A memorandum and a guideline for marking that suits each of the tasks above must be used to assess learner performance in a given task. The nature of the task and the knowledge, skills and values that are to be assessed will provide guidance on the type of marking memorandum. The marking memorandum or guideline must make provision for the learner's own interpretation of the questions.

Source-based tasks

Learners are presented with a longer source from a particular book/newspaper/magazine, etc. that requires in-depth reading. Learners should digest the information and then respond to application questions based on informed decision-making and problem-solving. They may be expected to interpret quotations from the source, to analyse comments and possibly make suggestions.

Case studies

Learners are presented with a real-life situation, a current problem or an incident relating to a topic in the curriculum. They are expected to assume a particular role in articulating the position, and respond to particular questions from various cognitive orders. They should draw on their own experience, the experience of peers or prior learning to interpret, analyse, give advice and/or solve the problem(s) based on informed decision-making.

Example of a case study: Use a newspaper report on a current issue related to the Religion Studies curriculum. Newspaper articles, magazine articles, and TV or radio presentations form excellent case studies.

Learners have to read and/or listen, digest the information and then make informed decisions. Questions can range from lower order - direct quotes from the article - to higher order when they are asked to analyse comments and possibly make suggestions.

Case studies are a very good way of keeping the subject up to date and relevant.

GLOSSARY

CONCEPT	DEFINITION
Adaptation	Acclimatisation to a situation
Adherent	Someone who belongs / follows a particular religion
African Traditional Religion	A religious belief system indigenous to Africa
Agnosticism	The view that there is insufficient information for the existence or non- existence of God

CONCEPT	DEFINITION
Altar	Flat topped stone / surface used in religious ceremonies
Anthropologist	Person who studies humankind and cultures through history
Archaeology	A study of proofs of the way people lived , from very old ruins, human and animal bones
Atheism	A belief system that there is no God
Buddhism	The teachings of Siddhartha Gautama about enlightenment
Census	A system of counting citizens of a country
Cluster	Belonging to the same group
Colonialism	A system of one country dominating another country.
Comparability	Juxtaposing two ideas / things. Identifying similarities and differences.
Conform	Fit to a standard
Contemporary	Something recent
Demographical data	Statistical data related to the population and particular groups within it.
Dynamics	Expected / unexpected happenings
Ecumenism	Are those activities aimed at finding unity and cooperation between Christian denominations
Elements	Essential parts that make a whole
Ethics	Moral principles that govern a person's behaviour or the conducting of an activity
Evolution	A process of development /growth; progression to a higher stage
Expounded	Presented and explained theory or idea in detail
Governance	Action/way of governing and controlling
Halaal	Permissible in Islamic law
Harmony	A state of being in agreement. Peace / serenity
Humanism	A way of thinking that focuses on human relationships with one another and the environment. Humanists do not include God, a supreme being or other gods in their thinking.
Humanity	An expectation of how human behaviour should be
Hunter- gatherer	An economy of hunting and gathering food together
Ideology	A way of thinking relating to a group or individuals.
Impact	After effects/ consequences
Impartiality	Decisions are made based on objective criteria and not on the basis of any prejudice or bias.
Imperialism	A policy of extending a country's power and influence using military force or other means
Inter- religious dialogue	Interactive agreement between / among religions
Liberation	A system of setting free
Manifestation	A sign or a(human) form of something abstract (God)/ demonstration
Meditation	A deep thinking and communication to a deity / God
Monarchy	A kingdom / state led by a king / queen
Monotheism	Belief in one God
Mutual	Working / winning together
Mysticism	A state of seeking a deep relationship with the divine
Narrative	Story
Normative tradition	An exercise of doing things according to agreed standards

CONCEPT	DEFINITION
Nun	A female devotee in the Roman Catholic Church
Objectivity	Not taking a side / part (not favouring any religion)
Oligarchy	Power concentrated in a few persons
Opinion	How one believes/sees or is convinced about a thought/life
Pantheism	A belief that all is God and that God is in everything
Pastor	A leader in a religion
Pattern	A constructive strand of design repeated for decoration or reinforcement
Perspective	An agreed way of presenting
Philosophy	The way of thinking
Politics	Activities aimed at increasing someone's status or increasing power within an organisation
Polytheism	A belief in many gods
Practices	Ways of doing things
Priest	A leader of a spiritual congregation
Principles	Fundamental truth
Prophet	The agent of prediction, often based on messages from God.
Proselytisation	Preaching / evangelising and even forcing others to convert
Protocol	Rules about appropriate behaviour and dress
Pundit	A leader who has studied Hindu scriptures
Quran	Holy book of Islam
Rabbi	Religious leader of the Jewish faith
Revitalisation	A system of giving a new shape / life
Rituals	Agreed upon religious practices
Sacred	Holy
Sikhism	The religion that originated in the Punjab region of the Indian sub-continent about the end of the 15 th century
Subjectivity	Looking at something from your own point of view as an insider
Surveys	To get right measurement
Synagogue	Place of worship for Jews
Syncretism	When one religion incorporates the teachings, beliefs or practices of another religion
Tenach	Holy writings of Judaism
Taoism	A religion that originated in China
Theocracy	The leadership of God to the people
Transformation	A process of accepting new ways of doing things
Ubuntu	African ethic which respect and care for others
Vedas	Texts which originated in India (Hinduism)
Worship	The feeling or expression of reverence and adoration to a deity or God
Xenophobia	Irrational fear, intolerance and hatred of foreigners
Yiddish	Language developed from German and Hebrew

25. Second Additional Languages

Note: Refer to Section 4 of the CAPS

4.4 Programme of Assessment

The Programme of Assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term.

