

FOREWORD

This document was developed by the Eastern Cape Department of Education in collaboration with the District Curriculum Personnel in response to a need identified by teachers during the monitoring of the implementation of Economic and Management Sciences (EMS) in GET classrooms, namely, to provide standardised exemplars to be used when Planning for teaching and learning and when Assessing and recoding learners' work.

The document provides exemplars of Learning Programmes, Work Schedules together with lesson plans for EMS for each grade in the GET band. Examples of assessment tasks with appropriate assessment tools to be used for each task are provided in the lesson plans.

The exemplars are intended to assist teachers to plan and teach Economic and Management Sciences in the GET band in accordance with the prescripts of the NCS.

This should be regarded as a support document for EMS implementation and must be read and used in conjunction with the National Curriculum Statement for Economic and Management Sciences as well as the National and Provincial Assessment Guidelines.

ARTS AND CULTURE
LO 1

Teacher asks the class a question about roles members of the learners' families perform

Teacher explains the concepts producer and consumer and then facilitates a simulation exercise. Divides class into two groups and instructs the learners to demonstrate the difference between a consumer and a producer

The teacher explains the needs satisfaction process. Show learners pictures and flash cards of consumers, producers and asks what exactly each party's role is. Answers can be put on board by means of flash cards and pictures so that they can get a good idea of how the flow of goods work.

The teacher explains the concepts resources and services. Supply learners with pictures illustrating services and resources. Working in groups they identify what resources and services are.

NEEDS	WANTS

Groups compare their lists. If not similar, they must try to agree on what Mrs Bete needed to buy, and on what she did not need to buy.

Activity 2(a)
The learners respond to the question:
What activities or roles do the members of your family perform?
They brainstorm the roles of their household members

Activity 2.(b)
Learners simulate a scenario where they demonstrate the difference between "consumer" and "producer". After the exercise, the class come up with their own description of "consumer" and "producer" based on what they have been demonstrating.

Activity 2(c)
Learners answer questions and also put the pictures and flashcards on a poster to show understanding

Activity 3.
Learners in groups identify from pictures resources and services
They investigate the effect on the community of both responsible and irresponsible use of resources using print media, TV internet, people, radio etc. Their findings will be presented orally

The teacher develops a questionnaire for learners to investigate the effect on the community of both responsible and irresponsible use of resources and services e.g correct and incorrect use of water. soil erosion pollution of dams, recycling, re-use etc

The teacher explains the concepts subsistence and highly developed economies. Learners are instructed to launch a survey to determine the standards of living within their society

Activity 4. Learners conduct a survey

QUESTIONNAIRE	1990	1994	2008
Use a or x			
Do you live in a shack?			
Do you live in a brick house?			
Do you have running water in your house?			
Do you have enough food to eat?			
Do you have electricity?			
Do you have health care?			
Do you/your children have proper education?			
Do you have any transport? Bicycle Motorbike/scooter Car			
Are you productive? Do you have a job?			
What is your monthly income? Between R0 –R1000 Between R1000 – R2000 Between R2000 – R5000 More than R5000			

- Learners will use the above information and summarize it
- They must come up with a conclusion
- They must keep all the records to repeat the survey again the following year to determine whether economic growth and economic development has taken place

Activity 5 – MAKE A COLLAGE [PRESENTATION]

Collect as many pictures as possible from different magazines, newspapers as you can to make a collage of needs and wants

Form : Survey

Resources: Text Books, Chalk Board, Pictures, newspapers, magazines, work sheets, TV, radio, worksheet

Barriers to Learning

Expanded opportunities	Learners are instructed to observe what is happening in their communities and over a period of two weeks list ways in which people in the community are wasting resources and using resources responsibly. They also have to report on what needs to be done to restore the damage done to resources and services in the community.
Teacher Reflection	Were the outcomes met? Did learners perform well in assessment? Did the activities strengthen learners' understanding? How can I improve group work?

