Snapplify Access

User and identity management is a crucial aspect of rolling out a large-scale digital project, which is why our authentication technology is **free for governments**.

- **Single sign-on** built for education
- Use existing accounts to sign in to over 600 digital education tools – **quickly onboard** to new platforms and apps
- **Greater security** through a strong and unified identity policy
- Log in using existing **Snapplify, Google, Microsoft or Apple** accounts

600+ local and international platform integrations

Deep integration

- Authentication tools integrate with leading existing **Single Sign On** and **Directory** integration partners
- **Leading LMS integrator via LTI** – the only African integration partner for 1EdTech

and hundreds more LMSs

Data and analytics

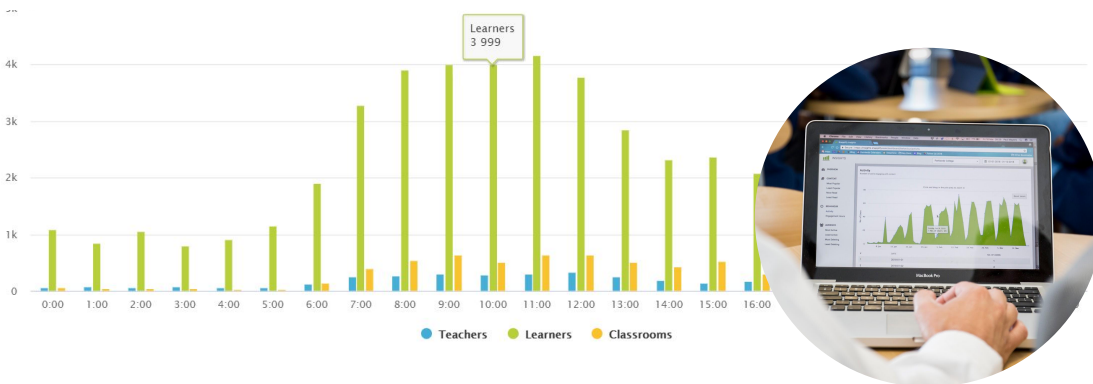

- **Monitor** content usage
- **Analyse** reading behaviour and usage trends
- **Track** multiple users, schools and regions
- **Verify** the impact on academic outcomes
- **Inform** textbook procurement strategies

User analytics and metrics

User analytics and metrics are available per learner, and reports can be generated up to the school, district, and provincial level.

Reports based on literacy assessment tools and STEM assessment tools can also be generated.

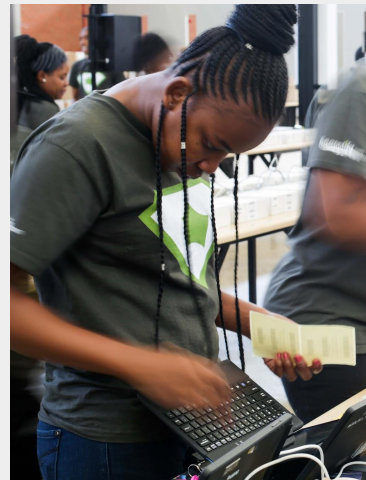

Reports include:

- When the student last used their reader application
- The average user activity over the last 30 days
- The average user activity per day and total number of engagement hours
- The total number of notes and highlights that the student has made
- The total number of devices that the student is using (these are the devices that they have loaded the Snapplify Reader on)
- The total user activity per book

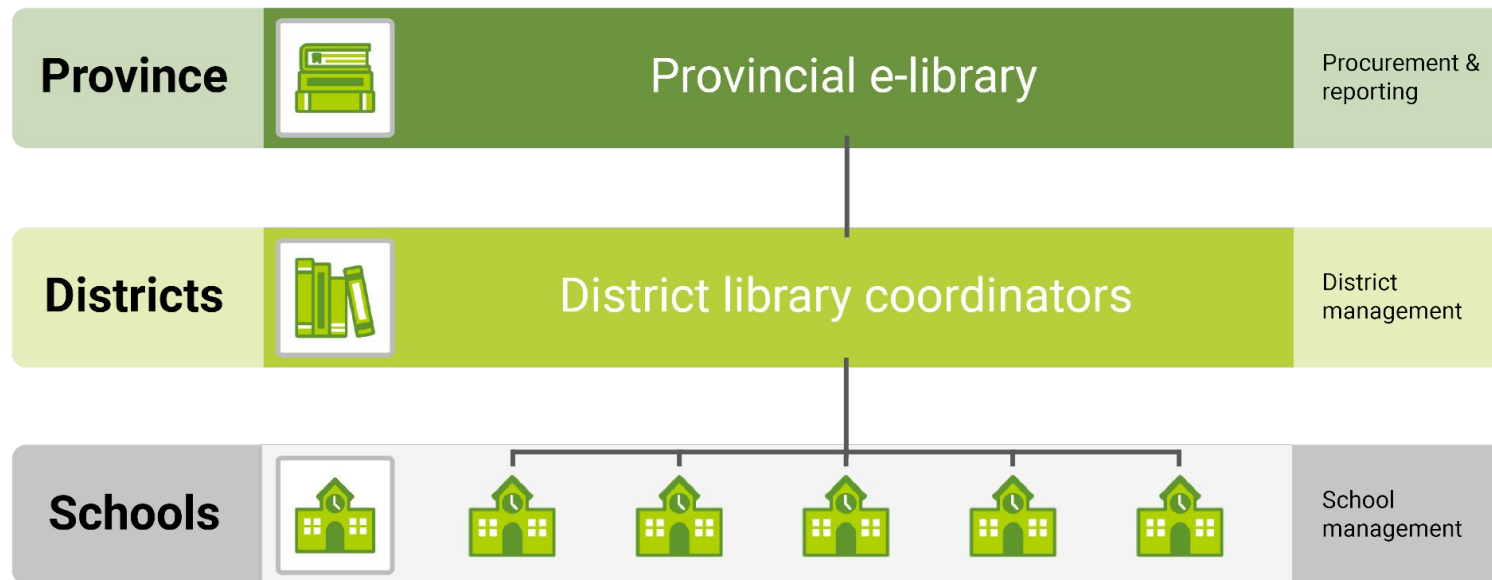

Large-scale rollout

Our deployment team is:

- **Tech savvy**
- Able to **deploy unique content in high volume**
- **Create unique user accounts in bulk**, across multiple institutions
- **Create unique content packages in bulk**, across multiple institutions, grades and subject choices

Structural e-library framework

World-class local support

- Lecturers, staff and students are supported **on and off campus**
- Live technical support – **24 hours a day, 7 days a week**
- Access online help articles, tutorials and FAQs – **24 hours a day**
- **Support in local languages** – English, Afrikaans, isiZulu, isiXhosa and more
- **SACE accredited** training available