4.4.1 Overview of requirements

The following tables provide an overview of the Programme of Assessment requirements for each term for Second Additional Languages:

Table 3: Overview of the Programme of Assessment requirements Grade 12

Programme of assessment			External examination
Tasks per term			
Term 1: 2 Tasks + 1 Written Test	Term 2: 2 Tasks + Mid-year examination comprising 2 Papers: Paper 1 – Language in Context (80) – 2 hrs Paper 2: Literature (40) – 1,5 hrs	Term 3: 2 Tasks Trial examination comprising 3 Papers: Paper 1 – Language in Context (80) – 2 hrs Paper 2: Literature (40) – 1,5 hrs Paper 3 – Writing (80) – 2,5 hrs (Can be written in August or September)	Term 4: 1 External Examination comprising 3 Papers: Paper 1 – Paper 1 – Language in Context (80) – 2 hrs Paper 2: Literature (40) – 1,5 hrs Paper 3 – Writing (80) – 2,5 hrs Paper 4 – Oral (100)
Term mark (Terms 1 – 3): <ul style="list-style-type: none">Each term, add totals and convert to % for term mark. SBA mark: <ul style="list-style-type: none">Add totals for tasks from term 1 to term 3, excluding oral marks, and convert to 25% External examination <ul style="list-style-type: none">Convert Paper 1 to 20%,Convert Paper 2 to 10%,Convert Paper 3 to 20%,Add totals for orals tasks throughout the year and convert to 25% (Paper 4).			

Table 4: Programme of Assessment Grade 12

Programme of Assessment		
Formal assessment tasks in Term 1		
Task 1	Task 2	Task 3
*Oral: (25 marks) Conversation	*Oral: (25 marks) Listening comprehension	**Test: (40 marks) Language in context: Comprehension Summary Language structures and conventions
Formal assessment tasks in Term 2		
Task 4	Task 5	Task 6
*Oral: (25 marks) Prepared speech	Literature: (40 marks) Literature Contextual questions	Mid-year examinations: (120 marks) Paper 1 – Language in context (80 marks) – 2 hrs Paper 2: Literature (40 marks) – 1,5 hrs
Formal assessment tasks in Term 3		
Task 7	Task 8	Task 9
*Oral: (25 marks) Prepared reading aloud	Writing: (40 marks) Narrative/ Descriptive essay	Trial examinations: (200 marks) Paper 1 – Language in context (80) – 2 hrs Paper 2: Literature (40) - 1,5 hrs Paper 3 – Writing (80) (Can be written in August/ September) – 2,5 hrs
Evidence must be available of informal assessment of writing activities: essays, longer and shorter transactional texts in each term according to the requirements of the Teaching Plans.		

***Orals:** Learners should do one prepared speech task, one conversation task, one listening task, and one prepared reading aloud task during the year.

****Test** could be set out of **40 marks** or, if more, should be **converted to 40 marks**. While the *Comprehension, Summary, Language structures and conventions in context* combination is suggested, teachers are urged to design a combination of aspects that fits the character (test programme, time allocation, etc.) of the school.

Note: A test in the Programme of Assessment should not be made up of several smaller tests. Each test should cover a substantial amount of content, should be set for 45-60 minutes, and should reflect the different cognitive levels as set out for exam papers.

26. Technical Mathematics

Programme of Assessment

The programme of assessment in Technical Mathematics has not changed except that **formula sheet** MUST be provided for tests and final examinations in Grades 10, 11 and 12.

- All learners in grades 10-12 should be provided with formula sheet similar to the one given in Grade 12 for all examinations.
- Assignments are generally extended pieces of work completed individually at school under control supervision with access to resources.
- At most one project or investigation should be administered in a year.
- It is compulsory to administer one assignment in each grade (10-12). The option of offering an assignment or a test in grades 10 - 12 is discontinued. All 7 tasks should be administered as indicated in the table below.
- The table below also reflects the new the weightings for assignment and project or investigation.