Criteria	Marks			
	LEVEL 1 Not achieved	LEVEL 2 Partly achieved	LEVEL 3 Achieved	LEVEL 4 Outstanding
Data collection	Needs more guidance from the educator	Needs additional assistance in only some aspects	Satisfactory, but could improve by following suggestions	Skills well used and developed
Relevance	Needs to sort information collected for relevance	Needs to collect some additional information	Most information collected but could be supplemented	All the relevant information has been collected and captured
Attractive	Not attractive at all. Only try to complete task	Too dull and little effort put in.	Satisfactory but could improve	Attracts attention, colourful, well done
Oral presentation	Learner shows little command of the topic and needs guidance	Very basic presentation. More practise needed.	Satisfactory, illustrates command of presentation.	Outstanding presentation
Content	Little knowledge of the difference between needs and wants	Some knowledge of the difference between needs and wants	Awareness of the difference between needs and wants	Excellent presentation of the content

Grade 9 Project: Business Plan

Due Date _____

Introduction

Read the following information carefully before starting work on your Business Plan

1. This project involves drawing up a business plan with a view to starting your own business, which you will run together with the members of your group in the second term.
2. At this stage you have already conducted a needs analysis survey to determine whether your target market will in fact be interested in purchasing your product.
3. Each component of the business plan should be completed in full.
4. Take some time to go through the assessment rubric, as this will give you an idea of how your teacher will be evaluating your project.
5. Even though the project is done as a group it is your responsibility to ensure that the project reaches your teacher by the respective due date or marks will be deducted.

Learning Outcome 4: Entrepreneurial Skills – The learner will be able to demonstrate entrepreneurial knowledge, skills and attitudes.
Assessment standard 1 : Generates through SWOT analysis, possible business ideas to meet the need for manufactured goods or services.
Assessment standard 2 Develop a business plan(including a budget) for a manufacturing, service or tourism enterprise based on the best business opportunity from business ideas generated.

1. TITLE PAGE

The information on this page should include the following:

- Name of owner/s
- Name of business (Bear in mind the form of ownership chosen)
- Business logo or emblem

Your title page is the first impression a financier (a bank) will get of your business plan. It therefore has to be set out professionally.

2. CONTENTS PAGE

Give a list of the **major sections** of the business plan, including **sub-sections** and their respective page numbers. (This can only be done at the end)

3. MISSION STATEMENT

List your goals and objectives for the business opportunity and give a motivation for each:

- Ensure that the goals and objectives you have identified are achievable.
- Consider what you would like to achieve in your business. **This should not only be profit based.**

4. EXECUTIVE SUMMARY

This must include the following items:

- Name of the owner(s)
- An appropriate name for the business
- Type of business(service or trading)
- Address and contact details of the business.
- Name and describe your product(s) in detail.
- List the raw materials used to make your product.
- What is the estimated price of one unit of your product?

5. FORM OF OWNERSHIP

Decide on a form of ownership for your business and give a reason for your choice.

- Select from a sole trader, partnership or close corporation.
- Identify the **Economic sector** within which the business operates.

6. TARGET MARKET

Give a detailed description of your target market

7. STAFF STRUCTURE

Describe the following with relation to your staff:

- The number of employees needed to run your business efficiently.
- Levels of skills of your employees (Who does what)

- Management structure of your business by way of an organogram.
- Staffing costs (How will the staff be paid)

8. COMPETITORS

Your business will be competing against other businesses.

- Who are your potential competitors and what are they selling?
- Do you see your competitors as a threat to your business and why?
- What are you going to do differently to ensure that customers buy from you and not from your competitors?

9. MARKETING PLAN

A marketing plan is essential for the success of any business, as it links the customer to the goods offered by the business. To design a good marketing plan you need to consider the four P's essential to the marketing of goods and services namely:

- **PRODUCT** – how will your product benefit the customer and how will it be packaged.
- **PRICE** – what will the price range of your product be?
- **PROMOTION**- how will sales and advertising take place?
- **PLACE** – where will you be selling your product?

SWOT Analysis- Strengths, Weaknesses, Opportunities and threats

10. PRODUCTION PLAN
