Circulars

The following new circular is available at <http://www.eccurriculum.co.za/Circulars.htm>:

● **Memo - Instruction 16/2020: Temporary exemption of certain school based officials**

MEC Gade on the roll out of ICT partnership with MTN & Sizwe

"The Eastern Cape Department of Education has, over the recent past, consciously invested significantly on ICT infrastructure. This was necessitated by the need to turnaround the outcomes of the Department and thus take it to the next level "to achieve something you have never achieved before, you must do something you have never done before". The return on ICT investment has yielded positive outcomes for the Department. This is evidenced by the upward trajectory on learning outcome for all grades, and improvements in administration outcomes. These successes were achieved through targeted partnerships with a number of industry leaders in the ICT space.

"The outbreak of the COVID 19 pandemic, that took the entire world by surprise, was a real test of ICT capacity and capability in the Department. When the South African President Cyril Ramaphosa ordered the closure of schools on the 15th of March 2020 across the country, this led to an unprecedented disruption of schooling and curriculum delivery.

"The Department's long-term ICT investment enabled an immediate response to the disruption by implementing a direct curriculum intervention. It further ensured business continuity in some of the key and strategic areas of the Department, e.g. Curriculum delivery through virtual lessons live streaming, Communication & Customer Care, etc. The Department wants to build on these improvements and add another layer of ICT investment by rolling out ICT to learners."

Pearson: Free professional development online courses for teachers

Free professional development online courses for teachers

Complete an online course and learn new approaches to teaching by acquiring the practical skills to apply in your classroom.

K12 Distance Learning

In this module we've compiled tips and strategies and embedded them in an approach for transitioning your face-to-face teaching to a digital implementation.

Digital Citizenship for Teachers

This course is endorsed by SACE and you can earn 15 CPTD points.

This course is designed to help you as an educator to become a successful digital citizen and to help build your learners' digital literacy skills.

Effective Feedback

In this module you will explore the main concepts of effective feedback, examine how effective feedback is used in teaching and learning and learn strategies for providing effective feedback.

Differentiated Instruction

This course is designed to help you identify the needs of individual students in a diverse class and how to meet these needs by using a variety of grouping and instructional strategies.

How do I get it?

1. Complete the online form: <https://bit.ly/3bav4Wv>
2. We will send you an access code and instructions on how to access the courses.