Learners are expected to have seven (7) formal assessment tasks for their school-based assessment. The number of tasks and their weighting are listed below:

		GRADE 10		GRADE 11		GRADE 12	
		TASKS	WEIGHT (%)	TASKS	WEIGHT (%)	TASKS	WEIGHT (%)
School-based Assessment	Term 1	Test Project / Investigation	10 15	Test Project/ Investigation	10 15	Test Project / Investigation Assignment	10 15 15
	Term 2	Assignment Mid-year Examination	10 30	Assignment Mid-year Examination	10 30	Test Mid-year Examination	10 15
	Term 3	Test Test	10 10	Test Test	10 10	Test Trial Examination	10 25
	Term 4	Test	10	Test	10		
School-based Assessment mark			100		100		100
School-based Assessment mark (as % of promotion mark)			25%		25%		25%
End-of-year examinations			75%		75%		
Promotion mark			100%		100%		

Note:

- Investigation/project should be done in term **ONE**. Only **ONE** project/investigation should be set per year.
- Tests should be at least ONE hour long and count at least 50 marks.
- For purposes of term reporting, the project or investigation must contribute 25% of term 1 marks while the test marks contribute 75% of the term 1 marks in grades 10 and 11. The combination (25% and 75%) of the marks must appear in the learner's report. For grade 12, project/investigation must contribute 15%, assignment 10% and test 75%. In term 2, test must contribute 25% and mid-year examination 75%.
- No calculators with programmable functions, facilities or symbolic facilities (for example, to factorise $a^2 - b^2 = (a - b)(a + b)$, or to find roots of equations) will be allowed. Calculators should only be used to perform standard numerical computations and to verify calculations by hand.

27. Technical Sciences

4. ASSESSMENT

4.1 Introduction

Assessment is a continuous planned process of identifying, gathering and interpreting information about the performance of learners, using various forms of assessment. It involves four steps: generating and collecting evidence of achievement; evaluating this evidence; recording the findings; and using this information to understand and thereby assist the learners' development to improve the process of learning and teaching.

Assessment should be both informal (Assessment for Learning) and formal (Assessment of Learning). In both cases regular feedback should be provided to learners to enhance the learning experience. Assessment is a process that measures individual learner's attainment of knowledge (content, concepts and skills) in a subject by collecting, analysing and interpreting the data and information obtained from this process to:

- enable the teacher to make reliable judgements about a learner's progress
- inform learners about their strengths, weaknesses and progress
- assist teachers, parents and other stakeholders in making decisions about the learning process and the progress of the learners.

Assessment should be mapped against the content, concepts and skills, and the aims specified for Technical Sciences, and in both informal and formal assessments it is important to ensure that in the course of a school year:

- all the subject content is covered
- the full range of skills is included
- a variety of different forms of assessment are used.

4.2 Informal or daily assessment

Assessment for learning has the purpose of continuously collecting information on a learner's achievements that can be used to improve their learning.

Informal assessment is a daily monitoring of learners' progress. This is done through observations, discussions, practical demonstrations, learner-teacher conferences, informal classroom interactions, etc. Informal assessment may be as simple as stopping during the lesson to observe learners or to discuss with learners how learning is progressing. Informal assessment should be used to provide feedback to the learners and to inform planning for teaching but need not be recorded. It should not be separate from learning activities taking place in the classroom. Learners or teachers can mark these assessment tasks.

Informal, on-going assessments should be used to structure the acquisition of knowledge and skills and should be precursors to formal tasks in the Programme of Assessment (POA).

4.3 Formal assessment

FORMAL assessment consists of SBA, PAT and the Final Examination. All assessment tasks that make up the formal Programme of Assessment for the year are regarded as Formal Assessment. Examples of formal assessments include control tests, examinations and Practical Assessment Tasks (PAT). Formal assessment tasks are marked and formally recorded by the teacher for progression and certification purposes. All Formal Assessment tasks are subject to moderation for quality assurance and to ensure that appropriate standards are maintained.

4.3.1. Formal Assessment for Grade 12

THREE experiments are done per year. These experiments constitute the Practical Assessment Task (PAT). One experiment is conducted per term for each of terms 1, 2 and 3.

ONE control test, ONE midyear examination, ONE trial examination and ONE final examination are conducted as formal assessment, assessed and recorded for Grade 12.

Formal Assessment Grade 12		
SBA: 25%	PAT: 25%	FINAL EXAMINATION: 50%
<ul style="list-style-type: none"> 1 control test (one paper) Midyear examination (two papers) Preparatory examination (two papers) 	THREE experiments	Two papers

TABLE 1

4.3.2 Control tests & examinations for Grade 12

Control tests and examinations should be set using an analysis grid to ensure fair distribution of cognitive levels. Control tests and examinations are written under controlled conditions within a specified period. Questions in tests and examinations should assess performance at different cognitive levels with an emphasis on process skills, critical thinking, scientific reasoning and strategies to investigate and solve problems in a variety of scientific, technological, environmental and everyday contexts.

4.3.2.1. Marks and time allocation for the control test

A **single** control test should be administered in one sitting and under controlled conditions. The control test will consist of one paper ONLY.

Table 2: Mark allocation and Duration of control tests

Grade	Minimum Marks	Duration
12	75	1 hour

4.3.3.2. Structure of the Examinations

The question paper could comprise of multiple choice, matching-columns and structured questions. However, multiple choice and matching-columns questions should have a maximum weighting of 10% each. It is not compulsory for a paper to have both multiple choice and matching-column questions, but it should have at least one of them together with structured questions.

