## ECDDoE Curriculum Support: Online Resources

A large number of Curriculum Teaching and Learning Support Material has been developed for teachers and Learners and is available at <http://www.eccurriculum.co.za>. This is relevant for...

- Grade R (Play, Learn & Grow Together)
- Foundation Phase (Lesson Plans & Trackers)
- Intermediate Phase (Pace Setters, Lesson Plans & Worksheets)
- Senior Phase (Pace Setters, Lesson Plans & Worksheets)
- FET Phase (Worksheets and Trackers)
- eLearning (Various resources)

It would be appreciated if **teachers, learners and parents** could be informed.

UPDATED

## Updating of the Websites

The websites are being updated nearly every day during this Lockdown time. Please check them regularly. Within the next few days the videos of the lessons which were broadcasted by the ECDDoE the past two weeks, will also be made available.

- [www.eccurriculum.co.za](http://www.eccurriculum.co.za)
- [www.ecexams.co.za](http://www.ecexams.co.za)

## Circulars

The following documents are available at <http://www.eccurriculum.co.za/Circulars.htm>:

- Memo - Instruction 10/2020: Curriculum Support during COVID-19 Lockdown
- Memo - Instruction 11/2020: Issues of Health and Wellness (COVID-19)
- SABC and DBE launch COVID-19 TV and Radio Curriculum Support Programmes for Learners
- Standardisation of the Qualifications for Advertisements for Posts of Deputy and Assistant Directors in the Province

INTERACTIVE CLASSROOM SOLUTIONS

## Could this be the answer for remote teaching in South Africa?

Dear SGB, Principals, Teachers & Parents,

As the whole world changes the way it operates during this pandemic, teachers, students and parents are having to adapt to new lockdown situations and social distancing protocols which include teaching students at home. The Coronavirus has accelerated the need for remote teaching, a very scary thought for many of us. We would like to offer all our schools and teachers the opportunity to try Moza. It is an incredible software with multiple built in resources and tools for teachers, parents and students and it is ideally suited for in-class or at home-environments.

We are offering you an incredible opportunity to trial this premier teaching and learning software. Have a look at this quick demo video here ([link](#)) to understand why it's so special. During this extraordinary time, we are offering extended trial licensing until mid June 2020.

It is undoubtedly the most fascinating and absorbing interactive remote learning software with thousands of resources for Grade 1-12 subjects. Teachers can create 3D interactive presentations, or import and modify their existing teaching resources with images, narratives, videos, 3D resources and subject specific tools & games. Learners can sit at home, follow the lesson sent by the teacher, engage, contribute and then do an assessment at the end of the presentation to demonstrate if they understood the content or concept. The classroom is brought to YOU, right in front of you, on your device in a crystal clear and immersive manner.

These are just a few of the key features:

- Incredible functionality to import your own lessons and educational content or choose from many other free or paid for textbooks, from Grades 1-12 from the MozaLibrary. For example you can import any of your DBE CAPS workbooks or open source textbooks, PowerPoints, Word Documents and populate and enrich the pages with any of the Moza assets below.
- 1246 amazing 3D resources (very powerful and interactive)
- 147 pre-made subject specific lessons - totally customisable!
- 5293 educational images
- 776 audio clips
- 1065 educational videos with narrative
- 119 tools & games
- Instantly create quizzes and assessments
- All of this in one easy to use application

In addition, to help parents, teachers and learners better understand [mozaBook](#) interactive remote teaching and learning software, we would like to invite you to join our 20 minute demo webinar next Tuesday the 14th of April. If you'd like to attend, please answer our quick questionnaire, so that we can also send you an invite, ([questionnaire](#)) and set a time that is most suitable for everyone. We'll also send you a license key and download instructions to your email address.

EduBoard is operating remotely during the lockdown and will be readily available to assist with any enquiries, sales

or remote technical assistance you require. Please see our [contact details](#) on our website for more info.

Wishing you and your families strength and courage - stay safe and healthy.

Yours Sincerely,

The EduBoard Team
