1.4. Language in Education Policy (1997) Section 3 (4)(m) (compels the Department to promote multilingualism, to develop the official South African languages equitably, and to foster respect for all languages used in the country including the South African Sign Language).

1.5. Eastern Cape use of official languages Act (2016) (promotes parity of esteem and equitable treatment of the official languages of the Republic and facilitate equitable access to the services and information of the department.)

1.6. Any other applicable provincial law

2. BACKGROUND AND CONTEXT
Registration and admission of learners has become one of the biggest challenges in the sector/Department of Education. The common problem, thus far, is the fact that the English Medium schools are currently faced with the problem of absorbing all applicants, and the informal settlement schools are over-populated whilst schools in the old settlements become under-populated. Demands for admission at performing schools remain a challenge in the sector/Department of Education.

It is further noted that, school principals are admitting learners that are more than the figures declared in the Post Provisioning Norms (PPN) distribution and that creates problems when it comes to allocation of learning areas/subjects. The school must

make a written request to the Head of Department if there are valid reasons forcing them to admit more learners on top of the enrollment that has been used to calculate PPN via District Director for recommendation. No growth post will be considered for any school that has not been granted official approval to increase learner numbers after receiving the official staff establishment.

There are schools that have exceeded learner enrollment, the maximum number of 930 to a large Primary School and 1000 in the case of Secondary School.

The above-mentioned scenario is further complicated by a number of small schools that are offering diverse curriculum streams with limited human resources and thereby compromising quality teaching and learning.

It is the responsibility of Head of Department to administer admission of learners in all public ordinary schools and further approve curriculum streams to be offered, however all principals of schools are legally delegated to perform this function as proxy of the Head of

Department.

The principals of public schools must ensure that, all eligible learners especially those of compulsory school going age access admission without any unfair discrimination.

School principals and their School Governing Bodies (SGBs) should ensure that learner admissions are conducted according to age qualification, workplace etc. Documents required are certified copy(ies) of Identity document, birth certificate, Proof of Immunization card, School report and School transfer letter.

According to Circular 1 of 2020, the Head of Department is directed to admit all children not in possession of an official birth certificate into public schools in the Eastern Cape Province and where a learner cannot provide an official birth certificate, the principal of the relevant school is directed to accept alternative proof of identity.
such as an affidavit or a sworn statement deposed to by the parent, care giver or guardian of the learner wherein the learner is fully identified.

It is further stating that the head of department is restrained from, in any manner, whatsoever, removing or excluding from schools, children, including illegal foreign children, already admitted, purely by reason of the fact that the children have no identity document number, permit or passport, or have not produced any identification documents.

3. DELIBERATIONS

3.1 A public school must admit learners and serve their educational requirements without unfairly discriminating in any way.

3.2 The principal of a public school represents the Head of Department (HOD), who has prerogative to accept or decline requests on admission of learners. Hence, he/she will be expected to give update to the district director, periodically or when requested to do so, on all matters related to this delegated function.

3.3 School Governing Body of public schools must determine the school admission policy taking into consideration the linguistic demographics of a school in compliance with the pieces of legislation(s) as cited above.

3.4 School Governing Body of public schools may determine the School Language...
Policy (SLP) subject to the Constitution and other relevant laws, wherein the parents/guardians are afforded an opportunity to administer language choice forms for language/s of teaching, learning and assessment.

3.5 Home language/s must be maintained, while opportunities to learn additional languages/s are offered.

3.6 The school must establish learner admission committees to administer learner admissions properly and liaise with the District Learner Admission committee (DLAC).

3.7 ALL APPLICATIONS of learners MUST be captured in SASAMS with their Identity Numbers clearly reflected.

3.8 The schools must observe and comply with admission requirements and Management Plan as it has impact to resourcing aspects of the department.