4.3.3.3 Content for control tests and examinations for grade 12

Table 3: Content for control tests and examinations for grade 12

Grade	Assessment Item	Content covered	Term
12	Control test 1	Newton's laws of motion Momentum Work, energy and power Elasticity	1
	Mid-year Examination	Newton's laws of motion Momentum Work, energy and power Elasticity Viscosity Hydraulics Electronic properties of matter Organic chemistry Light Electromagnetic radiation	2
12	Preparatory Examination	All content, concepts and skills as prescribed in the CAPS for terms 1- 3	3
12	Final Examination	All content, concepts and skills as prescribed in the CAPS for terms 1- 4.	4

4.3.4 Mid-year and Preparatory examinations

The Mid-year and Preparatory examinations will each consist of TWO papers and will be internally set, marked and moderated, unless otherwise instructed by provincial or national departments of education. The question paper could comprise of multiple choice, matching-columns and structured questions. However, multiple choice questions and matching-columns questions should have a maximum weighting of 10% each. It is not compulsory for a paper to have both multiple choice and matching-column questions, but it should have at least one of them together with structured questions. Mid-year examination papers should consist of term 1 and term 2 content, concepts and skills and the preparatory examination for grade 12 should consist of all content, concepts and skills as prescribed in the CAPS for terms 1- 3.

4.3.5 End-of-year examinations

Grade 12 Final Examination (external assessment)

The external examinations are set externally, administered at schools under conditions specified in the *National policy on the conduct, administration and management of the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF)* and marked externally.

The core content outlined in the Technical Sciences Curriculum and Assessment Policy Statement (CAPS) is compulsory and will be examined in TWO papers. Note that all the topics in the Grade 12 curriculum as stated in the Technical Sciences CAPS are examinable at the end of year examination. The question paper could comprise of multiple choice questions (maximum weighting 14%), matching-columns (maximum weighting 5%), one-word answer (maximum weighting 5%) and structured questions. The final end-of-year examination is nationally set, marked and moderated. All the questions will focus on content as stated in the National Curriculum Statement.

Table 4: Marks and duration for examination papers in Grade 12

Grade 12	Examination	Maximum marks	Duration
	Mid-year examination		
	Paper 1	150	3 hours
	Paper 2	80	1.5 hours
	Preparatory examination		
	Paper 1	150	3 hours
	Paper 2	80	1.5 hours
	Final examination		
	Paper 1	150	3 hours
	Paper 2	80	1.5 hours

Table 5: Weighting of topics for final and preparatory (trial) examination papers in grade 12

Grade	Content	% Combined Weighting Overall (% weighting in P1+P2)	% Weighting in Paper 1	% Weighting in Paper 2
12	Mechanics	40.43	62	----
	Electricity and Magnetism	14.35	22	----
	Matter and materials	10.43	----	62
	Chemical change	21.73	----	38
	Waves, Sound and Light	13.04	16	----

4.4 COGNITIVE LEVELS

All assessment tasks should comply with the cognitive levels in Table 6.

Table 6: Weighting and description of cognitive levels

Cognitive levels	Description	% Weighting for paper 1	% Weighting for paper 2
1	Remembering	25	30
2	Understanding	30	35
3	Analysing and applying	40	30
4	Creating and Evaluating	5	5

4.5 PRACTICAL INVESTIGATIONS/ EXPERIMENTS

Practical investigations/ experiments should focus on the practical aspects and the process skills required for scientific inquiry and problem solving. Assessment activities should be designed so that learners are assessed on their use of scientific inquiry skills, like planning, observing and gathering information, comprehending, synthesising, generalising, hypothesising and communicating results and conclusions. Practical investigations should assess performance at different cognitive levels and focus on process skills, critical thinking, scientific reasoning and strategies to investigate and solve problems in a variety of scientific, technological, environmental and everyday contexts.

The difference between a practical investigation and an experiment is that an experiment is conducted to verify or test a known theory, whereas an investigation is an activity that is conducted to test a hypothesis, i.e. the result or outcome is not known beforehand.

4.6 Practical Assessment Task (PAT)

4.6.1. Requirements for PAT

The requirements for the Practical Assessment Task (PAT) are as follows:

- PAT accounts for the skills the learner has mastered;
- PAT accounts for 25% of the learner's final examination mark;
- The PAT in grade 12 will consist of 3 experiments;
- The PAT must be conducted under controlled conditions;
- The PAT will assess a range of skills that are relevant for the study of Technical Sciences. Some examples of these skills are classifying, assembling equipment; observing, troubleshooting; communicating, measuring, designing an investigation, conducting an experiment, drawing and evaluating conclusions, formulating models, hypothesising, identifying and controlling variables, inferring, observing and comparing, interpreting, analysing, predicting, problem-solving and reflective skills;
- Each learner is required to conduct each experiment in the PAT;
- Each learner is assessed as an individual for the PAT; and
- Each learner is expected to write his/her individual report on the PAT.

The table below shows the schedule and weighting of Practical Assessment Task (PAT) experiments.

Table 7: PAT

Description	Time Frame	Weighting in terms of final PAT mark
Experiment	Term 1	40%
Experiment	Term 2	30%
Experiment	Term 3	30%
Total PAT Mark		100%

Note: Each experiment could be set out of a minimum of 30 marks and the total mark should be converted as per the prescribed weighting.

4.6.2. Assessment of PAT

The assessment tools used, specifying the assessment criteria for each task will be indicated by the nature of the task and the focus of assessment. The assessment tool could be any one or a combination of rubrics, checklists, observation schedules and memoranda.

The grade 12 PAT should be externally set. The grade 12 PAT should be both internally and externally moderated.

4.7 PROGRAMME OF ASSESSMENT FOR GRADE 12

The Programme of Assessment is designed to distribute the formal assessment tasks across the school terms. Formal assessment consists of three components: SBA (25 %), PAT (25%) and the final examination (50%).

Table 8 illustrates the assessment plan and weighting of tasks in the Programme of Assessment for grade 12.

Table 8: Assessment in grade 12

Programme of Assessment for Technical Sciences Grade 12								
Assessment Tasks		Term 1	Term 2	Term 3	Term 4	% of Final Promotion Mark		Marks
SBA	Control Test 1 (20% of SBA)	1 paper				5	25%	The marks of all three tasks are converted according to the weightings to give a total mark out of 100
	Mid-year examination (30% of SBA)		2 papers			7.5		
	Preparatory examination (50% of SBA)			2 papers		12.5		
PAT	Experiment (40% of PAT)	1				10	25%	The marks of all three tasks are converted according to the weighting\ to give a total mark out of 100
	Experiment (30% of PAT)		1			7.5		
	Experiment (30% of PAT)			1		7.5		
External Examination	2 Final Examination papers				2 papers	50	50 %	2 papers Paper 1 of 150 marks for 3 hours Paper 2 of 80 marks for 1,5 hours. 150 marks + 80 marks gives a total of 230 marks overall for papers 1 and 2. The 230 marks is converted to 200 marks.
Final Promotion Mark							100%	SBA + PAT + Final Examination = 100 + 100 + 200 = 400

Maximum marks for the SBA, PAT and Final Examination for Grade 12

Table 9: Formal assessment marks

Description	Maximum Mark
SBA	100 marks
PAT	100 marks
Final Examination	200 marks
Programme of Assessment	400 marks

4.8 RECORDING AND REPORTING

Recording is a process in which a teacher documents the level of a learner's performance in a specific assessment task. It indicates learner's progress towards the achievement of knowledge and skills as prescribed in the Curriculum and Assessment Policy Statement. Records of learner performance should provide evidence of the learner's

conceptual progression within a grade and readiness to progress or to be promoted. Records of learner performance should also be used to verify the progress made by teachers and learners in the teaching and learning process.

Reporting is a process of communicating learner performance to learners, parents, schools and other stakeholders. Learner performance can be reported in several ways. These include report cards, parents' meetings, school visitation days, parent-teacher conferences, phone calls, letters, class or school newsletters, etc. Teachers in all grades report in percentages against the subject.

4.8.1 Recording and reporting in the first, second and third terms

Schools are required to provide quarterly feedback to parents on the Programme of Assessment using a formal reporting tool such as a report card. The schedule and the report card should indicate the overall level of performance of a learner. **The term reporting will be based on the SBA and PAT tasks per term.** The term mark will comprise of **25% PAT and 75% SBA for each of terms 1 to 3.**

4.8.2 Recording and reporting at the end of the academic year

At the end of the year the final mark will comprise of **25% SBA, 25% PAT and 50% Final Examinations.** The weighting of tasks in the Programme of Assessment must be strictly adhered to when calculating the final mark of the learner in grade 12, at the end of the year.

4.9 MODERATION OF FORMAL ASSESSMENT

4.9.1 Moderation of SBA for grade 12

Moderation refers to the process that ensures that the assessment tasks are fair, valid and reliable. Moderation should be implemented at school, district, provincial and national levels. Comprehensive and appropriate moderation practices must be in place for the quality assurance of all subject assessments.

All formal tasks are internally/externally moderated. The subject head or departmental head for Technical Sciences at the school will generally manage this process at the school level. SBA tasks should be moderated at all levels (*school/cluster/district/province/national*).

4.9.2 Moderation of PAT for grade 12

Moderation of each term's PAT component can be done as early as in the following term, i.e. experiment 1 can be moderated as soon as the second term starts.

The moderation of the PAT should be onsite (face-to-face moderation). This onsite moderation should incorporate the following process:

- During onsite (face-to-face) moderation learners may be selected at random to demonstrate the different skills developed while conducting the experiments.
- During onsite moderation a 10% random sample of learners may be selected and asked to conduct the PAT experiments and to answer questions based on them.
- Learners may not request or obtain assistance from other learners during moderation.
- The school must ensure that all apparatus for the PAT experiments are available and in working condition at school during moderation.
- Upon completion of the moderation process the moderator will, if necessary, adjust marks of the entire group upwards or downwards.
- Normal examination protocols for appeals will be adhered to.

4.2.1 Assessment taxonomy for Technical Sciences

Appendix 1 provides a possible hierarchy of cognitive levels that must be used to ensure that tasks include opportunities for learners to achieve at various levels of cognitive demand. The verbs given in the fifth column below could be useful when formulating questions associated with the cognitive levels given in the first column.

APPENDIX 1: Assessment taxonomy for Technical Sciences

DESCRIPTION OF COGNITIVE	LEVEL	EXPLANATION	SKILLS DEMONSTRATED	ACTION VERBS
CREATING	4	The learner creates new ideas and information using the knowledge previously learned or at hand. At the extended abstract level, the learner makes connections not only within the given subject area but also beyond it and generalises and transfers the principles and ideas underlying the specific instance. The learner works with relationships and abstract ideas.	<ul style="list-style-type: none"> • Generating • Planning • Producing • Designing • Inventing • Devising • Making 	Devise, predict, invent, propose, construct, generate, make, develop, formulate, improve, plan, design, produce, forecast, compile, originate, imagine
EVALUATING		The learner makes decisions based on in-depth reflection, criticism and assessment. The learner works at the extended abstract level.	<ul style="list-style-type: none"> • Checking • Hypothesising • Critiquing • Experimenting • Judging • Testing • Detecting • Monitoring 	Combine, integrate, modify, rearrange, substitute, compare, prepare, generalise, rewrite, categorise, combine, compile, reconstruct, organise, justify, argue, prioritise, judge, rate, validate, reject, appraise, judge, rank, decide, criticise
ANALYSING	3	The learner appreciates the significance of the parts in relation to the whole. Various aspects of the knowledge become integrated, the learner shows a deeper understanding and the ability to break down a whole into its component parts. Elements embedded in a whole are identified and the relations among the elements are recognised.	<ul style="list-style-type: none"> • Organising • Comparing • Deconstructing • Attributing • Outlining • Finding • Structuring • Integrating 	Analyse, separate, order, explain, connect, classify, arrange, divide, compare, select, infer, break down, contrast, distinguish, draw, illustrate, identify, outline, point out, relate, question, appraise, argue, defend, debate, criticise, probe, examine, investigate, experiment
APPLYING		The learner has the ability to use (or apply) knowledge and skills in other familiar situations and new situations.	<ul style="list-style-type: none"> • Implementing • Carrying out • Using • Executing 	apply, demonstrate, calculate, complete, illustrate, show, solve, examine, modify, relate, change, classify, experiment, discover, construct, manipulate, prepare, produce, draw, make, compile, compute, sequence, interpret
UNDERSTANDING	2	The learner grasps the meaning of information by interpreting and translating what has been learned.	<ul style="list-style-type: none"> • Exemplifying • Comparing • Explaining • Inferring • Classifying 	summarise, describe, interpret, calculate, contrast, associate, distinguish, estimate, differentiate, discuss, extend, comprehend, convert, explain, give example, rewrite, infer, review, observe, give main idea
REMEMBERING	1	The learner is able to recall, remember and restate facts and other learned information.	<ul style="list-style-type: none"> • Recognising • Listing • Describing • Identifying • Retrieving • Recalling • Naming 	list, define, tell, describe, identify, show, know, label, collect, select, reproduce, match, recognise, examine, quote, name

28. Tourism

4.3 Formal Assessment

4.3.1 The formal assessment requirements for Tourism

- **Five formal theoretical (SBA) assessment tasks** must be completed during the school year in Grade 12. This accounts for **25%** of the total marks for the *end-of-year assessment* in Term 4.
- The **five formal theoretical (SBA) assessment tasks are compulsory.**
- The *end-of-year assessment* includes **two parts**: (1) A Practical Assessment Task (PAT) and (2) a **written theory paper**. Together these two parts make up the remaining **75%** in Grade 12.
- Together, **the three components** constitute the end-of-year promotion mark of a **100%**.
- In Grade 12 all SBA assessment Tasks are internally set, marked and moderated.
- The end-of-year NSC assessment (75%) in Grade 12 is externally set, marked and moderated.
- Each task must cater for a balanced range of cognitive levels as well as align to the prescribed range for levels of difficulty.
- An item and error analysis of learner performance must be completed after marking a formal assessment task. The purpose of the analysis is to expose a lack of knowledge and understanding or poorly developed skills. It further assists to identify the most suitable intervention strategy to improve the level of knowledge and understanding to improve learner performance.
- Assessment for the PAT is assessed internally by the teacher and Departmental Head responsible for Tourism. It is also moderated externally by the Subject Advisor / Provincial Subject Head.
- This process is verified externally by DBE/UMALUSI.

Table 1b Formal assessment Grade 12			
SBA Term 1	SBA Term 2	SBA Term 3	Term 4: Promotion mark
Task 1: Tourism Skills Assessment Task 25% Task 2: March Controlled Test 75%	Task 3: Mid-year Examination 100%	Task 4: Data-handling Task 25% Task 5: Trial Examination 75%	SBA = Term 1+2+3 = $300 \div 3$ = 100 PAT = 100 Nov NSC Examination = 200
100	100	100	$400 \div 4 = 100$

** SBA = School based Assessment

In Grade 12 only **one internal exam** is compulsory. Schools may therefore:

- Write both exams; or
- Replace one of the exams with a test at the end of the term. This test will have the same weighting as the exam and must cover a substantial amount of work.

The June Examination / Formal Test should comprise of 30% of content covered in Term 1 (focusing on content that was not assessed in the Term 1 Formal Test), and 70% of the new content covered in Term 2.

4.4 Types of Formal Assessment Tasks in Tourism for Grade 12

4.4.1 Tourism Skills Assessment Task

The Tourism Skills Assessment Task is an assessment task that requires the learner to demonstrate and apply understanding of: (a) Soft Skills; (b) 21st Century skills and (c) Entrepreneurial Skills.

The scenario provided as an introduction for the task can be presented to the learner in the following formats:

- written text / visual text
- audio clip / video clip

To set the Tourism Assessment Skills Task for Grade 12, the teacher should:

- Set a task with a minimum total of 50 marks;
- Determine and indicate the skill/s to be assessed;
- Link the skill(s) to tourism specific content in Term 1;
- Select / create a scenario that is current and real;
- Select / create the scenario relevant to the identified skill/s and content covered in Term 1;
- Provide information about the skill/s and/or content;
- Develop the task with clear instructions;
- Develop an assessment tool with a clear breakdown of expected criteria and guidelines for the assessment.

Any of the following 21st Century Skills may be selected for the Tourism Skills Assessment Task:

Grade 10	Grade 11	Grade 12
<ul style="list-style-type: none">• customer service skills• communication skills• planning skills• sales skills• creativity/design skills• problem solving skills• critical thinking skills• collaboration skills• digital skills• entrepreneurial skills• reading interpretation skills	<ul style="list-style-type: none">• customer service skills• leadership skills• generic management skills• digital skills• planning skills• marketing skills• management skills• entrepreneurial skills• critical thinking skills• collaboration skills• teamwork• reading interpretation skills	<ul style="list-style-type: none">• customer service skills• financial management skills• human resource management skills• business administration skills• price setting skills• social media skills• budgeting skills• tourism channel skills• collaboration skills• entrepreneurial skills• critical thinking skills• reading interpretation skills

****** *All the above skills as well as any additional skills required to provide a framework for strengthening of critical thinking as well as technical skills.*

4.4.2 Data Handling Task

Data handling is a source-based single-sitting assessment task, where learners engage with and analyse data, **to include the following skills:**

- Collecting data
- Organising data
- Representing data
- Interpreting data
- Discussing data.

Data handling can be applied to any topic in the Grade 12 Tourism Teaching Plans covered in Terms 1, 2 and 3.

Various stimuli, containing statistics / data can be used as a source from where questions flow: Examples: Maps; case studies; scenarios; extracts; pictures; cartoons; advertisements; flow-charts; tables; graphs; infographics; reports.

To set the Tourism Data Handling Task for Grades 12, the teacher should:

- Set a task with a minimum total of 50 marks;
- Select any suitable topic that links to data handling, from the content covered in the Teaching Plans for Terms 1, 2 and 3;
- Create or source relevant and preferably recent data/information;
- Give clear instructions to guide the learner on how to complete the task (*The learner should know exactly what to do.*)

- Give clear assessment criteria for the learner to know exactly what is expected for the response.
- Develop a relevant assessment tool that aligns to the instructions and assessment criteria of the task.

4.4.3 Controlled Tests

A test for formal assessment may not comprise of a series of small tests and should cover a substantial amount of content.

Criteria for setting a question paper for a test in Grade 12

- Set a test with a minimum total of 50 marks;
- Minimum time allocated is 1 hour;
- *The first page of the test must include:* The name of the school; the date; name of the subject; grade; time allocation; name and number of the SBA task; mark total; name of the examiner and moderator;
- All test papers must be neatly typed;
- All maps / graphics / illustrations should be print clear;
- The question paper should be error free e.g. no spelling, language, translation or mark allocation errors are allowed;
- It is compulsory for all tests to include TWO sections (Section A and B).
- It is compulsory to include scenario / case study-based questions that require:
 - Longer reflective responses in a paragraph format. (minimum 5 marks)
 - Higher order thinking skills that require substantiating evidence/motivations/arguments.
 - Source-based questions (maps, case studies, scenarios, extracts, pictures, cartoons, advertisements, flow-charts, tables, graphs, and infographics.)
- Each test must cater for a balanced range of cognitive levels as well as align to the prescribed range for levels of difficulty.
- An action verb is used to open the question. This gives a clear instruction for what is expected for the response.
- An item and error analysis of learner performance must be completed after marking a formal assessment task. The purpose of the analysis is to expose a lack of knowledge and understanding or poorly developed skills. It further assists to identify the most suitable intervention strategy to improve the level of knowledge and understanding to improve learner performance.

TEST: Minimum total - 50 marks		
SECTION A: Short questions	Minimum marks	Percentage
	15 marks	30%
Include a variety of other short questions (Examples: Multiple choice; Pairing off items; Choose the correct word, Select the answer from a list; Crossword puzzles etc.) Note: NO true/false questions are allowed. Section A: Includes mostly one-mark questions. (More marks may be allocated to a question to align with the level of difficulty and /or cognitive demand of the question.)		
SECTION B: Long Questions	Minimum marks	Percentage
	35 marks	70%

Criteria for setting a Marking Guideline for tests in Grade 12

- The first page must contain: The name of the school; the date; name of the subject; grade; time allocation; name and number of the SBA task; mark total; name of the examiner and moderator;
- All marking guidelines must be neatly typed
- No spelling, language or translation errors are allowed.
- The numbering format must be correct and the numbering must align accurately with the question paper.
- Indicate the mark allocation for each fact with a tick✓
- Include all the alternative responses that are considered as correct answers on the Marking Guideline.

4.4.4 Examinations: Grade 12

All examinations should adhere to the specified layout indicated in the tables below.

Question paper layout for the Mid-year Examination

The June examination should be weighted by assessing **30% of Term 1's** work and **70% Term 2** work. The 30%-70% ratio has already been included in the June examination layout below (Sections B -E).

Section A should comprise 30% Term 1 and 70% Term 2 content respectively. The weighting of marks must further align to the teaching time spent on the topic.

Grade 12 – June Examination

Total: 200 marks

Duration: 3 hours

Content		200 Marks
Section A	Short questions (all topics covered in term 1 and 2) Term 1 content (30%): (12) Term 2 content (70%): (28)	40
Section B	Map Work and Tour Planning; Foreign Exchange	60
Section C	Tourism Attractions	50
Section D	Tourism Sectors	30
Section E	Domestic, Regional and International Tourism,	20

Grade 12 Trial and Final NSC Examination layout

Total: 200 marks

Duration: 3 hours

Content		Grade 12
Section A	Short Questions (All Topics)	40
Section B	Map Work and Tour Planning; Foreign Exchange	50
Section C	Tourism Attractions; Cultural and Heritage Tourism; Marketing	50
Section D	Tourism Sectors; Sustainable and Responsible Tourism	30
Section E	Domestic, Regional and International Tourism; Communication and Customer Care	30
TOTAL		200

4.4.5 Practical Assessment Task (PAT)

- Learners are assessed in a Practical Assessment Task, to include the practical concepts of the subject for formal assessment.
- The PAT for Grade 12 will be externally set every year. Provinces and schools may not change or retype this task or use the task of the previous year. The Grade 12 PAT will be moderated externally.
- The PAT is moderated at all **Levels of Moderation**: School/ District/ Provincial. The quality of the PAT will be approved by the Subject Advisor/ Provincial Subject Head to standardise the quality of assessment.
- The PAT should be administered under controlled, examination conditions.
- The PAT will be conducted in an **8 hour session**, broken down into **two four (4) hour sessions**. Both sessions should take place in the second term. These sessions can take place before or during the mid-year examinations.
- The PAT should be fully completed by the end of the **second term**.
- Candidates not attending the PAT session**: With or without a valid reason will be dealt with in accordance

to the National Protocol for Assessment (NPA) paragraphs 4B(f)(ii), 6(4)(a)(ii), 8(1), 8(4), 8(5), 8(6), 8(7), 9(2), 10(3), 14(1)(b), 14(1)(d), 14(1)(e) and the National Policy pertaining to the Programme and Promotion Requirements (NPPPR) paragraph 29(1).

- In Grade 12 foundational practical skills from Grade 10 and 11 may be assessed.
- Practical skills assessed in the PAT should be specified in the teacher and learner instructions.
- A **PAT mediation and resource pack** is prepared for the implementation and assessment of the PAT.

The PAT mediation and resource pack should include:

- The assessment task with the instructions to teachers and learners;
- The Assessment Tool;
- A Marking Guideline;
- A Moderation Tool for all levels of moderation;
- All the basic resources required to complete the PAT; and an
- Attendance register for learners and invigilators.

4.5 Moderation of assessment

School based Assessment Tasks (SBA)

- All Grades 12 SBA tasks are moderated internally.
- It is compulsory for the Subject Advisor to moderate a sample of these tasks during school visits, to verify the standard of the internal moderation.
- Grade 12 PAT tasks are moderated externally by the province, DBE and Umalusi.

Practical assessment Tasks (PAT)

- It is compulsory for the Subject Advisor to moderate a sample of PAT tasks during school visits, to verify the standard of internal moderation.
- It is compulsory for PAT tasks to be included for all prescribed levels of moderation.
- Grade 12 tasks are moderated externally by the province, DBE and Umalusi.
